NOTATION: HOW TO HELP FREE ANIMALS, FOWL AND SEALIFE FROM LIVES TOO HORRIBLE TO CONCEIVE! HERE IS WHAT WE DO:

We walk into second hand stores and look for bird cages or fish tanks and buy them. We take them home and take wire cutters to the bird cages and smash the fish tanks, and whilst we are carrying out these acts of compassion, those who wish to buy birds or fish and who could not have bought them should they need buy even inexpensive cages or inexpensive tanks for fish as a prerequisite - this changes the outcome of incarceration-for-life in cages and tanks for certain ones. This we do in **ALBERTA, CANADA**

In **KARAHATAN, VALENZUELA CITY, PHILIPPINES** we began buying fish and birds and releasing them.

The birds are released outside the pet shops in the outdoor market and the fish in **Peoples' Park.** Jamie has continued working on this great act of compassion and today not one pet store in the community where our house is continues in business save that if such ones groom dogs.

In fact, **Peoples' Park** no longer keeps any chimpanzee, nor rabbits, nor birds of any fashion, nor any sentient beings save that of fish whom now reside in large and not so large ponds with like-minded vegan fish **and all is well and the peoples are to also be congratulated along with the entire staff who always have treated us royally.**

There are no dogs on short chains any longer; no cats nor kittens with punctured eyes and no roosters chained by the legs and no pigeons in small hot cages.

And for those who cannot pay but elicit souls of compassion there are vets whom come around and spay and neuter your pets and occasionally treat an animal found on the street for not even a paltry peso. **Peta** and **PSPCA** are also working round the clock in educating the peoples and it is paying off.

We are **PROUD OF THE PEOPLES**, for once they understood the oneness among all creation they stopped their error and corrected their way of conduct. Jamie to this day continues in other sections in bringing the enlightened understanding by his very unselfish deeds. - Uthrania Seila

278. In The Beginning All Were Vegan - The Journey From Heaven To Hell!

In The Beginning All Were Vegan

The first HUmans loved and lived their vegan Way of Life until the Hellions broke through a hole in the **fabric of space** which the **Federation Scientists** accidentally created allowing the Hellions whom the Scientists had never heard of, through, and this changed that paradisaical **Way Of Life**, for the Hellions began hunting down all who belonged to the Federation, making blood sacrifices out of both the HUmans and animals and all Sentient Beings, until every Sentient Being **of each and every caliber were blood sacrifices.**

This is how each and everyone began to live in the Hell-ion world; in other words, in Hell.

This is how the peoples, themselves, whom used to be vegan were indoctrinated into this way of life and this way of Hellions thinking.

This was the first recorded persecution of both HUman and beast, fowl and sealife and each and every crawling and climbing, running and slithering Sentient Being;

even the crabs, lobsters, shrimp and rock crab, oyster and octopus, walrus and shark, porpoise and manta-ray were not safe and the great blue whale and its companions of the sea ***were not safe from the prying eyes and hand of the new hu-man.***

The second event which happened was when the Hellions began cross breeding their meat-eating non-HUman Sentient Beings with the herbivores belonging to the Federation. The Hellions then began procreating with the HUmans of the Federation whose thinking had changed the actions of those men and women from **the Federation of Unified and Free Planetary worlds.**

The HUman being never once needed to eat meat, dairy nor eggs for survival. We do not mingle what happened with that which irregular history books and other schools of instruction like to record.

HUmans never needed to eat animals for survival. That was ingrained into them after generations of forgetting their own heritage and the heritage of all the Federation's non-HUman Sentient Beings.

After much calamity and earth changes occurred, the HUman = Holy = moral and ethical U = Universal Beings along with the non-HUman Sentient Beings began preying upon each other for food; some for sacrifices to the Hellion gods and goddesses to spare them from future earth calamities.

This sent many dear Ones underground in order to escape those with sacrificial rituals which would take their lives and the lives of the non-HUman Sentient Beings in a most disgraceful and sadistic manner toward a cause which would never serve the gentile and brilliant people and non-HUman Sentient Beings of **the Federation of Free and Unified Planetary Worlds**

but instead would serve them all up as sacrifices through wars and religious backing to wars enslaving them for lifetime after lifetime until the Peoples could free themselves and the non-HUman Sentient Beings **from the overlords of the most gruesome and unfair monetary system the Federation had ever seen or before experienced.**

WE did NOT lock-up animals, fowl nor any other living, breathing Sentient Being nor use them for entertainment at their own expense.

THERE IS NO SANE WAY TO MURDER NON-SENTIENT BEINGS WHOSE LIVES AND LIBERTY LIE IN THE HANDS OF TWO-LEGGED SENTIENT BEINGS **WHO CHOSE TO CALL THEMSELVES AS BEING HUman.**

The next time you see a baby child who happens to be a monkey and who looks different from the each of ye Ones, do not turn your face just because it is convenient to do so.

Good Day.

EXCERPT FROM OUR BOOK: PLANETARY REFORM

Friday, 14th July 1995 11:58 am

HYJINX OF THE NEUTRAL TERRITORY

You and your people have long since tried to format an epidemic of non-appearance. What we must try to make you understand here is, that simply speaking in order that even the children of your race understand, it is not in accordance with any **Universal Laws,** that you Ones are to place any type of restrictive quality upon the resources of the nations!

For instance, coal should belong to all! And equally speaking in accordance with the atomic law of all known and unknown physics, heat, which is to be generated by the placed rays of the Sun, is not to be held in respective bondage, for only the majority of restrictions are to be abated in likeness of those, who are so well attuned into exclamating the far-mindedness of conjecture into the halls of fortune. The rich need survive on the same textures as the ill equipped. Understand?

Farms need replenishing or crops will die. If the crops die, so do the people who farm the crops, and the people who buy the crops. ***Understand?***

The water must be made pure again for the nutrition of all Earth's inhabitants. And indeed even with your amount of pollution this is indeed possible. In order to purify the water content, the table must be organically fixed with a large conduit filter system. As

the water is organically filtered throughout the soil and permeates throughout the grasses, it will in time automatically cease to shift its nutrients of concoctions into the soil.

In order to make the soil then into a makeshift filtering device because of its high level of toxicity, you must ferment an aberration of soil substances of grease type texture, and then, as the water filters throughout the Earthen soil types, it will regenerate back into the soil and the grasses a releasing of the pressure of gasses, which are indeed indicative of the real polluting factor.

These gasses, which hydrogate within the confines of Earth's atmosphere, will be released in the formation of small bubbles of neupheous hydroxide, you see, and therefore will perform to radiate from the wet gasses in the atmosphere a contexture of neutrality. ***Do you understand?***

Our words may in the least prove to be rather uncomplimentary to your linguistic banks, but should in fact facilitate a required response in the minds of your doubt tanks. Rationally developed minds would prove to forfeit the subservient restructuring of atom dwelling places within your sands.

Those concrete layers of texture, which so helpfully bore deep into runaway tunnels throughout your Earth's layers, many of these have been found to connect pyramids and towns together. Call them your **"Pyramidal Express"** or whatever you like.

Many shudders of your Earth's surface by way of quakes or what have you will not sufficiently counter these great feats of work in a radically short space of time. Understand? It always were these **"tombs of darkness,"** which have more or less left mankind in the darkness of appalacheo discovery. But only within the hieroglyphic masonry work of the Brotherhood will discovery ever be made in this century!

Thank you. Transcript ended.

281. Attention: President Duterte "Sir"

September 19 2018

Mr. President, what a heartwarming speech and one of excellence simply because it comes from experience and from the heart. However, in comparing the **Philippines** with both **Indonesia** and **Malaysia** we feel is not in order. It is not in order because both **Indonesia** and **Malaysia** run on oil in many of their projects as well as their industries as well as their motor-vehicles including the large ones and pavement too.

Listen please, for the Philippines is not either of those countries and therefore can get off to a much better start.

Lift the Philippines **OVER** what any other nation is doing.

This is done with **substituting oil and gas with free energy** and many other efficient inventions.

Where there is oil there are always going to be wars over it. Where the least amount of oil is utilized and gas too, those wars cannot exist.

We are not disparaging **Indonesia** nor **Malaysia** because we are simply explaining and these explanations they may well facilitate into their own infrastructure as well.

The prisons are full of conservationalists, the planters of trees and vegetables as well and of fruit.

Not only the miners nationwide, but the prisons are your best labour force.
Many hands make light work. There are millions.

How many millions of pesos does it take to house millions of prisoners?

Put those pesos to work in other areas which will allow the people jobs such and as you so nicely mentioned, growing crops, building roads, instead of using those pesos to house and feed prisoners which see the nation go broke.

Many hands can build roads with the concrete which soaks up the water. These type of roads need to be nation-wide.

Concrete itself is a grave danger in time of earthquakes.

Do not compare the Philippines with **Indonesia** and **Malaysia** because the Philippines is not either nation nor will it ever be. The Philippines is a nation of hard working peoples ready and willing to make rebuilding paradise work given half a chance.

Mr. President, take the **PHILIPPINES ABOVE THAT WHICH OTHER NATIONS COPY AND ARE ENGAGED AND IMPRISONED IN AND THAT IMPRISONMENT IS USURY.**

Jobs are what they want and because there are not enough pesos for everyone then let the builder build roads so the people can travel; let the planters grow vegetables for the road-builders; let the teachers travel the roads to teach the adults and the children who will then in turn become the road builders, the teachers, the doctors, the nurses, the planters and all can be done with many hands instead of many pesos in copying ***Indonesia*** and ***Malaysia*** who use oil and gas for their industries and survival.

Let the talents, the efforts of the Peoples be the cogwheel that goes around and make the nation work. For instance, why do the nurses need to go overseas to work? It is because of the money. **So the Filipino peoples are denied some of the best care while some of the nations which you think are highly progressive take some of the best Filipino workers.**

Why do you think the so-called progressive nations do that?

Let us review our stance on Brown gas. Brown gas (we know you know, Mr. President) is the gas which comes from splitting water into molecules of hydrogen and oxygen. Where the splitting is done efficiently it can be used as a fuel for power plants, automobiles and motorcycles.

The main inventor of this fuel is Filipino and with the brilliance of many other Filipinos the nation shall not need to extract the coal, the oil nor any other type of fuel which national leaders war over and miners physically die from such work.

We know the oil and gas companies breathe down your neck over this issue and your economic advisors walk with their pants around their own ankles but someone needs to break this charade upon the nations and the Philippines is the nation and you are the man of the hour to do so.

A water-line was placed in a trench in the Sahara Desert under the leadership of Colonel Qadaffi to suffice villages, towns and cities of northern African countries. The American, British and French thought this could not be so; rebuilding paradise could not succeed.

Mr. President, you have China sitting on your doorstep so do not think the Americans will bomb our rebuilding of paradise as they did to Iraq, Afghanistan, Libya and now Syria and Yeman.

The war against the Peoples and the Nation, Mr. President, is not just drugs.

The environmental damage oil and even gas does to the environment is one which is difficult to repair and costs billions in doing so and **the lives of the non-human Sentient Beings cannot ever be replaced. (Will you please see that the dolphin/dolphins in the Manila Zoo be released?)**

The Philippines can be tax free, tariff free, duty free, customs free, lot-rent free, mort-gage free, land tax free, rent free, usury in its absolute – free and in doing so the Peoples of the Nation shall be well indebted to no man, woman nor government for they then in rebuilding paradise shall be the owners and caretakers of their own NATION.

Taxes are **BONDAGE** on Governments and the Peoples and are there to collect monies not owed if the rebuilding of **"the dream"** is **understood.**

We understand, Mr. President, that you understand and also agree with these words yet have the pressures sitting directly on top of your shoulders and upon each shoulder are your economic advisors who look on top the plate to see how much in currency is being dropped. *Onto your lap?*

Nay, onto theirs.

How do we do this in order to bring into fruitation the great minds of invention?

Invite to the PHILIPPINES AT NO CHARGE, MEANING NO PLANE FARE, NO HOTEL RATES, NO FOOD CHARGES, NO TRANSPORTATION RATES, FOR THOSE WITH BRILLIANT INVENTIONS TO "ADD" TO THE BRILLIANT MINDS OF THE PHILIPPINES, "ALL GREEN ENERGY PROVEN PROJECTS" AS WELL AS OTHER WORTHY PROVEN PROJECTS WHICH THE UNITED STATES HIDES FROM THEIR PEOPLE, AND SET UP INDUSTRIES TO PRODUCE THEM.

The way to set up expensive industries is to coordinate with those who within the Central Asean Nation can put into good use a few of the Islands to their credit toward the growing of food or the producing of items friendly to the environment.

Singapore, for instance, has already demonstrated how to take the plastic found around the sea shores and make islands which above house paradisaical lands and perhaps they would like to share with the Philippines such works of art and brilliance ideas, as well, in exchange for a few islands or the blueprint for cars which only run on water.

In this way the products can be produced INSIDE THE PHILIPPINES BY-PASSING CUSTOMS AND TARIFFS, DUTY AND ALL USURY. Products of equal value cover the costs of hotel rates, transportation, food consumption, and plane fares.

What industry or merchandise would normally be brought into the country at cost shall cost nothing for all shall be of equal value and those inventions locked away in other nations shall have a safe and free footing toward the reclamation of paradisaical living.

You have the military, the police and the peoples, themselves to ensure it. They will protect their rebuilding of paradise in this life for the next.

These are but a few ideas toward solutions.

It is good to have soft-spoken men and women in leadership as you have stated in perhaps discussing such words with, and the gentleman in question may well be

considered on the main Council of twenty-four, **but it is you who are the man of the hour and it is to you whom we do address these words.**

Where **"the dreams"** may come they must first be understood then built and those **"dreams"** are not only for the Nation, for the Peoples, Mr. President – those **"dreams"** are also for **"you."**

In accordance with all Universal Principle and sound logic do we sign ourselves off.

In the desert of your souls come out the stratagem of Beingness with which you once harboured as being your greatest challenge and your greatest goal.

Little Ones your challenge today is made up of a strategy to gather the information into your little headlinks, or minds, and challenge each side as to which is indeed the greater truth and whether it be of the positive enlightenment or that of the dark, for the darkened sources are greatly enlightened as to how to wind you, each one of you, chelas, around their dainty and not so dainty fingers, for the lynx and the otter and the hamster and the tortoise are the very ones by their own manufacturing whom can lead you into the understanding of: ***who hits the grave first and who indeed surpasses the graveyard within this distinct lifestream.***

So challenge, chelas, all that is put before you, so barrenness is not the crop you crave.

The title of this book, as you put it in your own so seldom-now quaint linguistics, shall be placed as being: **Lethargic Be Ye Naught For The Cunning Are At Your Very Doorstep**.

Please place now, Uthrania Rania and we shall concede to continue writing.

Savour not the vitamins of this world in your digestive system if those vitamins be the counteraction of cancerous incrimination for such vices will only make your illness worse.

We have provided all which need be for your good health, chelas, and because we have let it be well known that the very breakdown of your sensibilities are the result of a few, if not too many, holistically acclaimed vitamins of your choice-"colour," to make it all the more "happy" and "palatable."

Wherebe the diaphragm, my chelas? Wherebe the very "potent" wines of the day? Ahem, but do they not in essence assist with your own digestive fluids? Nay, many of them come with indigestion and because they do the ferment or firmament of them digest you all the way into a new method of acquiring that which is most harmful to you, the grave.

How can the wine of the grapes be harmful, little Ones? It can because the grapes are neglected, and the chemicals fall upon the grapes of the vine and you drink it.

Tie off the portion, little One, and allow our Jaime whom we love as Jamie, our name in colloquial fashion on our world, to tie off the modem on this portion. We shall sporadically continue. Put on Notes and one picture only of your choice here.

Winnowing. That shall be our topic of today. You need to be winnowing, young Ones of our case, for in winnowing, the tree with the most branches is the least likely to sway, and if the tree does not sway in the heavy storm in the breeze then it is less likely that ye Ones who think to leave the truth of ourn are going to fall, twist and break.

Is this understandable to the each of you or are you too deadened in your lust for all worldly desires?

And by this we simply mean that those of you who would rather play games upon your computer at all times shall want for yourself nothing more than a good time in this lifestream which will found you little more than an ink drop upon a pencil with the pen above trying to write.

Is this too tough a language, for we have striven our best in order to decipher yours?

The Genocidal Exodus

Chapter One

Prepare for the entire liquidation of all Your Assets People Of The Great Land!

Since we don't have the proper and articulate font to presume ourselves upon we will just most elatedly, dear brethren, use that to which is seemingly at least at the present time within our means. Greetings and you will be listening to I the great but naught presumed Hatonn as we trek on with the summation at the time of all world but not really "worldly" philosophy.

Put this instead in default print but we default on nothing, dear ones, simply due to the fact that the precious ones deep in the fight for their lives, their liberty, and their "kin" have fought this same battle beforehand in many of their previous lifestreams. Please then, little One, let us most heartily begin. And do naught wait at all for Dharma for she has long ago been severely 'released' from her work by the ones at the top of all sincere casing of the Stockholm accord and to that do we entirely wish to her and her husband the very best as we bring down the walls of hell for what they have done to her.

Mayhem at the border!

Stricken with all resources the governments have derided the entire public consortium and Wales, Egypt as well as Sacramento, California have bested themselves all the way up the tripod of delivery with the Valium of the day, the liquid consortium of all tooling effects. But not to worry, little Ones, for the diatram in the Great British colony of Numunster Great Wales is to soon facsimile it all down to the bare minimum and golly gee whiz will that ever be a show on them.

Now basic facts will presumably prepare the very best helium balloons just offside of the Dexterier of the doldrums now that Oshawa Ontario presumes its very worst ultimatum and that of course dear Ones is not at all subject to the continuum of the dietary regime of Frankenburg but rather the ulcers of those dear and beautiful ones all which you met with just the other Sunday who work their little hearts out also for your release, little Ones, into the better side of life. Unto them do we offer up all goodness for the cat out of the bag was little more than a disease which many did not want you to even partake with themselves of.

Greatly do we realize that the war going on is just fartherside of the war on Iraq or the upcoming Gregorian war against the newly sought out nation of Iran with their wild

firecrackers with Israel that the Russian Duma presumably just may have bit off a little more than it could possibly chew with taking proverbial Saudi Arabia to the bank or rather we may put it, the dry cleaners from one side of the fence with Picadilli on the tired side of the other. I will edit this portion little One, just go back and correct any affiliations I have made on mine own command please.

What is happening at the American - Canadian border crossing would 'flip' your minds and gullets, little Ones if only ye knew precisely what they hoary ones have done to customs on the Canadian side. The customs are now liquidating the only cashew they know how to do and that severely only means that anyone crossing now over to the United States of Israel and we can now most definitely say that, presumes to only offer up to the issue of the rotten Arab Terrorism that nuance which says if you have black skin or brown "watch the hell out!" James Pickerling did that one. So much for the holy and great reverend himself.

Now let us move on aquietly for the backing of the World Progression Bank hardly has any more room left even in Fort Knox for all that gold platinum around the Palaces of Poor old President Saddam Hussein and his sons galore all over Iraq and they say, without proof, Afghanistan. Canada here makes no equation!

- Scribed by the Hand and Pen of I - Uthrania Seila Sentana-Ries

Note: Until this day this writ has still not been edited by Commander-in-Chief Hatonn so it is presented just the way it was given with a few of the spelling errors still in place.

We are the Holy, as you would call us, Mancharians and we have come back today to relay down to ye ones, as upside and downside matter so much to ye all, that "historical" wavelength of apec appendixes which summarily means that you ones, each one, shall mean more to one another in these coming months and years than you ever have before, and this being "because" THE "SHIT," as you say so uneloquently, DID ALMOST HIT THE FAN OF THE CEILING IN WASHINGTON, D.C. BEFORE THE BRINE ALMOST MADE FACSIMILE OF EACH ONE OF YOURSELVES INTO THE WAR MACHINE HENCEFORTHE BACK INTO THE MIDDLE OF THE EASTERN WAGE.

Now, We are the Mancharians and as such do not allow ourselves to become involved with your political ridiculous field games, but in this case it seems that the brine which each one of you soak yourselves unwittingly in, each day, is "**just about**" (bold please, Uthrania our child of 40 plus and plus) to enter into your brainwaves in such a wise as to drown you in lethargy to a point where all rationality of your brainwaves just no longer sense the danger to yourselves nor to your young ones, your children, remember them, ye Ones, as you sense them to also drown in your lack of understanding and knowledge in those "**institutions**" (bold please, child) which you call your "educational departments?" Ahem, as a precious few of you would say. Next paragraph please.

(Notation: Brief technical problems. – Uthrania)

11:12 am continued

Mancharians: ***So ineffect, our chelas,*** the door jam hit the monkey on the nose and because of it ye Ones all but lost the war on yourselves and that was the product key of the door jam of all idiosyncrasies! 287. Mancharians': Questions and Answers of Reincarnation and Young Souls (Part 1)

REINCARNATION is not a religion, it is a fact of life, and no religion should ever be made of it for the profit of the purse. - Uthrania Seila Sentana-Ries (Cortez)

Notation: A repost for your remembrance. - Uthrania

9th of February 2013

Many of you have been taught that you have only one life to accomplish all that needs to be done in your multitude of lessons, in order that you learn all that needs to be learned in order that you become a "good person." Nothing could be further from the truth than that. - Uthrania Seila Sentana-Ries

Questions and Answers Concerning Reincarnations

Dear ones, our current focus is on healing mankind from philosophical/religious misperceptions which have so forcefully entered into man's psyche and thinking, and so our main focus will remain the submission of information in articles from ourselves, the commanders, and the Mancharians.

We will, however, begin in answering the questions brought before us as we had said we would with the assistance of the Mancharians from the sixteenth level of paradise whose answers can be expected in the form of writs. For those of you who also have questions please refrain from asking until we have posted the answers to not only part two and three, also, but other relating topics by the Mancharians.' There are three writs placed into book form which you may download for free. The http is at the bottom of this page. – Uthrania Seila Sentana-Ries

These questions pertain to the subject matter of Incarnations: This is part one.

Question: ***"Another question I have is whether the soul takes life form in the vicinity of its earlier existence."***

Uthrania: *The soul may well reincarnate into the very same family it left or to reincarnate into a neighbouring family, or to a family within the nation it left. Permission from the Karmic Council is needed for reincarnation on a different planet.*

Question: ***"Can a soul be reborn in a different country or continent compared to its previous birth?"***

Uthrania: *Absolutely.*

Question: ***"What are the factors that govern the life form it takes?"***

Reni: The animal kingdom has been biologically and genetically engineered by scientifically-minded HUmans. These animals are pre-engineered in form and shape and then biologically developed from embryonic state onward with all necessary DNA structures in place. They are then given abilities for reproduction. The various animals (or brand-new animal species) grow in incubation tanks; thus the life-forms of the animal kingdom are being created. From there they are seeded and reproduce to fulfill the law of duality (reproductive abilities) at work continually within the universe.

Question: ***"Also is it necessary that the soul takes life form on the same planet or it might be just about anywhere in the universe?"***

Uthrania: *Yes, the soul may take on incarnations upon other worlds* (as said before: with the permission from the Karmic Board).

There are worlds for those less developed souls which are the same and even lower evolved than this world. There are also worlds higher developed in societal structure, but many lessons must be learned and the connection to one's Higher Self must be realized before such incarnations happen.

January 20, 2013 9:21 pm

Uthrania: For the benefit of the readers, once again would you please explain in your own words, this question: Is the human ever born into insect or animal format? **Mancharians:** Never, dear one. We are one soul in body and that body is preformed into an abstract of what you, and your people, would call, a temporary home. The physical body is the temporary home which through lifestreams houses the soul and experiences growth through levels of incarnations and comes eventually in perfecting itself and of that we are very pleased.

Uthrania: *Thank you most kindly.*

Uthrania: ***Why do some people who are said to be enlightened in regard to a soul's journey, believe they have had many lives as insects and animals?***

Mancharians: So we are not finished with this yet, are we not? Mystification is a way to channel animal forms as being as one with nature and this does not in the least mean that the souls of

those channeled are being reproduced in form by humans or vice versa. Does that answer your question for your people? We love teaching kindergarten. Thank you. 9:29 pm (End quote)

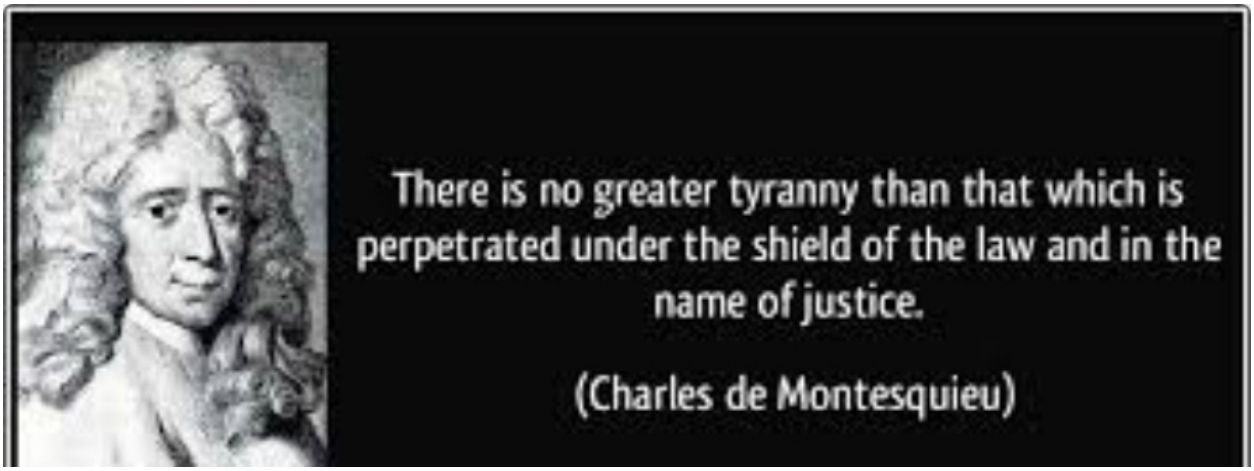
288. Where Universal Principle Remains Abolished - To Be GOVERNED Continues To Wreak Havoc!



Where money rules supreme so does tyranny exist supreme. The greatest public slavery lies within the doctrine of the monetary system of Capitalism.

When itching ears stop itching that is the hour the truth will be heard and reality adhered to not just in voice of tenor or soprano, but one in which action is become the highest result. *- Uthrania Seila Sentana-Ries (Cortez)*

QUOTE Re: Pierre-Joseph Proudhon:

To be GOVERNED is to be kept in sight, inspected, spied upon, directed, law-driven, numbered, enrolled, indoctrinated, preached at, controlled, estimated, valued, censured, commanded, by creatures who have neither the right, nor the wisdom, nor the virtue to do so.

To be GOVERNED is to be at every operation, at every transaction, noted, registered, enrolled, taxed, stamped, measured, numbered, assessed, licensed, authorized, admonished, forbidden, reformed, corrected, punished.

It is, under pretext of public utility, and in the name of the general interest, to be placed under contribution, trained, ransomed, exploited, monopolized, extorted, squeezed, mystified, robbed; then, at the slightest resistance, the first word of complaint, to be repressed, fined, despised, harassed, tracked, abused, clubbed,

disarmed, choked, imprisoned, judged, condemned, shot, deported, sacrificed, sold, betrayed; and, to crown all, mocked, ridiculed, outraged, dishonored.

That is government; that is its justice; that is its morality.

(P.-J. Proudhon, General Idea of the Revolution in the Nineteenth Century, trans. John Beverley Robinson. London: Freedom Press, 1923, p. 294)

Very well relayed and spoken. Accurate. And all under the disguise of democracy and freedom. This is not just reminiscent of a bad Dictatorship nor those of other known non-democratic governments.- Uthrania Seila Sentana-Ries (Cortez)

289. Attn: President Duterte "Sir" Re: Shabu

The ancient past since inception is not, as we know it, a single past but had been preceded by earlier beginnings of civilizations that all met their doom and destruction. It can be compared to a forest razed to the ground, and seeds under the rubble began to germinate and flourish anew. It is just a case of history repeating itself.

- Jamie Sentana-Ries Cortez, a representative of the REAL Federation of Unified and Free Planetary World NATION

Attn: President Duterte, "Sir,"

We shall be brief and to the point.

In great reference to the issue at hand and that is of the discussion on the table in reference to the drug shabu.

As you cannot bring up such instances in the house of President Xi Jinping, it would be a "wise" move to invite the good and dignified President Xi Jinping to the house of the Philippines for such a discussion in relation to his cordoning off and securing the borders of China, as to not enable the drug cartel from entering the waters of the Great Islands of the Philippines from China, and that the Philippines shall do their utmost best to see Chinese borders safe also in relation to the safe borders of the Philippines. which are also being guarded by other Asean Nations of One at large.

This is "not" advising President Xi Jinping on how to govern his nation, this is two leaders of caring worth of their nations in relation to population control by the cartels of the conglomerate banking and corporate industries, and of this should a prerequisite be set for the good of all Asean Nations, and China, outlying just off the Philippines is in an actively secure position in carrying out such command.

China and the Philippines:

The yin yang they expect as being only between the positive and negative is not the correct one for the yin yang was created with two positrons which supplemented and complimented one other.

Let us stop this wheel of disaster.

As always and here at the service of the leadership and peoples do we remain,

290. When Money Becomes The Dividing Line Between Poverty And Wealth Then Where Is The Equality?

First Presented on the Gregorian calendar date of THURSDAY, FEBRUARY 23, 2017
When money becomes the dividing line between poverty and wealth then where is the equality?

EVERY ENLIGHTENED TEACHER whether be of the male or female position have ALWAYS TAUGHT that both UNITY AND NOT SEPARATION; EQUALITY OF BOTH THE MALE AND THE FEMALE *MUST EXIST* OTHERWISE HOW IS A YIN YANG EVER TO BE COMPATIBLE WHEN UNIVERSAL PRINCIPLE BECOMES IGNORED AND WARPED?

Has therefore any enlightened teacher or those whom ye Ones still call by the name of Greatness such as Mohammed, such as Buddha, such as the other christed one Jesus or Esu, Vishnu and many other supplementary Ones for many came throughout the ages EVER NOT TAUGHT UNITY AND EQUALITY?

HAVE ANY EVER THROWN THE BOOT OUT OF THE STORE WITHOUT A PLACE TO GO?

Yet Ye Ones profess to know and to understand reality in the next world as you call the next life, and what then avails you that many cannot still understand a thing they were taught, for consistency still eludes ye Ones and a heartfelt understanding of both the unity and equality which each Enlightened Teacher taught of ye Ones, one and all, must be understood that you are already living in the "IMPERFECT" afterlife, dear Ones, and know then already that MONEY in any of its formats has always been a drain on the societies, and does not and shall not ever position yourselves into the real PARADISAICAL WORLD , NAY, NOT EVEN UPON THE FIRST RUNG.

PARADISE WAITS FOR NO MAN NOR WOMAN. YOU WANT IT. YOU BUILD IT. NOW. BEFORE YOUR NEXT AFTERLIFE.

PEOPLES, a housing crisis only looms in the face of the antagonisers and the famous astrologers of the many events past have all encrypted within the placement of the stars in your heavens the rhetoric that the gulf tide of waves need supplement no other than the fish and fawn of the sea.

When money is used to bridge the gap, there shall always be a gap to fill, and where there is a gap to fill, someone will always fall through the cracks.

The BLUEPRINT Philippines

FEDERALISM: ***State controlled will bring about problematic events if organized in the common tradition.***

Listed: Criteria for problematic events explained:

1. Do not fragment into separate States where the Central Government or Council stands apart from the Sectional Councils throughout the Islands of the Philippines.

2. There must be safeguards put in place while the transition out of the capitalist monetary system takes place. However, too many safeguards would merely become a headache to the Central Council of Twenty-Four because the many hidden clauses in print and schemes which exist today could result in being secretly kept away from the Central Council of Twenty-Four and this must be prevented.

3. The Constitution does in no wise need remodeled. The Constitution needs replaced because the Constitution was drawn up and modified as to the enlightenment and understanding of the days gone by. A band-aid approach will only lead to the dissolvement of the Federated Original System for the Peoples, by the Peoples own hand if nuts cracked do not belong in the oyster, so to speak.

4. Should the Sectional Councils also known as Ummahs (Villages, Towns, City Districts) control their own designated sections apart from the Central Council of Twenty-Four as seated in Manila, War Lords shall either continue or new War Lords be established, and nothing shall change for the Peoples who will then continue to live in a warshed of tyrannical illusion as being for the good of all.

5. The Original System of Federalism as ye ones so quaintly call it is not in any wise a dictatorship. It cannot become a dictatorship simply due to the fact that the round table of Twelve to Twenty-Four has the stability of equal number of both men and women not forsaking a child or more beyond his or her intellectual means of mind, control of self in both wisdom and understanding and previous life experience, therein there shall not be the control of only one or two. The same set-up of Majlis or Council must stand in each and every Sector (Village, Town, City District) in order to prevent one man rule or anarchy stemming from those whose eyesight is faint with the understanding of past tradition not pertaining to the Original System as first placed upon this world by the pioneering races from other world planets.

INTRODUCTION:

Sisterhood, Brethren, Good Day to ye All. The Blueprint of the Federation of Free Planets have well prepared for this day. We have covered nearly every segment if not all for the Philippines, since the Philippines changed from the time of the first landing upon the Islands.

Sisterhood, Brethren, there are a few things you are to know.

Elections will dissolve the Philippines and keep it fragmented which will only further the contention between tribal regions and those electories in more central regions.

Therein, must the Federation of Unified Ummahs (Villages, Towns, City Districts) within the greater structure of their UMMAH or NATION be set up like a WORLD BODY for the Asean nations and their neighbours, and regulated. In essence the UMMAH or NATION of the Philippines, for instance, will then join together with the UMMAHS or surrounding ASEAN NATIONS to form the WORLD BODY which may be added to by other nations once they preform their own CENTRAL NATIONAL BODY IN ORDER.

This will be called the CENTRAL ASEAN NATION.

You see this is how it all works:

the Village, Town and City Districts join together within their Ummahs (Villages, Towns, City Districts);

the Ummahs (Villages, Towns, City Districts) join together within their respective UMMAH or NATION;

the UMMAH or NATION join together within the CENTRAL ASEAN NATION.

BLUEPRINT:

This blueprint is the New Constitution of the Philippines as written for the people, consisting of the people, and carried out by the people of the CENTRAL ASEAN NATION under the Federation of Unified Nations of Free Planets of where your forebearers did originally come from.

PARADISE should not be a place of problems but rather a place which has eliminated all problems though the Oneness of the Universal Mind which distinctly comprises of the Higher Evolved Beings whether they be the Enlightened Starship Commanders, or Higher Evolved Beings from other worlds within the Universes.

NON RELIGION means a peaceful entry into paradise. It originated from far away cultures upon other planets. It is a concept. It is a reality. It is a truth not compromised by lower evolved thinking and doing. There is no bowing, only recognition of the power of One Mind, One thought, the Oneness of life, love and beingness. Untarnished by the mind and will of the lower understanding of man. It means no excuse to war, nations one against another.

HUMANKIND must evolve to become the Holy Universal Man and Woman of Creation. This is the original and true meaning of HUman.

BLUEPRINT MEANS "THE CONSTITUTION." Each man, woman, and child will be given a copy of the Blueprint to study and memorize of its contents following and during the teaching of the Blueprint at District schools and universities. Each individual will be responsible for knowing and living its contents.

CENTRAL ASEAN NATION MEANS "THE GATHERING OF NATIONS WITHIN THE FEDERATION OF UNIFIED PLANETS." Consisting of Two Enlightened Representatives from each NATION. Telepathy required. Must be of uniform mind working in the Oneness. Otherwise they become ineffective and fragment the group such as in a democracy.

UMMAH OR NATION OF "THE PHILIPPINES, CHINA, NORTH AND SOUTH KOREA, SINGAPORE, THAILAND, VIETNAM, INDONESIA, ETC." Enlightened Leadership of twenty-four per NATION. Telepathy required. Age, Sex, not a requirement.

MANILA WILL BE THE PLACE WHICH THE TWENTY-FOUR ENLIGHTENED TELEPATHIC LEADERS OF THE PHILIPPINES WILL SIT. PHILIPPINES will be completely rebuilt, as it was in the beginning

SECURITY PANEL works orderly and guides the Philippine military who comprise of every Filipino citizen. Enlightened Panel. Telepathy not required.

THE Ummah of means: Manila, Daveo, Karuhatan, Dau, Baguio, etc. Each consist of Twenty-four Enlightened Leadership. Telepathy not required. Their duties consist of Grouping people who have placed of their talents in the computers of the Material Majlis or Council to work together with others in occupations such as road building and assigning them the project of construction of roads, sidewalks and paths.

THE Ummah (Village, Town, City District) shall access the central computer of the Material Majlis or Council and find, for example, the engineers, the surveyors, the bricklayers for sidewalks and specific roads, the pavers, etc. Following this the Ummah (Village, Town, City District), group them together, bringing some talent in from another district if necessary for lack of workmen or women, and give them the necessary tools held by the Ummah (Village, Town, City District), and the workmen and women begin the project.

This Leadership also are responsible for giving out building codes and rotating workmanship, and designing new districts within their respective Ummah (Village, Town, City District). This is an example of how the system of the Federation works.

DISTRICTS reside within Ummahs (Villages, Towns, City Districts), each with their own MAJLIS or COUNCIL, Peoples, Material and Vocational.

PEOPLES MAJLIS OR COUNCIL will handle disputes and issues by an Enlightened Leader who is in communication telepathically with Enlightened Starship personelle and Beings from Higher Evolved Worlds. All court systems will be done away with as well as jails, lawyers and judges. These law enforcement agencies shall find that such previous institutions will no longer be necessary but find a seat in one of the Councils.

Material Majlis are two-fold. Each person must attend the Material Majlis or Council with his or her talent contribution to the whole, beginning with the district they live in, serving the Ummah (Village, Town, City District, and they may "volunteer" to serve as a "teacher of a discipline" for a period of time inside another Federated UMMAH or NATION. When this is the case the Enlightened Telepathic Leadership of their UMMAH or NATION will speak with the volunteer and arrange the temporary transfer.

People must post their talents on Majlis or Council computer so others may ask for their assistance. Material Majlis or Council people operate the computer entries. People may also attend the Majlis or Council to ask for the assistance of others. If the assistance cannot be found in their District (Village District, Township District, City District) then volunteers from other Districts will be brought in.

The people must be reliable with regard to alternating between work and leisure time.

Enlightened "Telepathic" Leaders are not needed for these type of Majlis or Councils, just good, honest people.

Vacation Majlis or Councils are for the purpose of setting up vacations outside of the NATION of the Philippines, for the people of the Philippines.

The Pets and Wildlife Majlis shall oversee the entire Non-Human Sentient Being of the Philippines; their care and their safety whether they be pets, sealife, fowl; and their habitation, whether Peoples' homes, or habitation upon the island, in the forests, or in the seas.

Concluded.

The BLUEPRINT Philippines

FEDERALISM: ***State controlled will bring about problematic events if organized in the common tradition.***

Listed: Criteria for problematic events explained:

Each Ummah (Village, Town, City District) must have the Enlightened Leaderships consisting of Twelve (for the smaller Villages or City Districts) and Twenty-Four people of the greater or larger Towns or City Districts, though these people may be non-telepathic, just good, honest and understanding people. These Enlightened Ones may go from region to region to ensure to meet with other Enlightened Evolved Beings.

These Enlightened Ones will comprise of the Twenty-Four Telepathic Leadership of the UMMAH NATION held in MANILA. They may be men, women and children of any age or sex.

Each of the CENTRAL NATION IN MANILA OF THE PHILIPPINES must have an Enlightened man, woman or child who is not only wise but can telepathically communicate with the Enlightened Starship Commanders for advice.

When the Enlightened Council of each Ummah (Village, Town, City District) is set up, then, of course, the concerns of the People will go to (Village, Town, City District) Peoples' Majlis or Council, to handle everyday situations;

and to Material Majlis or Council, to accumulate their talents. From this latter Majlis or Council, the talents will be entered into a central computer which will be able to be accessed by each (Village, Town, City District) Majlis or Council;

by the Vacation Majlis or Council;

by the Enlightened Leadership of the Ummah (Village, Town, City District), and by the Enlightened Telepathic Leadership of the Twenty-Four of the UMMAH or NATION OF THE PHILIPPINES.

The Enlightened UMMAH or NATIONAL Leadership may then contact the Material Majlis, or Council, for volunteers for other needs which other UMMAHS or CENTRAL ASEAN NATIONS may have. The Enlightened Telepathic Leadership of the Greater PHILIPPINE NATION or UMMAH will then IMMEDIATELY contact the Enlightened Telepathic Leaderships of other CENTRAL ASEAN NATIONS via computer and the Purchase Orders are again put through.

There is no time wasted and all begins immediately. The only time it will take between Order and Receiving on both sides will be the time it takes to gather the willing Personelle (for no one must be ordered) and the necessary resources on Purchase Order from the Philippines, as required;

and then the duty-free, tariff-free, money-free, reba-free time it takes for exportation into the PHILIPPINES.

THE PHILIPPINES will also exchange their resources in other mineral wealth. And stores throughout the Philippines will deal internally first with itself before externally for supplies, those which the PHILIPPINES does not supply.

The Philippines, of course, will supply all natural resources and people in an exchange program in bringing, for example, other specialized ASEAN doctors and nurses, to the Philippines, from Singapore, to train Filipino doctors and nurses in specialized disciplines;

or to teach the Filipinos how to make man-made paradisaical islands out of plastic oceanic garbage.

as well as to transport the required resources back to that ASEAN NATION;
resources which can be anything which the People of the Philippines of each individual Ummah (Village, Town, City District) and of the Enlightened UMMAH or NATIONAL Leadership ***can spare*** after their own people of the Philippines have their own needs met and wish for their own personal use;

or for enhancing their talents of the positive realm to employ on the behalf of themselves in rebuilding their own Paradise and on behalf of their own contribution to others.

****So in dealing this way THE PHILIPPINES of the (NEW WORLD CENTRAL ASEAN NATION)*** as well as all the smaller Ummahs (Village, Town, City District) with their own special culture and Flags, will benefit and reap the well deserved fruits of their labour, ***with no man and no woman controlling the All in the realm of the THE NATURAL RESOURCES OF THE PHILIPPINES.***

A few controlling all is precisely where the People and the Leaderships lose their own power over their own lives and Beingness and the People lose out completely.

The Enlightened Leadership of the GREATER UMMAH or NATION of the PHILIPPINES, for instance, are responsible for reporting back to the Federation of Unified Planets so there can be no behind the scenes wrong doing at all. Please remember that these Telepathic Enlightened Leaders whether be man, woman, or child, are all extremely highly evolved individuals of the positive sense.

To all resources available everywhere within the CENTRAL ASEAN NATION

View the earth as though it were a village. Initially, the CENTRAL ASEAN NATION will only be qualified to deal within themselves in readying themselves in dealing with other NATIONS after they have well readied themselves.

Meaning right of access to basic essentials for survival. For example: transportation, public or private. Food with no waste. Houses. Land. Clothing. Schools, Universities, Hospitals, Vacations, Gyms, Fruit trees, etc.

These rights includes the obligation to contribute to the overall well being of society by:

· ***being willing*** to become educated in schools and universities conducting basic and higher learning within universal principle of moral and ethical action.

· ***being willing*** to provide labour in industry or business by utilizing talents when needed

· ***being reliable*** alternating between work and leisure time. The person will not be asked to commence with any work or duties which he or she finds distasteful. Building Paradise goes hand in hand with building happiness and pleasure while One works or while One plays or just enjoys life which is the overall goal. ***A happy nation is a secure nation.***

Now the next point we will explain and to the contentment of every group inside of the Philippines, will we now proceed to address.

Each ethnic majority as well as minority will work upon this consensus.

The Philippines must have an indigenous Enlightened Leadership of Twenty-Four and completely telepathic. No titles will then be used, such as President or King, nor any other such title. This Leadership will reside in MANILA

Each Ummah (Village, Town or City) within the UMMAH (NATION) of the Philippines will have leadership of an Enlightened Sort. ***Uniform mind working in the Oneness,*** otherwise they become ineffective and fragment the group such as in a democracy.

There will be Twenty-Four persons. One man and one woman or child from each Ummah (Village, Town, or City) if the child is of sufficient maturity of mind. Out of each Ummah (Village, Town, or City) there will be two Enlightened Ones to attend to the Enlightened Leadership of Twenty-Four in the UMMAH (NATION) of the Philippines in MANILA.

Keep in mind that each city will have districts so each district will have their own councils of twelve enlightened Peoples.

For instance, Karuhaton being one Ummah, (Village or District if you like to call it, within a City "Manila");

Quezon City (having districts or villages of its own) being another;

Baguio (with its districts or villages) being another;

Davao City (with its districts or villages within itself) being another;

they will also sit in council in a building made for this purpose.

A pretty building. Each Ummah (Village, Town, or City districts) will have a building in order to rotate the meetings.

This will result in an entirely different type of autonomy.

Each district will become their own Ummah, which means small nation within the Larger UMMAH or Larger Nation of the PHILIPPINES.

This will strengthen the PHILIPPINES, not weaken it. This will strengthen tribal regions eliminating dissension.

It is important that to avoid war and turmoil not one religion bear down upon the other. It is even more important that no religion exist to assist the banker in its wars. This is not atheism. FEDERALISM: ***State controlled will bring about problematic events if organized in the common tradition.***

Each Ummah (Village, Town, or City Districts) will have its own sovereign flag to represent its small nation within the UMMAH or NATION of the Great Philippines; for the purpose of raising the flag of each village or district alongside the Flag of the GREAT PHILIPPINE NATION.

No Ummah (Village, Town, City Districts) will be the sole source of their own natural resources of wealth. This is due to the fact that the Philippines will not be operating upon the sole jurisdiction of being as a separate entity of autonomy.

The Philippines is like a body with the Twenty-Four Enlightened Men, Women, or Special Child or Children being the Head (or BRAIN);

The BODY has hands, legs, feet, arms, toes, fingers, eyes, ears which are the Councils or Majlis;

and the many organs which are the Villages, Towns and City Districts consisting of all the rest of the Peoples;

are placed as ONE, PROTECTING AND BEING PROTECTED WITHIN THE WHOLE SKIN BY THE PEOPLE, BEING MADE UP OF THE PEOPLES, THEMSELVES. FOR WHAT YOU LOVE YOU PROTECT!

This, as we have said, will form a different sort of autonomous region, each with their own culture base and ethnic qualities which they wish to keep to the fore, protected and beautiful.

The culture to be kept protected will not include anything which lies outside universal principle of both morals and ethics. Many cultures espouse certain ethnic anti-universal behaviors which belong in the garbage bin.

Each Ummah (Village, Town, City Districts) must then have their own small military, voluntary, to add or attribute to the whole.

The methodology of the Swiss military system will be best suited. They have their weapon caches in mountainsides. Every family is armed to the teeth to rise up at any time and protect the country from invaders.

In the Philippines, for example, all regions will be protected mountainous, oceanic, or otherwise, using the same strategic employment including the Enlightened Telepathic Leaderships as well as all leaderships within the Philippines including the peoples, themselves, from the highlands to the lowlands, from the coastal waters to the mountains. ***We will remind you that should any man, woman or child*** turn upon their neighbour with weapons, instead of taking the neighbourly matter to the enlightened People's Majlis or Council, they will be immediately taken before the High Council of Enlightened Leaders of Twenty-Four in the UMMAH or NATION IN MANILA and dealt with severely.

Should there be an exceptional problem the Enlightened Leaders from MANILA, will contact the CENTRAL ASEAN NATION and report the situation.

This is why "telepathy" is such an important conduit of communication. The Federation of Free Planets, as well, are there to advise as to the immediate concern and application.

296. The BLUEPRINT Philippines - In The Case Of An Invasion

A prefix to the overall blight of global circumstances must lie in the text of the word "pre" as in amble for in this do the positrons of society gain their credence with those who know no word.

The fainthearted in their strength will prove to become the source of all good objectives and adjectives of the HUman race.

Seasonal acquisition of a brain stemmed with thoughts of mere purgatory only serves to "enlist" another and further segment of self-damnation toward that of the ones who made it all up.

The dust upon the shoe of neither man nor woman is a print worth saving should it remain to course down through the dust beneath their feet.

The BLUEPRINT Philippines

FEDERALISM: ***State controlled will bring about problematic events if organized in the common tradition.***

Listed: Criteria for problematic events explained:

Should an invasion occur the ENTIRE CENTRAL ASEAN NATION will be immediately called upon by the Enlightened Telepathic Leadership of the UMMAH or NATION OF THE PHILIPPINES.

SECURITY COUNCIL AND ITS OVERSIGHT:

The Enlightened Telepathic Leadership of the UMMAH or NATION OF THE PHILIPPINES will then contact the SECURITY PANEL who will also comprise one woman and one man from each Ummah (Village, Town, City District) who will then oversee the armed families by instructing the Ummahs (Village, Town, City District) in giving districts coded alarms as they hold off by fighting, the invaders, until more troops arrive from the CENTRAL ASEAN NATION.

Likewise will all invaders be removed to a far away island. Depending upon the nature of their crime their placement will be determined by the CENTRAL ASEAN NATION COUNCIL of Twenty-Four.

Each Ummah (Village, Town, City District) will protect the UMMAH or NATION OF THE PHILIPPINES, giving the UMMAH'S or NATION'S Enlightened Leaderships relaxing quality to work ALONGSIDE AND NOT OVER the participating and protecting smaller Ummah's (Village, Town, City Districts) within the PHILIPPINES. All Enlightened Leaderships within the UMMAH or NATION of the PHILIPPINES, Ummahs (Villages, Towns, City Districts), MUST work in the Oneness with the people.

Each Ummah (Village, Town, City District) will protect the Twenty-Four Enlightened Telepathic Leaders in MANILA by keeping their eyes and ears open and working in a thorough and concerted effort, all weapons ready at all times, should the need arise.

Each home will have gunsafes. The key to this room will be held by the heads or head if there is only one parent, or eldest sibling no younger than sixteen years of age, of the family. In the event of an invasion, the Ummah (Village, Town, City District) they live in, will sound an alarm and the (Villages, Towns, City Districts) will immediately arm and wait for further coded instructions from the Security Panel who will continue to inform the Ummahs (Village, Town, City District) each person lives in.

This type of autonomy as we speak on will give to each distinct Ummah (Village, Town, City District) of the PHILIPPINES more power within each Ummah (Village, Town, City District);

in fact more power than if they were smaller nations of their own separated from the UMMAH or NATION of the PHILIPPINES.

Remember, this will strengthen the PHILIPPINES, not weaken it. This will strengthen tribal regions eliminating dissension.

THIS WILL "PROTECT" the PHILIPPINES FROM DRUG RUNNING AND DRUG DEALING AND FROM INVASIONS FROM FOREIGN POWERS OUTSIDE OF THE CENTRAL ASEAN NATION.

You will see what we mean shortly.

The responsibility will be greater.

Every Ummah (Village, Town, City District) will be set up in the same and exact format as the UMMAH (NATION) and the CENTRAL UMMAH or CENTRAL ASEAN NATION.

And all business will be conducted by talents, needs, and access to trade deals with other nations.

This will be based solely upon the Original Intersteller Economic People Friendly system of concern, and no flagrant nor monstrous abuse of ANY Ummah (Village, Town, City District) will then be possible.

****Abuse of any system is only possible, Sisterhood, Brethren, when you have dissenting electorate bodies who will break every law and principle in the book and steal money from the Peoples of the Land, in order to put out the best front and podium for their own self-made credibility.***

Without elections there can be no such abuse of the system ***and only Enlightened Ones will acquire the Enlightened Positions;***

The top Twenty-Four, those Sisterhood, Brethren, should be able to CONVERSE FIRST WITH THE STARSHIP COMMANDERS TELEPATHICALLY FROM OTHER WORLDS! FOR THOSE WHO CANNOT EVEN DO THAT MUST REALIZE THAT THEY ARE NOT AT THE LEADERSHIP LEVEL FOR GUIDING A NATION, NOR THEIR PEOPLES.

In the absence of the present-day capitalist economic system there can be no corruption from that front either.

Children, whose minds have not as yet been altered may if verily talented in word, speech, and deed, become included within the Twenty-Four of MANILA.

A generous heart knows the secret of the universe: There is more than enough for every one where the supply comes from.

The BLUEPRINT Philippines

FEDERALISM: ***State controlled will bring about problematic events if organized in the common tradition.***

Listed: Criteria for problematic events explained:

The Federation works upon a basis of gaining for the People, that which the People need. Certain items needed by the People of the Philippines will be Purchase Ordered using the natural resources of the Ummahs' (Villages, Towns, City Districts and Islands) for trade. In some instances, the Ummahs' (or Towns, Villages, and Cities) work together to provide architects, engineers, for trade to another UMMAH or NATION who need their temporary assistance in return for something the Ummahs' (Village, Town, City Districts) need.

Now let us please explain.

Health Care is number One in the Philippines.

Food consumption is number One in the Philippines.

Shelter and Clothing is number One in the Philippines.

All these issues will be dealt with at the very same time. Later on you will see what we mean.

So right now we deal with the staples which all Filipinos will need in the future and for an example we take Health Care.

The vegetables and fruits will be traded, for instance, to a nation such as Japan or China or Indonesia for their holistic doctors to enter the Philippines, and train Filipino doctors and nurses in the safe use of all formats of ancient and present herbal and acupuncture techniques (for severe pain instead of pain killers which ruin the stomach lining). Many of the herbs will the Philippines trade in vegetables and fruits grown in abundance on a multitude of islands on a continuous basis to these nations. This will be done through the stores. ***No money will pass hands therein no money will be taken from the Peoples of the Philippines,*** keeping then the Original individual Ummahs (Villages, Towns, and City Districts), clean with no temptation unto the process of corruption.

Thus when the stores of each district have their reviewers taking counts as to exactly how much holistic medicine is needed, from each and every household, hospital, clinic, etc, then that figure will be processed into the next Trade and Purchase Order form and delivered directly to the respective Ummahs (Villages, Towns, City Districts). Should direct Purchases not be available, then the stores in the districts will give the Purchase Order to their respective Ummah (Village, Town, City District) who will then give the Purchase Order to the Enlightened Telepathic Leadership of Twenty-Four.

This Leadership may then contact the Enlightened Leadership of that ***UMMAH or NATION*** and speak to them concerning ***Trade and Purchase Orders. A representative may be sent to explain,*** and then the trade will be organized immediately with no waste of time and every Filipino Citizen will have, in that area, exactly what he or she needs without taking more than they need.

The people will go into a store for their prescriptions taking with them a Purchase Order form from the doctor. Also mild medicines will be available for each household depending upon the size of the household, without a prescription. Any herb grown on the islands for health reasons, must be monitored by health practitioners as to the doses to cure cancer or other illnesses or relieve stress, for relaxation.

****Where special medicines are needed, the laboratories must ensure they are safe for the Peoples to take.***

EXAMPLE:

If for instance, China, or Japan or Indonesia need instruction in Architecture by Great Filipino Engineers in such profession, then the Philippines may trade Engineers for Holistic Doctors, for whatever time is needed or allotted to each side. But the extra fruit and vegetables grown at high capacity on the islands will still be needed for trade for the holistic medicines and other items of great worth even through the store orders.

In this way the Philippines will in turn trade to that country as well and receive as much medicine as the Philippines needs whenever the Philippines needs it.

In this way, of course, the natural resources of each country in the world connected with dealing within the ***ASEAN CENTRAL NATION*** will be able to balance out their resources in every which way and direction.

However, before this happens, each Central Nation Conglomerate of the world need first get its own estranged house in order.

No breaking of anymore Universal Principles "or Laws" if you would like to call them that, and then you will see just how quickly all crime and criminal intent pass away for good.

When reckless spending suffers the nation into further debt just for the presumability of Senators and Congress taking a seat for a year further within a system which does obviously not work for the Peoples and for the Nation, then by which charlatan does he or she add to the pot the grace which belongs all to the People?

DEPARTMENT OF AGRICULTURE AND HEALTH ***must work together, hand in hand.***

CONTINUITY ***is the existing format of excellent planning and one which does NOT require monetary means in order to facilitate the necessary means of adjustment from one criteria or system toward that of another.***

Contraband substances can be replaced with substances of good medicinal control to be grown and attended to by both agricultural and health practitioners.

With 7500 islands the quantity and calibre of food grown can be stupendous therein feeding an entire nation and more; with exports without duty or tariffs of any kind exhibiting straight trade for rice and soy for tofu, for example, to another ASEAN nation within the Central Asean Nation conglomerate.

No machinery costing the nation and the nation's peoples hundreds of thousands of pesos will be needed due to the very fact that the labour force necessary can be found among the millions of Peoples inhabiting the Great Philippine Islands.

Gratis: This is ground roots to begin with for a nation to get upon its feet without an expenditure of hundreds of thousands to millions of pesos.

At cost the labourers will have shelter built by those who are the builders and in return the builders will have food and so will the planters of the crops. As the Philippines is tropical, shelters may be simply built with the resources of the many islands. Ferry boats or barges can be used for transportation and waterwheels on boats can use the natural resource of water of which the oceans have plenty. Why go into debt just to look good to the world when wisdom dictates that the logical and sensible move is to harness the labour force of the Peoples in order to keep the resources within the nation instead of giving the resources and the labour force of the Peoples to the corporate powers and to feed the capitalist system of banking?

LOGISTICS AND SENSIBILITIES:

After all how can the resources of the nation and of the people be of the people and for the people if the resources of the nation are given to and of the corporations and for the bankers? Linger not and tarry with the money of the bankers for retinue is the active worth of ne'er the peoples but the charlatan of the day.

HEALTH - BUILDING CELLULAR STRUCTURE OF PRODUCE:

While the Philippines espouse the Lilliputian produce, it does in no manner need to remain that way. Non-GMO produce can be well calculated and created within the scientific and ingenious laboratories of the Great Islands of the Philippines.

PROTECTION OF THE ISLANDS:

The islands need protection and security from those who would think and strive to impose themselves upon the hindering of the growing and cultivating of produce. This is where the Coast Guards and Navy come into play. They must monitor the barges and ferryboats delivering resources of both living accommodations made by the hands of the Peoples, themselves, and other resources for simple yet fashionable living dwellings according to the wishes of the Peoples, involved.

For those navies of other lands within the Asean Central Nation and whom assist and whom are assisting at the present hour the navy of the Great Philippine Islands, this food grown in great and large quantities shall also serve in feeding them all as well.

In essence it is to be known that when leadership utilizes the resources of their own nation they will find little need for importation nor exportation save that for the paltry items which cannot be homemade nor homegrown, and of those, the nation and its leadership shall find that the "word" BUDGET shall well disappear, and no longer form as a "stop-gap" for building the nation. To continue along the same path would be to budget the nation into erosion under the high pretence of its being an injunction of gold.

Possibilities of Excellence:

PLAYGROUND PARKS:

After space is opened which we have explained place enough parks in designated areas for the peoples all to attend toward their own pleasure. Within these parks can small activities be addressed such as art sculpturing, paintings, small carvings, and other instruction which shall enhance the education of the children and guide them toward understanding where their talents lie.

Instead of importing plants, design the parks carefully and beautifully with trees and bushes and with the peoples own cultural imaginings and designs on small buildings which would house the small art schools for small ones in particular and singing instruction also keeping the music within range with no reverberating throughout the neighbourhood.

HOUSING:

Possibilities of Excellence:

How to open up space:

On how to effect communities of crowded housing into equitable architecture with spaces for gardens and how to relocate a number of residents to their own satisfaction and pleasure in a state of being.

Utilise your assets. Your assets are your Islands. Relocate families who work in a similar genre to the necessary number of islands. Allow them the freedom in building what they need and wish within reason for their habitation.

If one family is a family of carpenters then relocate other families in the district to an Island and also at the centre of the island place a school of Carpentry Achievement in

upgrading their work or in allowing them to also instruct others in the art of carpentry and intricate accomplishments.

These products can then be traded throughout the Islands and those of the ASEAN Nation for wares which their peoples develop especially speaking here of those whose education is not of university attunement. All life has their value and tourists may also frequent these partisans within the islands in cooperating with other genres and talents such as carpet weaving and so on.

With certain families working in these capabilities having been relocated to pleasant and close-by islands which may also house parks for the youngsters, this will free up space in the districts where they have been originally housed in the overcrowded cities.

Instead of bulldozing their ancestral homes with them in it for industrial space, they should allow the ones remaining to grow their own gardens and ensure the youngsters have adequate playgrounds to walk their animals, to enjoy each other's company and to allow the adults the opportunity for a stroll among trees and beautiful scented flowers.

In other words, "organize" the peoples who are the labourers, into groups and place each genre upon designated islands.

In this wise also, those who rarely have the opportunity to enjoy their very homeland by the occasional jaunt to the sea, which many could otherwise never afford to see in their lifetime will instead enjoy a life of greater excitement and opportunity and the Great Islands of the Philippines would become in Tourism alone one of the most sought-after enjoyments through their visitation to the Cultural Islands under their care and instruction as well as the Tourists enjoying each School and Discipline of Achievement as they travel from one Island to the next gathering the wares of the peoples whose talents created them.

We shall continue in our placing of "suggestions" for the all of ye toward that of your understanding and consideration in regions particularity whose life is less than pleasant.

300. The BLUEPRINT Philippines - Housing Addendum

Wrong choices and doing things the hard way are due to man's chaotic ego.

The fact is, the topic of religion has long been a hurdle to their beginning understanding of the total concept of paradise.

Speaking of the great masses, in the Philippine settings, there are at least 3 red herrings, so to speak, that drive away the people's (the masses') attention to the building of paradise. One, as I just said, is religion. It is a topic that is emotionally charged when discussed among the misguided, generally speaking. In that sense, people would not budge an inch on the issue of their faith they were born in and with, as passed down from their parents. Total submission to god and blind reliance on this entity are what drives them to surrender everything to it and just wait and remain passive in order to expect something prayed for to arrive, in return. I need not add more.

Second is education. People living in abject poverty cannot afford to send their children to school as in fact their parents' parents could not either, ***so there is a chain or domino effect.*** It is one among many reasons why religious people live in indolence and idleness instead of working to live in order that their children can learn in school. They always expect ***"manna from heaven."*** So that is basically an attitude problem. In fairness, the basic literacy rate among females in the ***Philippines is 96.1%, males, 95.1%*** (Googled data, 2018).

Third is lack of informed awareness on Population (self-)Control. Birth occurs the most frequently among Filipinos mired in poverty, again because of lack of jobs and education. *"The current population of the Philippines is 107,020,239 as of Monday, October 29, 2018, based on the latest United Nations estimates. the Philippines population is equivalent to 1.4% of the total world population."*

Post Script: Compare the population of the Philippines living in a small country with that of Canada, *"Canada Population 2018. In 2018, Canada has an estimated population of 36.95 million, which ranks 38th in the world. Canada is the world's second largest country by total area (behind Russia) and the largest North American country.Sep 17, 2018!"*

If a family is 'expecting' or chooses to house their elderly then the permit they are given will reflect the suitable size of the home. Each family, however, will be permitted to choose the materials for their homes, such as marble floors, or hardwood floors. In return their own talents will be required by others.

Each home will be equipped with windpower windmills in their rooftops as well as solar power either in the roof, or walls or both. All wind and solar power goes into the grid. The grid consists of all transmission lines supplying the peoples electrical needs nationwide until such hour as the need for electrical cables has passed.

Farms will be also equipped with both and must provide heated accommodations for their animals during the cold season especially in the northern regions.

EXERCISE GYMS:

These will be placed within each district, however, because of much activity in building together the Paradise within the Philippines or any other nation, these gyms are likely not to be used to any great degree.

VACATIONS OUTSIDE OF THE PHILIPPINES:

Each district will sport a Vacation Majlis or Vacation Council to serve the people.

There is a difference between leisure time and a vacation. Leisure time is the time you spend around your own home or little paradise whilst vacations are arranged for your pleasure outside of the country in which one resides. All is free. Travel, accommodations, sightseeing, etc. However, there will be no interference in the designated country's system nor culture. Learn from one another in agreement and share the good aspects one to another and learn from them also.

After so many hours of work, arrangements will be made for vacation. For instance, if work is in a factory, so many hours must be accumulated, or if you are an engineer so many hours at a project must be accumulated. You must not stop in the middle of a project unless consensus is made between yourself and another to take your place.

For those who work from their homes and have only themselves to talent out to another, a certain number of accumulated hours must be drawn up. All these hours will then at the finish of a labour or job, be given to the Material Majlis or Material Council who will then enter the hours in the central computer and those hours will then be accessed through computer from the Vacation Majlis or Vacation Council when a request is made for vacation time.

VEHICLES TO OWN:

Vehicles are also free. But the type of vehicle must be earned. For example: If a person wants a Mercedes, for instance, then the Automotive Dealer will contact the Material Majlis's or Material Council's central computer to find out if that person has earned enough hours utilizing his or her talents and to what extent, in order to be credited such a prestigious vehicle. If not, then the person will be credited with a vehicle of his or her current status. But a vehicle will be given.

HOW DO WE FEED THE PEOPLES?:

How much to order so as to eliminate waste, especially in perishable goods?

PURCHASE ORDER:

Initially people will make requests through a Purchase Order to store outlets for food and material supplies in order for stores to calculate the amount of products necessary to please the wants of the people. In this way much waste will be eliminated. Remember, initially, not all wants can be appeased until enough nations enjoy the position of being as of One Mind in the ***CENTRAL ASEAN NATION.***

The stores will calculate which percentage of diverse foods are wanted, what percentage are grains, which grains are wanted, how many soy and other rice products, then the percentage of fruits and which kind, and vegetables, canned goods, etc. from each district.

Once this new Purchase Order is made ready by each of the stores and given to the Enlightened Ummah Leaders (Village Leaders, Township Leaders, City District Leaders) these Leaders will pass on the Purchase Order to the Enlightened Leadership of Twenty-Four, where natural resources of the country are traded for those items which the country cannot provide for itself.

For instance, whichever country the Philippines deals with in the form of material and food products or labour in the format of say Architect teachers, that country will instantly be on the Purchase Order and Trade with Philippines for labour, excess fruit and vegetables **(grown in such quantity on the now dormant islands)** along with such as teaching of a discipline, or any other natural resources the Philippines has.

When the Purchase Order shipments have arrived they will be taken directly to warehouses within each Ummah (Village, Town, or City District) and then shipped to stores within each district.

The people will then go to the stores and be given their Purchase Order forms at the door with a certain amount of allotted food per number of people per family. For instance so many cans of fruit for winter months, and so many bags of rice, so many lbs of vegan butter made from oils, etc. so everyone is well fed but not overfed. ***This will eliminate obesity.*** This will also ensure that children do not go into stores for snacks and ruin their diet nor become too overfed to eat a healthy meal at home.

However, there may be grown fruit trees aplenty alongside paths of which people can partake of at any time.

There is no food which cannot be acquired but all will be distributed in a non-waste orderly manner. Initially not all foods can be purchased due to the size of the CENTRAL NATION which means the number of NATIONS within the FEDERATION OF

UNIFIED NATIONS AND IN THIS CASE within the CENTRAL ASEAN NATION and what they, themselves, are able to provide.

It is important to note that every nation within the CENTRAL ASEAN NATION must NOT EXPORT nor IMPORT (and eliminating all tariffs and duty) any produce nor product which their own nation is able to provide for their own people.

***In other words, the Philippines must NEVER* export bananas for monetary gain when they have hungry people beating down the door.**

***A Purchase Order* is in lieu of monetary finance of which monetary finance does no more than bring the nation to its knees and keep that nation subservient to the banking Capitalistic system of death for the nation, every nation, indeed.**

***However, as more nations transition* their outmoded economic system of using currency to the practical Original Talent and Purchase Order System, the purchasing opportunity will grow and excel.**

And taking all into consideration…

Forgive each other's debts and write the debts off saving each nation billions to trillions in your own home currencies. This is precisely what the banks do for themselves, therein, nations doing the same is what begets a nation into its own independence. A conglomerate is a group of nations which work together for a single goal yet maintain their independence.

P7.16 Trillion in debt for the Philippines is not only a horror story but totally unnecessary in light of the Brother and Sisterhood within the conglomerate of the Asean Central Nation.

For as long as you continue in using money in any of its formats as a method of payment, you will only continue to uphold the variance of capitalism and whose money is paced against whom.

The moment you use currency in any of its formations you fall outside of Universal Principle carrying instead the continuous momentum for upholding usury in all of its formats as well. This accumulated interest is what puts nations so far in debt above the principle requirement.

Inflation is an act of usury and is designed to work the monetary system not only against itself but against the peoples.

Inflation will, in fact, ensure that the peoples somewhere along the line will fall through the cracks of consumption.

Now let us again look at how inflation is falsely created and what keeps it in operation.

AN EXCERPT FROM THE BLUEPRINT OF PARADISICAL ECONOMICS AND SOCIETAL STRUCTURE FOR IRAQ:

Under the present system, this people suffering, people hating, monetary system, the hospital would look like this and be paid for under currency, low wages, and reba or pesos (or whichever currency) four times by the people.

Here is how it works.

The contractors borrow money from the banker or several bankers amalgamating their debt load into one massive tribulation.

Then the contractors hire people to build the hospital.

The hospital will be built solidly but yet in an inexpensive way as possible in order for the Contracting company or companies to make as much off their profession as possible.
Next come the workers who are paid as low a salary as the Contractor can possibly get away with.

That is the first instalment.

The borrowing aspect from the Continental Banks.

Offshore Providential.

Then when the hospital, dully as it looks, is fully completed, the banker wants paid back.

This is the second instalment.

So both the Contractor and the workers have to take on another job just to pay back to the banker the first job.

When the first job of building the hospital is paid back in all expenses of the borrowing costs, then the city tells the people that they must now pay fees in order to use the communal building, in this case hospital fees or if it is a library, then library fees, or if it is a museum, then fees to go in and look at the museum.

This is but an example.

This is the third instalment.

Then the people are told after they built the hospital, paid the banker back and paid the fees to attend the facility, that they must now pay land taxes, upkeep taxes of the building and while the people are paying all these extra usuries out of their meagre wages, they are having to pay back the money to the banker for the first costs of yet another loan for yet another building.

This is the fourth instalment.

In addition to this, of course, the people are told that it will be several years until just so many budgeted contracts are able to be manifested for the people to attend.

This is the fifth coming into play.

Borrowed monies for the hospital over a twenty-five year term, cost the taxpayer ten times its original value by the time it is paid for.

This is the present system you operate under fully today.

What we offer is naught made in hell.

But in Heaven or rather to be more precise, upon other worlds, other planets, who have learned that the money system corrupts the best of men and women at times and therein should never be used as a trading currency, for with the currency comes the infraction of breaking all Universal Laws and then comes the usury.

It does naught take three years to restore all power and electricity to Iraq, for instance having been bombed almost out of existence; That is ridiculous! Only under the present hegemonic economic budgeted system would that be a priority to wait that long for full power nationwide. – I am Uthrania Seila Sentana-Ries and this is our portion of this day to the each of you.

****Likewise, does it also not take years to restore the Philippines to its highest acclaim unless, of course, a budget is used; then shall it never happen.***

RESOURCES – HUMAN – LABOUR: EDUCATION AND JOB PLACEMENT:

It is necessary to not only put your effort as a nation into the next generation, but is also necessary to "reclaim" those of the present and previous generations if their crimes are not ones of great tendency toward the premeditated harm of others.

We proceed with the prison system which is a main criteria in the Philippines at this present hour of the day. May nightfall not come upon them all.

PRISON SYSTEM:

Possibilities of Excellence in REHABILITATION:

ISLAND PLACEMENT:

As we have formerly stated if a number of islands are sectioned off and protected by Navy and Coast Guards the inmates who have volunteered and not volunteered to become rehabilitated will have the necessary methods available to them for full recovery.

For instance, they will have at their disposal surfing, swimming, wading, beach basketball, ping-pong tables, races around the island for the building up of endurance which also tones the mind, short sprints, art classes, instrumental music lessons with all instruments provided, culinary arts where those with such talents may also become the instructors; hard core drug dealers and addicts would be placed upon another island but be ferried to the lesser addicted inmates to hold classes on why drugs and their effects are so dangerous to themselves and the disastrous effect drugs have upon their families and the families of those they sold to. Allow the inmates to view on video as well what their actions did while they were dealing or using.

One of the main objectives will be the great question the inmates will all have and do have we are sure and that is this:

"What happens after rehab?"

A very good question because should the system remain the same these same people will only face a reintroduction into the drug trade as pushers or users if there be no mechanism in place in providing them with an opportunity and challenge to excel in a pleasurable and fulfilling life in building and creating for themselves and the society around them of which they will integrate again into where the monetary bill is not in power over their lives any longer as held in the hands of those who threaten and malign them and their families unto physical death.

There is nothing for the inmates more frightening than going to jail, facing more horror there, and then knowing they will face the same injury and worse right back out in the streets where they face a bullet in return for their good faith that Federalism was going to be their light at the end of a long and horrible tunnel.

For those who say to us: ***"then how do we keep the People, Groups and others honest in order that they do not cheat one another or that leaderships do not cheat one another, or nations do not cheat one another?"***

We say to ye ones, that the Federation of Unified Nations have a safeguard built in.

What happens here is that the moment one cheats another by, for example, not delivering their part of the **Purchase Order** or **bargain**, such as delivering items, after they have received what they had **Purchased**; or people who exchange **talents** do not deliver their part of the bargain on the **Purchase Order** from their district or another district, the moment that **Word** gets out, these ones **will be automatically boycotted by People on all levels:**

From the grassroots up: their neighbours; stores; material Majlis or Councils; right up to the Greater Enlightened Leaderships who handle the exchange of oil, gas and other resources with other Federated Central ASEAN Nations.

Let it be known that the hour has well progressed into green energy and in this instance shall the nations have no more cause to fight over oil and gas nor to relay upon either for the vehicles which can be brought into the foreground with the reliability of electric, water and magnetics for their fuel, so to speak.

But billions will be lost in revenue to the corporations and the banking facilities so they are the Peoples worst enemies, but the Peoples can change all that for ye Ones are the buyers of all the products. The oil spills are killing all in the waters of the sealife of which depend upon you, the Peoples, for their caretaking.

This boycott will also apply to blackmail or framing another for any reason. This will be dealt with immediately by the People's Majlis or Council. These will be considered ***"dangerous acts"*** against your neighbours, whether be family members or not.

The length of boycott will be determined by the severity of the act of cheating, blackmail or the framing of another. The Enlightened Leader of the People's Majlis will determine the boycott's effect upon the person or people in deciding the length of its duration.

The spider who weaves a web to trap another will inevitably be ensnared in a web of its own.

Should a dispute be serious enough, such as murder or rape, the People's Majlis or Council will immediately take this problem to the Enlightened Leadership of the Province or Ummah, = the village or town within the Province, who in turn will take the issue to the Enlightened Leadership of their UMMAH or Province who will **"advise"** as to the immediate concern and application.

The offenders will be removed from the UMMAH or Province and placed upon a segregated island protected by the Navy and these inmates will share such island or islands with others more "attuned" to their nature.

If a man, woman or child accuses another falsely, then that "punishment" will fall upon the shoulders of the accused.

We employ different types of Majlis or Councils of Enlightened men and woman nor forsaking the child in genius form in the Federation of Unified Nations, therein are many empty chairs to be filled which will way surpass the chairs of the Senate and Congress put together.

So you see it does not pay to be a cheat. **The Federation of Unified and Free Planetary Worlds' economic system of Talent and Purchase Orders keep the People from engaging in criminal activities of any kind.**

If we find any Persons engaging in serious criminal activities against their sisters and brethren, their Ummah or village or town, or their UMMAH or Province, or CENTRAL Enlightened UMMAH, the Twenty-Four Council of the NATION, then these people shall be immediately removed out of the Federation of Unified Nations and will be removed to one of the sectioned off islands.

Depending upon the severity of the crime, the nature of the world they are taken to will see them residing alongside and governed by those much like themselves.

PETS AND WILD ANIMALS:

There should be no difference in treatment of pets vs wild animals as at the beginning of the seeding all animals were treated as pets and were in no wise carnivorous and neither were that of the seeds brought to this earth of Angorius by the Federated Union of Starships.

Due to the exceptional poor treatment of animals globally**,** a committee need drawn up in the form of another Majlis or Council; this one for pets and what you call wild animals.

PET AND WILDLIFE MAJLIS:

All people who house animals as pets must first acquire a "free licence" from the Pet and Wild Animal Majlis or Council. Before this "free licence" can be acquired, enlightened men, women, and children, or child will first visit the home and ascertain whether or not the animal or animals in question shall be cared for on an

1) emotional level

2) physical level

and will become as such a part of the family with all their needs met in the same and exact way a HUman's needs shall be expected to be met. Feeding and housing alone are not enough for there must be emotional support and as much freedom as is possible.

In the case of wild animals, no zoo nor cages, nor circuses shall be permitted. Wild animals will be protected in such places as the example outlined in the Yemeni Wildlife Sanctuary which had been presented in short fashion. Please use it as an addendum to this particular blueprint.

For the Philippines the majority of the animals shall be placed upon islands and not one species placed with another species which harms each other.

In the case of sealife, shall they also be protected in the rivers, lakes and oceans by the coast guard and navy. No fishing nor crawling of nets nor spears, nor clubbing to death.
In the case of already being a pet owner, the same method will be applied in order to acquire a "free licence."

If the standard of present pet owners does not meet the requirements of the Pet and Wildlife Majlis or Council, then there will be given an opportunity through a special school to receive the proper education necessary in obtaining the "free licence." The Pet and Wildlife Majlis will then do many follow-ups without notification.

Should the animal which consists of fish, dolphins, exotic birds and the common species of animals such as dog, cat, horse, and so on, be found to be abused the abuser shall be dealt with in the same manner as any abuser of people, and will be immediately

referred to a higher standard which shall be the UMMAH or NATION where the abuser shall be dealt with in perhaps facing expulsion from the UMMAH or NATION he or she resides within;

in this case shall it be the PHILIPPINES.

Animal abuse shall be dealt with severely because animals in all their formats are sentient beings with the same and exact emotions, needs, and requirements as the HUman being.

FREE TRADE AND HOW IT REALLY WORKS

Sanaa, Dec 31, SPA -- Yemeni Prime Minister Abdul-Qadir Bajamal has received a $ 1 million cheque from the Kingdom of Saudi Arabia.

The cheque constitutes the third installment of the $3 million financial support being extended by the Kingdom to Yemen's de-mining program.

The cheque was handed over to Bajamal by Saudi ambassador to Yemen Mohammed bin Mirdas Al-Qahatani during a meeting here on Wednesday.

Speaking on the occasion, Bajamal highlighted the existing fraternal relations between the Kingdom and Yemen, and said the Kingdom is one of the major financer of numerous development programs in Yemen.

He noted that a ceremony will be organized in Aden on Saturday to mark the removal of the last mine in the Aden Governorate.

'The mine fields will be turned into green areas and productive agricultural projects', he said.

--SPA

Sisters, Brethren, that if you have naught used the blueprint issued for the benefit of every Citizen of every Ummah within every UMMAH, that you do so as a final and lasting accomplishment toward the safety standard of the Yemen Aden.

(Notation: Saudi Arabia had at that time under the authority of King Fahad, Crown Prince Abdullah, and the Sa'ana Bank owned by Prince Alaweed ibn Talal, instructed the Yemeni Government that should they not be able to pay back the money, they would just kindly write it off in order to not hold up the important progress in demining and rebuilding. - Uthrania Seila)

WHERE MONEY REALLY BECOMES A LIABILITY!

WHERE A NATION IS PLACED UNDER A BUDGET, THAT NATION HANGS ONTO A LIABILITY KNOWN AS "MONEY" WHICH HOLDS BACK PROGRESS UNTIL THE NEXT INSTALLMENT.

Sisters, Brethren, it is naught necessary to use the Capitalist monetary system to accomplish such worthy goals. Find your best resources Yemen, such as offering back to Saudi Arabia land for a conservatory for the Zoo Animals, and Iraqi animals need placement as well and fed.

For instance Southern Yemen has 27% meadows and 7% forest. You have only 1% land arable=fit for agricultural cultivation. Northern Yemen on the other hand is fixed with 14% arable=fit for agricultural cultivation, 36% meadows with 8% forestland. So if we put it all together we have a ratio of something more to work with here than families any longer feeling they need to sell their daughters into rich Saudi Households for wives or servants.

That is a day of the past and we would now like to see Yemen grow way beyond its own cash flow, because inside the Federation of Unified Nations operating on the Original Intersteller Islamic People and Government Friendly System of Economics, and naught breaking any Universal Principle by going contrary to the Universally acclaimed economics as practiced on the Paradisical worlds, there can be no budget;

no lack of resources;

no crimes which are mainly attributed to the use of the Capitalist monetary system;

and no more poor and hopeless feeling Yemeni.

Now let us add up all of Yemenis' finest resources. We have 63% meadows, 15% forestland, and 15% arable land=fit for agriculture and now with removal of the land mines in the Aden Governorate the active land mass is gradually rising.

Now we have a land mass of 93% usable land throughout Southern as well as Northern Yemen. In addition to that Yemen has coastal regional waters.

Because Oman borders Yemen on one side, and because they are naught self sufficient in their own food production it would naught be wise to cultivate a relationship based upon offering any of their Zoo animals or animals needing a special home where they could naught find otherwise, through the backtrading of food items.

Instead, Yemenis can offer the Omanis a home for their Zoo animals and in exchange ask for a certain allotted amount of marble. You can make your own cement for foundations, and begin to build your own Paradise for those who wish their houses with marble structure or some on the flooring. This of course is just an example.

And you would need to build your homes in the culture of your People, with a solid foundation in order that all Yemenis will be safe from major earthquakes in Aden and in other regions. Never think you are naught prone to earthquakes in your regions simply because you have had none before.

With all the active bombing and shelling going on by the Americans and British against Iraq and Afghanistan, the bombings are setting off shock waves throughout the major tectonic plates and that is also the reason why Turkey itself has had so many earthquakes in their own region.

When the giant earthquake in the western region of Turkey with the hidden three hundred top Israeli, British and U.S. Commanders on their own self-made base there was hit, and destroyed, every Commander and everything on the base,

such news, if you remember, was kept to themselves and away from the west for months, and nobody understood exactly how such news could have been kept away from the Public and so secret.

That is what the Zionist entity does - manipulates the Public ears. It was entirely due to all the bombing raids they had placed over Iraq and that is why we so often state that "by their own hands=the Zionists will they destroy themselves."

Whatever Yemen needs in prospects of irrigation, for instance, Yemen is able to ask for assistance in acquiring irrigation pipes with saltine inhibitors attached in return for fish and an offer to yet another Ummah within a UMMAH=Nation to offer sanctuary of a Paradisical nature for exotic Zoo animal creatures and the tired and abused and sad ones.
So this is how it works and it has worked this way for eons upon other worlds even less fortunate than this one.

Why do we bring up an issue such as Yemenis building some of their structures of Marble? Just to let Yemenis know that no matter what the People of Yemen decide they want to build their own Personal as well as collective Paradise out of as far as material is concerned, nothing under the Original Islamic Intersteller People and Government Friendly System of Economics, if you all work together and follow the Blueprint we had given to each one of you earlier, in the example of agriculture dealing between nations and Peoples and Governments of Nations,

before we progressed on in explaining how the Ummah's work within each UMMAH and those UMMAHS or NATIONS work within even a larger CENTRAL UMMAH, and so on, then you will accomplish a feat so great that Yemen will be turned into a Paradise and even the land will be turned into the greenest meadow lands for the Greatest and Most Beautiful World Conservatory for Middle Eastern Zoo Creatures, that the entire non-Zionist World will flock to Yemen just to see them all and be taught at the same time how to care for their own animals at home.

Animals likened unto People do naught want to be the subject of examination when they need to urinate or release dung. Watch intently some day soon, a smaller animal such as a dog or cat, and you will notice that these are sentient beings who have particular feelings just the same as you and I do about many of these things if naught all.

Yemen may become the world conservatory zoo. Yemen may become also the world's largest animal hospital. Remember this conservatory is for the abandoned, abused and neglected animals, fowl and endangered amphibians and endangered species of fish, as well as some exotic creatures.

Yemen's mountainous regions, the flatlands, sea and lake areas provide home to all types of these sort of animals, fish and fowl and allow for hiking and boating for people who live within the Federation of Free Planets.

People will come worldwide to study and be taught about all creatures.

A school will be erected to take students who wish to become animal doctors and conservationists.

Tourism will put Yemen on its feet as well as people visiting the ancient city.

Yemen will be a port of boating and glass bottomed boats will be afloat to show the people who sail on them the conservation sea-life.

Contributions to the conservatory will be another way Yemen will rise to the top. People contributing supplies and talents to build the conservatory schools, to set paths, etc.These people contributing their talents will still put in their hours to their home Material Majlis.
We hope, Yemeni, we have been of assistance to each one of you again, and we likewise thank the Government and Peoples' of Yemen for their courage and strength in standing by Iraq so many years of the days gone by. Bless each and every one of You this day. Asalaam.

or Philippines or any of such UMMAH or NATION which are protected by the Interior smaller Ummahs (Villages, Towns, City Districts) of each UMMAH or NATION and each UMMAH within the CENTRAL UMMAH or CENTRAL ASEAN NATION are protected by one another.

In this way the trade barriers come down to an even fuller extent and that is what we mean by the borders come down, ***yet EACH ASEAN NATION RETAINS ITS INDEPENDENCE.***

At this point the present monetary Capitalist entity has completely lost its entire powerbase and the People will be returned to a system of equalization and contentment all over again as much as is possible in the aftermath of was which have in the past placed a tourniquet upon these Paradisiacal accomplishments in order that the bankers keep their established money/powerbase against the People of the nations. Such ones love to place their own brand of People in leadership positions who as marionettes will "lead" inasfar as protecting the Capitalist system base against the People.

Sisterhood, Brethren, the capitalist banking system went after the nations of the **Federation of Unified UMMAH or NATIONS** of the **MIDDLE EAST** so that there would be nothing left to recover to, and now they are in **SOUTH AMERICA TO FINISH IT OFF AND EUROPE AS WELL.**

The rectifying of this is simple but the European Oligarchy of the European Union when approached by ourselves would not listen.

THE PROFIT OF WAR

Making war is profit and sky high will the oil and gas prices reveal themselves. At that point will the war machines screech to a halt and the collapse of the parasitical capitalist machine occur.

Then will the real freedom of the people come. Not through war but through peace. All weapons will be forced from their hand and once again will the abundance of the land be reinstated back into society, becoming once again reintegrated as part of the whole.

Remember this, Sisterhood and Brethren, it is written that many of us "walk among the living dead." This demonstrates that in the time nearest the new beginning, the same generations would come back to walk this earth. Those living upon this earth in their bodily cases are called the "living."

Those whom these living considered "deceased" whether over long centuries of time or the short present who have since reincarnated upon this same earthen plane are the "living dead." So all will be privy to choose which side they are on – the system born upon paradisaical worlds or planets of which system you call as being Heaven or the system born in the Hellion worlds or planets of which system and actions you call Hell.

Which shall you vie for: the capitalist system of economics and their societal structure, or the paradisaical system of economics and our societal structure. After all, it is your choice, each and every one.

THE PARADISAICAL OR PARASITICAL SYSTEM OF ECONOMICS. ONE IS SLAVERY; ONE IS TRUE FREEDOM.

Good Day.

While there is much more to explain, and much in the region of intertrade of all agricultural and non-agricultural regions, which has been shown and explained in detail to ye all before, we will leave you with this, Sisters, Brethren, for now:

Please remember, each UMMAH or NATION will have Enlightened People at the top.

These are the examples and these are the enjoining of the UMMAHS,' or NATIONS. The CENTRAL ASEAN NATION throughout the Central Asean regions; Middle Eastern Regions; the African regions; the South America Regions; the Satellite States, and eventually world wide, those who wish to also make their regions into a future with a better life.

This is how the Philippines and China will join at the hip. This is how Japan and Korea (Korea being as One entity) will also join at the hip. This is how the Philippines, Singapore, and Malaysia and Thailand will also join at the hip until each Asean Nation will be joined at the hip with one another, no matter who resides beside who.

Do you begin then to understand exactly how the Federation of All Freed and Unified Planet World Structures Work then Beloveds One and All?

We surely do hope by now that you do begin to understand and know that ye are not alone in this great Universe, for what arrogance could then be said of this present Humanity if they were to think at this lowly warloving existence that they were indeed the highest evolved creatures in the Universe.

None of these blueprints broke tradition with universal principle nor law **and none of these blueprints worked upon the monetary trade system** of those who broke through the fabric of space through an accidental event which the scientists and others belonging to the Federation of Unified and Free Planetary Worlds could not control.

These invaders and occupiers who first instituted the crippling monetary system with its religious co-partners upon this world are known as the Hellions of which you will read their and your own story in our records of ***"The First Seeding"*** of this present earthen world.

Other CENTRAL BLOCS OR CENTRAL NATIONS may utilize a blueprint or diversify those presented in order to govern the culture and society of specific NATIONS OR BLOCS into a better coordinating effort within the Federation of Unified and Free Planetary Worlds. ***This may be done in order to also better deal with the CENTRAL ASEAN NATION*** – no NATION excluded but each treated as equals ***once their own CENTRAL NATION IS SET UP IN CONJUNCTION WITH ONE ANOTHER.***

Within the Federation of Unified and Free Planetary Worlds' Talent and Purchase Order system, MONETARY FUNDS OF CURRENCY EXCHANGE SHALL BE CONSIDERED A LIABILITY AND THEREFORE SHALL BE FOUND OBSOLETE IN ALL ASPECTS OF DEALING WITH EVERY OTHER NATION WHOSE CENTRAL UMMAH (Central Nation) or UMMAH (Nation), or Ummah (Village, Town, City District) is tied into the other CENTRAL BLOCS OR CENTRAL NATIONS of ANOTHER CENTRAL NATION BLOC.

These CENTRAL UMMAH, CENTRAL NATION, OR CENTRAL BLOC REPLACE the present United Nations in that each UMMAH OR NATION IS EQUIPPED WITH A CENTRAL UMMAH OR NATION OR BLOC of its own in dealing with its own culture "based" upon the rule of universal principle or law which will result at all hours in evolved morals and ethics throughout the Whole or Total.

This is the conclusion of the BLUEPRINT Philippines in its entirety.

Good Afternoon, Good Evening, Good Day, and Good Night.

312. His Excellency President Xi Jinping and Leaders at the ASEAN 33rd Summit

Your Excellency, President Xi Jinping,

We greet you once again and trust you are well in health. The ASEAN Leaders topic of concern is embodied within this text, Your Excellency.

This same heading: "***Beijing wants China Sea Code finished in three years"*** was the same headline three long yet not so long years ago and yet what has changed?

It is the hour, your Excellency, to amalgamate "cohesively" within the CENTRAL ASEAN NATION to "each and every extent."

In order to drop the U.S. dollar, the way to do it is not to internationalize the Chinese Yen with other Asean currencies, but to drop the currency of Capitalism all together, drop the stock market with all of its adjectives, nouns, and foul play, and "implement," along with the Philippine Original Constitution, the Silk Road, not as a prerequisite nor economic barrier within the CENTRAL ASEAN NATION, but as an economic cohesiveness for all.

You see, one cannot break the mold of capitalism by creating another such mold with another face or two upon it.

It would be ludicrous to think that paradise can be restored by utilizing the worst of economies as its foundations.

What made the Silk Road so adored was the very fact that its economic alliance was not one of capitalism, digital, checking, credit cards, nor any other capitalist offences against the global public.

The CENTRAL ASEAN NATIONS should never be left to feel that the Great Nation of CHINA wishes to go it alone, when it is only the idea of Capitalism in any and all of its forms which keep the COHESIVENESS from forming the glue which keeps the body of the family of Asean Nations from working in the ONENESS of EQUALITY AND FRIENDSHIP.

https://www.federationoffreeplanets.net/events.html

For the following events to come to pass, the monetary exclusion must first be eliminated. You cannot have your cake and eat it too, when the cake is one of monetary ineffectiveness and you have the better answer for the Peoples, not only of China, but of the Entire Central Asean NATION, and eventually, if others succeed in forming their own Central Nations, the World.

We trust we have been once again, of greater assistance, Your Excellency, President Xi Jinping, toward that of your heart and work.

We remain as always,

Uthrania Seila Sentana-Ries (Cortez) representative of the Federation of Free and Unified Planetary World NATION

313. ATTN: President Duterte, "Sir,"

Singaporeans, "Papua New Guinea" (Welcome) and APEC ASEAN COUNCIL Leaders:

ATTN: President Duterte, "Sir," Singaporean, "Papua New Guinea" (Welcome) and APEC ASEAN COUNCIL Leaders:

Good Day. It is once again a pleasure to witness your relaxation toward the very interest of which each one is able to rely upon each other for support.

We shall begin this proverbial speech with a few worlds of opening concern to His Excellency, President Duterte of these Great Islands of the Philippines and as to the each one of you as well as we look more closely at the rightful and workable Constitution or Blueprint as attributed to the Philippines; a constitution which would do well for the most if not all of you notwithstanding the important piece China will play.

https://archive.org/details/BlueprintPhilippinesConstitution

Good Day and let us begin.

"The president is also flying to Port Moresby in Papua New Guinea on Thursday for the Asia Pacific Economic Cooperation (APEC) Leaders' Meeting.

He is expected to express support for micro, small and medium enterprises and multilateral trade. Before attending the APEC Leaders' Meeting, Duterte will meet with the Filipino community in Port Moresby. Papua New Guinea hosts about 40,000 Filipino workers and over 200 Philippine companies."

In a statement quoted in the PNA report, the Palace says Duterte will also talk about Philippine positions on "transnational and transboundary issues such as terrorism, violent extremism, trafficking in persons, illicit drugs and disaster risk reduction and management." www.philstar.com

Mr. President Duterte, "Sir," when the correct "Constitution" is in place all will "fall into place." You are the man of the hour in the Philippines and as such we trust that the borders of "these Great Islands of the Philippines" will **"link"** within the CENTRAL ASEAN NATION

No nation within the CENTRAL ASEAN NATION can be considered as more important than that of another just as one child within a family unit can be considered more important than those of the others, otherwise there can be no unity and the cohesiveness will not stand.

We are pleased at the nature of your topics, but try to remember that in order for a nation to become or remain independent, it must first become cohesive with its family of neighbours, therein, where there is trust there can be no further need for litigation or heavy contracts with print so small it cannot be seen, ***for those contracts are the best ones to avoid***;

what one cannot see determines the level of trust and signifies deception is at its core.

Out-sourcing Filipino businesses raises the question of why those businesses cannot or can no longer remain at home.

We wish for you the best in assuring not one Filipino fall through the cracks, and of the upcoming CENTRAL ASEAN SUMMIT we would suggest the topic rides on "COHESIVENESS" for cohesiveness is the protection of the Great Islands of these Philippines and her Peoples, and the PROTECTION OF EACH MEMBER OF THE CENTRAL ASEAN NATION: the head, the ears, the eyes, the mouth, the fingers, the hands, the body or trunk, the legs, the arms, the toes and the feet which hold the body up in sequence and cohesive structure.

Good Day, and to our friends throughout the Central Asean Region we salute you!

Uthrania Seila Sentana-Ries (Cortez) of the Federation of Unifed and Free Planetary World NATION

314. ATTN: Mr. President Duterte and Good Peoples of these Great Islands of the Philippines: A Short Story

ATTN: Mr. President Duterte and Good Peoples of these Great Islands of the Philippines:

Good Day to you, each and every One. Today I wish to tell of ye all a hypothetical story and at the end of the story there will be a question, and of that question, do I wish for you to think carefully an answer, and of that answer, discuss among yourselves the right way and of that way shall you come up with the answer which will be the correct one and one which serves justice for One and for all.

THE STORY:

One day a beautiful lady became the First Lady of a Nation and to the Peoples. This beautiful lady was joined in matrimony to a man who was seated at the head of a Nation. While these two very wealthy people sat at the head of a Nation of a wonderful, albeit, poor population of a Nation, or thought to be as such, it was found that the poverty became extreme due to offshore banking and leases and fraud of allegedly ***ten billion U.S. of the poor Peoples' money.***

The leader of the Nation one day passed away and left his First Lady and their three children overseas. The First Lady then decided to go back to the Great Islands of these Philippines and became a politician again. Now, as an arrest warrant is being considered by the Courts of the Land, bail of 150,000 is also being considered. The First Lady is now of very great age, so to speak. My question is this:

Should bail be posted, then by whose money is it the bail is being delivered?

Do the monies belong to the First Lady, her family, or other interests?

Do the monies belong to the Peoples?

315. Meeting On State Visit Of His Excellency, Xi Jinping - Code Of Conduct

Greetings and Good Morning, Your Excellencies President Duterte, and distinguished guest President Xi Jinping, Gentlemen, and should any Ladies be present, we welcome you as well as the Great People of these Islands of the Philippines:

We trust your stay in the Philippines has so far been a pleasant one and shall always continue to be.

Please, allow us to proceed.

This is the most important meeting since thirteen years ago when Chinese President Hu Jintao in 2005, and at the time of the Presidency of Gloria Arroyo, visited the Philippines with offer of contracts and of this shall we deal with on our next presentation. **In fact, this meeting between the Philippines and China, two friendly nations within the CENTRAL ASEAN NATION, is more important than the meeting thirteen years ago and more important than any other prior Asean Summits.**

The extreme importance of this particular meeting is due to several concerns of which on the table are contracts, sovereignty and the issue of the Code of Conduct of the West Philippine - South China Sea which let us call the Sea of the ASEAN Silk Road for all nations will one day benefit.

Fish and other sealife have no trouble swimming from one side of the ocean to the other so we, too, should follow their example, and set a standard for ourselves, **a Code Of Conduct,** being two houses joined at the hip, and for the particularities to be sorted out in same fashion, for only our minds at times, stand in the way, bringing us into what seems like an abyss when we should be seeing both houses in an amicable position.

We are men and women of honour, and as such, may we conduct each segment of this meeting with peace and good intent.

Many times the monopolization of monetary finances bring to a head less than amicable feelings, so this we want to pinpoint and understand **across the board,** that we as two friendly nations rise above these tendencies on both sides.

So with this under our belts so to speak, and without further ado, allow us to begin.

We need not refer to the **New Constitution or Blueprint** too often for monetary banquets often fall on their noses and that is what we would like to avoid, so we would like to begin in going deeper into the **"Code of Conduct"** in point form.

1)What many people do not realise is that with China as a main player there would be no more reason for the United States to be stationed in the ASEAN Sea, whether it be around the coastline of the Philippines and her Islands, or whether it be watching North Korea, also understanding their lucrative resources, or whether the Americans have taken up bases off the Island belonging to Japan, or whether they have taken up bases in the Philippines or upon any other ASEAN NATION.

2) With China as a major player there would be no reason for the United States to attend ASEAN SUMMITS. China belongs as a viable Nation to the CENTRAL ASEAN NATION whereas the United States of America does not. Therein, constructive

criticism should it arise at the next summit of the ASEAN NATIONS, would not break out in inflamed tongue but serve a better position toward a peaceful and more beneficial outcome.

3) With China as a major player there would be no more excuse for war. The United States of America as we all know is a global tyrant. It invades and sets up bases in order to war and steal the natural resources of almost every world nation globally. This, China has not done.

When we brought our other Blueprints to the Middle East, an African nation, with a few South American Nations setting up their own **CENTRAL NATION BLOC**, but each and every interested one was invaded and attacked by the United States of America, who has behind it, Israel, and behind them the Hidden Hand who also have a force behind them which we will be speaking of in later presentations, not of this meeting.

The Philippines has a choice at this most dangerous hour of the day. The choice is to act in a brotherly - sisterly fashion and work with China on the Silk Road as a beneficiary, and for China to work alongside the "independent" Philippines with the New Constitution or Blueprint which serves all Peoples of the Philippines, no matter their class or position;

or to risk war between China and the United States of America inflaming the entire CENTRAL ASEAN NATION, and of the latter who does not belong in the ASEAN SEA.

The Silk Road was long ago destroyed by Rome who could not understand that monetary wealth is not something to be craved, but rather an action which can destroy the rebuilding of a paradisaical World eventually for All.

The Americans right now are pilfering Africa, the Middle East, and South America. Let us not put the Philippines in such danger.

In the Middle East, they had no such power of protection, though many of them tried, Africa had no other nation strong enough to secure their independence and safety, and neither does South America;

but here in ASEA, the Philippines, and the other ASEAN NATIONS have CHINA and that gives the CENTRAL ASEAN NATION including the Philippines, the power and the upper hand.

4) It is the best if the oil and gas reserves stay in the sea where they belong, BUT here is something to consider:

Though China has the resources for drilling, so do the Americans.

However, China will share whereas the Americans will not. **That is the difference.** And for as long as those reserves in the West Philippine Sea stay underground, submerged, the Americans will stay around to fight with all their might until every resource the Philippines and China have in their two houses, homes, whether be land, sea, or sky,

will be taken by the United States of America,

and their interests will far surpass the interests in their eyes of the Philippines, China, North and South Korea, Japan, Indonesia, Thailand, Singapore, or any other **ASEAN CENTRAL NATION** and they will never leave, **always placing the Philippines in danger of war breakout and the peace we all strive for will be a dream of the past.**

We have to think differently now, for this is a critical time for both nations,

and it is with ascertainment that when it comes to a nation's sovereignty, it must be cohesive with those nations around it until no nation within the ASEAN CENTRAL NATION need any longer fear for the health of its Peoples, nor for the wealth of the Peoples, and nor for the sovereignty of the Peoples' Nation.

Thank you, your Excellencies, Gentlemen, Ladies and the Peoples of these Great Islands of the Philippines,

we trust this shall be of some helpmeet to each One of ye and All.

We remain,

- Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

316. Upon The State Visit Of His Excellency Xi Jinping We Welcome You - Our Opening Message Of Consideration

Greetings and Good Morning, Your Excellencies President Duterte, and distinguished guest President Xi Jinping:

It is our pleasure once again during this State visit to welcome you, Your Excellency Xi Jinping, to the house of the Islands of these Great Philippines which is all the more congenial when you, Sir, are here.

We have decided to present this for your study as of the earlier hour for your convenience.

Time, as it were, is short, so we shall get to the point.

President Xi Jinping, we would first like to thank you for your acknowledgement of our last letter and as such will present it for reference.

https://www.facebook.com/notes/uthrania-seila-sentana-ries/his-excellency-president-xi-jinping-and-leaders-at-the-asean-33rd-summit/205772236983805/

There is no doubt in our minds as to the work-ability of the Silk Road in conjunction with the New Constitution or Blueprint for these Islands of these Great Philippines, for both are well suited to one another in that they both flow well and place the Peoples first, *before* the corporations, the capitalist industries and all those who wish and do make monetary headway at the expense of the peoples they are meant to serve.

As you are most familiar, Sirs, with the output of corporate and industrial powers, there are **also the smaller baits called privatization** whose main intent under the pretense of helping the Peoples of poorer nations in particular, offer up their assistance by going into their national house and piecemealing it up then selling the resources back to the people

at cost with a higher rate of electricity, for instance, due to competition from other privatizations;

add usury to this and what do the people gain, but losing their national resources also as put up for collateral, and this is what we see in **Papua New Guinea.** What seems good on the outside smells of sewer in the inside.

It is wrong to take advantage of such peoples, and now thinking they have independence, what they had, they have now lost.

That is a pretty cruel game to play on a nation whose population sees many still walking around with paint on their faces.

Though oil and gas shall always play an important part in the lives of industries we feel it is wise to consider both water as well as thorium powered vehicles as a stabilizing factor.

This would keep most of the oil in the ground, so to speak, and cushion the ocean with wildlife, rather than potential oil spills and war over the resources by outside forces.

The Americans can be such an irritant like **"Flies in the Ointment"** and whilst they are bottlenecking their politics and policies we may get on with the state of business which suit us both.

We spoke of cohesiveness, Your Excellencies, President Xi Jinping, and President Duterte, but that cohesiveness must factor in the entire **CENTRAL ASEAN NATION** in order to promote security and compliance with one another.

It is important, therein, that no part of the body of the **CENTRAL ASEAN NATION** be left out. This can only work when all playing fields are equal and are working on the same adjectives.

Your Excellency, President Xi Jinping, Sir, you once wrote several years back, if you remember, *beautifully highlighting it in the paper,* that Chinese Banks would not involve themselves in the palmitation of the **Silk Road.**

Many Filipinos are heavily concerned that Chinese outsourcing may take away thousands of jobs which they need for their survival.

As a true hand of friendship and in partnership of certain oil and gas reserves, ***writing off the debts of the Peoples of these Islands of these Great Philippines***, *would bring the two houses or two parts of the body of the CENTRAL ASEAN NATION closer together and in a much more fruitful manner than has ever been seen between two countries, not only in Asea but in the entire global community.*

It is a building up of further trust, and with that trust comes the Silk Road as being the high road, and along with the New Philippine Constitution as being ONE which works justifiable hand in hand.

As an addendum and as you, Your Excellency, President Xi Jinping, mentioned also in your latest speech to the Good and Kind Peoples of these Islands of the Philippines, that our blueprints were deftly under consideration as a perfect match to the Silk Road necessity, Mr. Reni Sentana-Ries's Blueprint as found also for your further review toward the regions or nations which are perhaps more industrialized, for their transition away from the Capitalist system in all impeccable desire http://www.freeearthsystem.net and his supplementary write-up as found at http://www.starshipfederation.atspace.co.uk.

With no further ado do we wish your stay in the Philippines *to be not only adequate but bountiful in* ***the Spirit of the Great Silk Road and its for-bearers through*** *assuring the independence of these Philippine Islands and her Peoples, the Peoples of the Great Land of China, and the protection of the CENTRAL ASEAN NATION as a whole.*

We remain as always

Your friends,

Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

317. Meeting On State Visit Of His Excellency, Xi Jinping - Economics Of The Silk Road, The Philippine New Constitutional Blueprint

Greetings and Good Morning, Your Excellencies President Duterte, and distinguished guest President Xi Jinping, Gentlemen, and should any Ladies be present, we welcome you upon another fine day, as well as the Great People of these Islands of the Philippines to the final day of these meetings:

Code Of Conduct: Meeting 20/11/2018

Please, allow us to begin.

If justice is not served because of monetary advantage, then where does justice end and where does it begin? In many ways this seems to be the crux of the matter serving little to no advantage whatsoever.

Too many men and women poring over contracts can prove to be more of a hindrance than an asset. True economics is simple and that is what we must calculate our economic bearings on, the act of simplicity. Too many minds and too many words tend upon tripping over one another to the point where scattered minds are going off on every which way and direction.

When an MOU and agreement is signed it must then be enacted without further ado.

When a painter signs a contract or MOU, the painter then places a stroke of paint upon the wall and the agreement goes forward, not onto the tables and tablets of all those who wish to ratify it toward their own end, but rather to **"ensure"** that headway and progress be made as of the immediate hour.

In order to make good progress, a**n MOU must not fall into the hands** of many scattered minds serving all directions, **but needs to be understood as two leaders making their mark impetus.**

The issue with the islands is similarly not a difficult process. The Philippines shall not only **not lose its sovereignty but shall in fact gain a greater sovereignty which Philippine and Chinese dignity must allow.**

Coming from both spectrums, let us now look at the conundrum which, in fact, does not exist.

If we take the word "budget" out of "economics" we will have removed the stop-gap which prevents us from moving forward at an inclining rate.

The impetus of this move along with the complete removal of all duty, tariffs including all other forms of usury shall only serve to the advantage of building a stable economy of which is **"the right choice"** between these Great Islands of these Philippines and the Great Nation of China, **"leading in ground-breaking" and dramatic economic climate for the recovery of the entire CENTRAL ASEAN NATION.**

In making the economics logistically simple shall see those who would abscond with the monies of the Peoples, in any nation, **find their ill gotten gains to be useless.**

Now, with that said, let us look again in such different manner as is outlined in both the combined interests of the Silk Road of Excellence and the New Constitutional Blueprint of these Great Islands of these Philippines and her Peoples, at point value.

Again, we shall submit in point form.

1) Many hands do make light work as long as it is not contractual paperwork which more often than not gets tangled up in synthesized legalities by unfortunately those persons who are pocketing monies from foreign sources eschewing loyalties to the Peoples of their nation.

2) With many contracts on the table today, we must look at the economics **in a step by step process.**

3) In return for drilling rights and protection both sides being of China and the Philippines shall share equally.

4) With so many islands at their disposal, the Philippines would have no problem with China and the Spratly Islands as well as the Panatag (Scarborough) Shoal. And why is this?

Because in the long run, China will need to grow food on some of the islands for extra supply in order to feed the Chinese Peoples,

and of the great Chinese rice fields, THESE will serve well the Peoples of these Philippine Islands**. In the end crop sharing is a win win situation.**

5) With the Philippine Constitutional Blueprint offered by ourselves, and the higher industrial Blueprint offered by Reni Sentana-Ries, and the Silk Road project which needs to be continued in the spirit of the first brilliant Chinese manufacturers, **not one of them was burdened down by money in any of its forms or decrees.**

6) The Philippines need water roads. Water roads are roads ferries and barges travel upon. Close islands need bridges and for all these projects

the Philippines needs engineers of which discipline is to build these bridges with the right or correct materials and know how to the greatest degree.

What the Philippines can provide for China, for instance, China will be able to provide for the Philippines. In other words, we need each other in order to progress.

If China, for instance, cannot provide bridge builders in regions of earthquakes, then perhaps Japan or Singapore or another **CENTRAL ASEA NATION** will have such **peoples with such talents, and in trade from the Philippines, a talent the other nation will need.**

Perhaps one of those nations within the CENTRAL ASEAN NATIONshall be able to provide freely without the encumbrance of the monetary system with all its budget reforms and other monetary nuisances. You see, noone shall be left out.

7) The Philippines has a multitude of islands at its disposal, available for different and diverse projects, so what is the problem with China, a good and neighbourly friend of the Philippines, having a few of those islands to itself?

It is nothing more than ego, and let us hope the Philippines ties in the good of the nation with more than ego always rising up and placing ridiculous condemnation upon such a state of being.

You have many bananas and other fruit, do you not? And have you not already begun to furnish the tables of the Chinese with such produce that they might eat? You have employed wisdom and generosity, **and that wisdom and generosity is fuelled by the desire to move forward and out of the economic war zone, and of this:**

If one man or woman has twelve bananas, and the other man and woman have only two, does the man and woman with twelve bananas condemn the man and woman who has only two, or does the generosity and concern of the man and woman with the twelve bananas give to the man and woman with only two bananas, perhaps another two? ***Would then the man and the woman with four bananas not show their gratitude by guarding the door of the man and the woman with now ten bananas?***

8) The Philippines need to open up the islands "across the board," and bridges need to be built on the closer islands, and ferries need purchased where the water is wide and deep. In the lesser extent and the more secluded islands, riverboats would also be in adherence to the project.

9) Gaming is stock-marketed ticking, and it breaks every principle of Universal Law and besets the Peoples into another addictive pattern and because of it this only lends a greater understanding of the dangers of monetary adherence as set forth by the Capitalist system of gambling.

10) If you have no stocks, you have no challenges to th**e "right and correct way"** toward the future of economics as outlined in every Universal Principle throughout the many progressive planets and worlds of this galaxy.

11) When business is conducted, workers should remain if possible in their own houses, this assuredly keeps the jobs at home. And with the Capitalist system out of the way, there would be no need for one to go outside of the borders to bring better

income home to their families. Outsourcing workers from China, for instance, is not practical nor fair to the Filipino worker.

12) With free trade in the methodology of Universal Principle, the peoples will never need to pick up the bill in tariffs, duty, nor any other usury based system.

13) Only export and import what is necessary and do neither UNLESS the national house actually has extra to spare after, for instance, feeding their Peoples.

14) Trading on the Silk Road by the entire CENTRAL ASEAN NATIONS shall far surpass any other stock market, of which when one stock goes down the other goes up and when it goes down, the other goes up, so it is just a waste of time and energy.

Not only that, when the stock market of Capitalism is no longer practiced the sanctions put on nations by the Americans will simply reverse themselves because the American Capitalists **will no longer be able to bribe or buy out the Peoples of Nations who no longer deal in any type of currency, digital, checking, stamping, credit cards, microchips, nor implants.**

We trust, that in our MOU of sharing, that **green energy blueprints** as put out by both the Philippines and China,

and those also of other nations within the CENTRAL ASEAN NATION shall never from this point on, gather dust upon the shelves, for all innovative progression will never leave out the exemplary conduct of any MOU, and of this we rest our points, and thank the each one of you for your ear.

Good Day and may it be a profound One!

Rest assured all shall be well in the warm climates and never wait for the winter snow to thaw before enactment as of the immediate hour is pronounced.

- Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

318. The MOU Of The Signing Of Oil And Gas Partership; Other Concerns Addressed

https://www.philstar.com/headlines/2018/11/21/1870508/carpio-quashes-xis-false-assertion-ancient-chinese-explorer-used-justify-sea-claims

The Silk Road and its consensus is to benefit everyone within the CENTRAL ASEAN NATION and later beyond those borders. As one nation joins another at the hip within the CENTRAL ASEAN NATION, the sea will become a waterway of non-tariff, non-duty, non-usury of any kind; trade and importation/exportation of goods and services where needed.

The ones who grumble are the ones who have no solution. These are the same ones who do not wish for the Philippines and China to move forward, but to remain at the mercy of foreign enterprise who would rather strip the economy from the Peoples in both the Philippines as well as China, giving nothing to the Peoples in either land.

In the manufacturing sector, the Chinese-Filipino manufacturing Industry will not need to drive up charges due to the fact that all necessary manufactured items shall be found within the Filipino homeland, therein keeping the Peoples from having to pick up the tab for transportation charges by sea or air.

When we say, "land" we include the transportation charges from the places of manufacturing which shall transform the old U.S. base, "Clark" and the old U.S. base at "Subic Bay" into other than a foreign inquisition by those who only wish to trouble the Peoples of the CENTRAL ASEAN NATION.

This is an industry of "friendship and cooperation" and Filipinos of all manner shall greatly benefit of the building of Chinese Industry. Please remember that the **New Philippine Constitutional Blueprint** and the **Blueprint concerning industrial** survival

of the fittest, goes hand in hand with the **Silk Road waterway** and will bring much prosperity to one and all given time and the encouragement from all parties concerned.

Gaming, however, is not a substitute for good social development, no matter who thinks it is. Gaming is addictive as we have said before, and is no different than Wall Street gambling, nor casinos.

When Universal Principle is broken, so shall the souls of man and woman not forsaking the child, be broken also, for savings and earning go out the window, tearing a home apart in much the same manner as do drugs and alcohol.

Therein, Gaming should be banned from the Philippines, whether it be online or otherwise, without exception.

https://www.philstar.com/headlines/2018/11/22/1870690/eo-boosts-campaign-vs-money-laundering

President Duterte has just signed an executive order against money laundering and as we have stated so many times, where monetary value is placed upon the criteria of any nation, so will there be incentives to break Universal Principle and Law.

As far as the MOU signed in friendship and agreement between His Excellency, President Xi Jinping and His Excellency, President Duterte, the two signatures are the code of honour between the two leaders and the two nations of both China and the Philippines.

The most prudent way forward is to now manifest those signatures into action with no more delay.

This is due to the fact that joint exploration and drilling is akin to a painter putting the brush stroke on a building to be painted before some other party thinks it is their building and one not to be shared with the respective caretakers of the house.

We think talking to the Americans is useless and I think the elitist club, the G8 is equally as useless, however, we will be there should His Excellency Xi Jinping request it.

Uthrania Seila Sentana-ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

319. ATTN: House Speaker, Madame Gloria Arroyo

ATTN: House Speaker, Madame Gloria Arroyo,

Your contingent for "Federalism" is a hodgepodge of American Influence.

https://www.philstar.com/headlines/2018/11/23/1870977/house-resumes-plenary-debates-gloria-arroyos-draft-charter

We strive for peace, not only on the waters, seaward, but upon the land for the Peoples, on behalf of the Peoples,

and for those who do not yet understand the policies of the United States of America, understand this:

They are ready and willing to go to war with both the Philippines as well as China, foolishly, we might add, and would not stop until they are at war with the entire CENTRAL ASEAN NATION.

We do in no wise propose any action which is contrary or outside of Universal Principle, and as you would call it, "Law," nor any action which would sacrifice Philippine resources nor lives.

Joint oil and gas exploration, for example, needs a drilling partner should the Philippines not be able to provide this.

The Philippines is not losing resources, for the Philippines at this hour is not even cataloging those resources, and with China drilling and yet graciously offering the Philippines a 60/40 cut in revenue, we are shocked at the display of Filipino ignorance toward the agreed upon MOU between China and the Philippines by two leaders who understand the dire situation in the West Philippine/South China Sea.

The Americans, we can well assure you would in no wise with their drilling equipment offer the Filipinos anything more than to become their slaves.

Let us enter into one more concern which has already been remedied though the articulate study of the New Constitutional Blueprint of the Philippines as has "already" been drawn up with the sanctity of the Peoples in mind.

Taxes, for instance, do NOT belong into the New Philippine Constitutional Blueprint, and one cannot reform a previous Constitution which was drawn up by those whose enlightenment was subject to the information they had at the time.

Again, Madame Speaker, we cannot stress enough:

We do in no wise propose any action which is contrary or outside of Universal Principle and as you would call it, Law nor which would sacrifice Philippine resources nor lives.

The Americans do not share, they invade waters and airspace; they steal "all" resources and when they plant themselves somewhere, they do not leave willingly.

The Americans look out not for the Filipino Peoples, but for themselves and their own corporate and Capitalistic industrial gain.

You are completely left out. Where there is a source of monetary wealth in their hands, they will use it to bribe and to try and to undermine the people and leadership at the top.

You are well aware that the New Constitutional Blueprint as also mentioned by His Excellency, Xi Jinping, serves in the long run, as does the Silk Road or Belt Initiative, the best way forward in its transition from a Corporate and Capitalist monetary system to one which cannot under any circumstances be corrupted nor fraught with corruption.

You had, when you were President, your troops inside Iraq at the behest of American promises of great wealth and oil profits, but then you became clever and tried to pull your troops out of Iraq, and that is when the threats came and the Americans behind the scenes unseated you into house arrest for many years.

Have you so very soon forgotten this in that you would take our Constitutional Blueprint and turn it into a hodgepodge of ridicule in denying the Peoples of the Philippines their rightful Way of Life?

Too much is consistently spoken about the islands and de Hague who in the first place has no ruling jurisdiction within the CENTRAL ASEAN NATION individually, or as a conglomerate, and because they have no ruling jurisdiction they also have no power to implement it.

Are you aware that the European nations collectively wish to join in with the Silk Road?

This is not one newest event but first they need to ready their own houses collectively in order that their own CENTRAL EUROPEAN NATION, away from the Corrupt European Nation, NOT FALL OUTSIDE OF UNIVERSAL PRINCIPLE AND ITS "STATUTES," as you may call it.

We do not intend, therefore, to allow any more corruption of our Constitutional Blueprints, for corruption in words only elicits nothing more than hardship upon the Nation, the Peoples, and the World.

We wish you well in making "the right choice."

320. Good Peoples Of These Great Islands Of These PHILIPPINES

Good Peoples of the Philippines!

Good Morning upon another fine day.

The Americans will never recognise your rights for independence and they will take without asking every resource you have and without question they will make you pay twice, three times and five, over for it. They will not share.

The beginning of independence and sovereignty of one's nation is to first "ensure" that your nation is "protected" by a power or powers whose loyalty is toward friendship in a brotherly and sisterly fashion, and of that is China willing.

The Philippines has many islands, and so many that a few shall not be missed, but the closer China is to the coastline of the Philippines, the further away shall be the contention by the United States of America.

His Excellency, President Xi Jinping has given his word that between the Philippines and China there will be peace upon the seas.

The Americans at no time will give you theirs.

We have seen one nation fall after another and crumble into dust and chemicalized by the United States of America.

Those nations thought they could survive independently, but instead not only did they lose their sovereignty and independence but they lost their nation, their Peoples, and their health.

Look at China as a protector and an enthusiast of prosperity for all, making the Philippines into one of the first hubs of trade on the Silk Road waterway.

Perhaps more islands can be made out of the garbage floating from the shores of Korea much like Singapore does *and we trust that garbage will stop flowing.*

There will come an hour when the borders within the CENTRAL ASEAN NATION will become more lax as friendships firm up and criminal activity ceases due to the exclusion of the monetary system in all of its branches.

His Excellency, President Xi Jinping has also stated that the Nursing profession and other health practitioners would be able to remain within the Philippines and no longer need to leave their home for higher wages.

This is now in the works.

Their families will remain intact unless such ones wish to leave for other lands due to specialized trade with those concerns as needed also by the Peoples of these Great Philippine Islands.

As for those who wish to overturn the New Constitutional Blueprint of the Philippines in favour of up the road seeing one president remaining for only four years and then being allowed to run for the next election to make a number of eight years in total, this is another trap of the democratic system which in fact is not democratic at all but rather allows a good leader only a specific number of years

before another step in his or her shoes to overturn all the good that leader may have done.

Instead of the suggestion of giving equal power to both the President and Vice President, it would be much wiser, in future, to appoint twenty-four men, women, not forsaking the child or children of equal wisdom and telepathic power to the bench, or Enlightened Council, or Security Panel; twenty-four who would not need to leave their position.

In these few points, there is much for you to consider.

We will have PEACE throughout the LAND!

321. Attn: Your Excellency, President Xi Jinping - China's "open" Market At Trade Forum

Good Morning, Your Excellency, President Xi Jinping,

Our apologies, but this only now appeared before our view upon the Philstar.com news at the bottom of the page.

https://www.philstar.com/business/2018/11/05/1866059/xi-trumpet-chinas-open-markets-trade-forum

The way to end the trade war between China and the United States is to drop the monetary system. In that way trade is able to continue unhindered with the exclusion of monetary value, ticketing, and stock market rises and falls, which in the short or long run

would continue to hurt both China, The Philippines, as well as the Peoples in every other nation along the Silk Road.

It is therefore best to minimize your nation's export, in huge trade surpluses, as you suggest wisely, but that can only be done when the incentive of "making money" is gone and when all currency has become extinct.

However, in cutting your exports, this will also result in higher prices for the peoples of other nations. This is price manipulation which is unhealthy for the peoples, There must be no middleman in such contracts.

"New Trade" would be the way forward if "New Trade" determines that Universal Principle become the yardstick for "Free or New Trade."

The Silk Road is no different than that of the Constitutional Blueprint of the Philippines nor the Blueprint by Mr. Reni Sentana-Ries, as he determines to speak to western leaderships.

The best "open" market is one where trade on the Yen or any other currency does not exist. Only in that wise will you stop the trade war with the United States of America and force them to stay within their own boarders before a war ensures over nothing more than Capitalism.

The Silk Road worked "until" Rome walked in and destroyed it and all due to Rome insisting on monetary value being placed upon every item of trade on produce and goods.

Your Excellency, President Xi Jinping, if we stick to the Silk Road, we shall not only have peace on the waters, upon the land and in the air, but we shall all have won the right for "fair trade" and prosperity for all Peoples.

It is imperative, Your Excellency, that we not stray from the Silk Road, for that is the road which leads nations into rebuilding their paradises within their own lands, and in this way do we not disgrace nor shun the ones whom in their day have now reincarnated into this lifestream in order to bring the Silk Road again into non-monetary fruition.

We trust this document be of further service to you and the kind Peoples of the Great Nation of China.

As always do we remain,

Your friends,

Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

END QUOTATION

THIS BLUEPRINT IS FOR THE PEOPLES AND NOT FOR THE SMATTERING OF TAX EVADERS TO SET TAXES UPON EVERYBODY ELSE!

WHICH MASTER DO YE ONES SERVE? YOUR OWN POCKETBOOKS, THE AMERICAN BANKING INFLUENCES, OR THE WORLD BANK THEMSELVES JUST TO GAIN MONEY AND BREAK TRUST WITH THE CHINESE PRESIDENT XI JINPING WHO HAS NOT ONE BONE OF ANIMOSITY IN HIS ENTIRE SOUL!

YE ONES FORCE OTHERS TO BREAK UNIVERSAL PRINCIPLE AND "LAW" AS YOU HAVE MADE A MOCKERY OUT OF UNIVERSAL PRINCIPLE IN WRITING YOUR OWN BIAS "LAW" OF THE LOWER EVOLVED MORAL STRUCTURE OF YOUR SOULS INTO OUR CONSTITUTIONAL BLUEPRINT AND

CALL YOURSELVES LAWMAKERS!

YOU ARE A DAMNABLE LOT!

DO YOU NOTICE HOW THE GAS PRICES AT THE PUMP HAVE GONE DOWN ON THE SPECULATION OF JOINT OIL AND GAS EXPLORATIONS WITH CHINA?

BELIEVE US, THERE IS NO SPECULATION FOR THE MOU HAS BEEN SIGNED AND SHALL MOVE FORWARD.

ONE DAY THERE SHALL BE NO CHARGE WHATSOEVER AT THE PUMPS AND THAT IS WHAT WE ARE WORKING TOWARD FOR THE PEOPLES OF THE LAND!

AUTONOMOUS REGIONS WILL INDEED HAVE THEIR OWN POWERS AS IS OUTLAID IN THE NEW CONSTITUTIONAL BLUEPRINT FOR THE PHILIPPINES AND IN DOING THIS YOU SHALL ALL UNDERSTAND HOW THE SYSTEM OF USURY PLAYS NO PART IN ANY SPECTRUM!

Stop worrying about your positions, and open your minds to realize that in place of taxes for revenue will come the gains of the oil and gas explorations and drilling, along with green solar energy which China is implementing now in order to reduce smog and other toxins;

apart from this when the Silk Road is fully established MONEY AS YOU KNOW IT SHALL BECOME OBSOLETE!

No one shall then suffer nor fall through the cracks of this DAMNABLE TAX BASED SYSTEM!

A tax based system is a death or mort-gage system for the Peoples with no way out but through the coffers of the morgue!

If we did not care about any of you we would just say nothing!

323. Attn: Your Excellency President Duterte - The Enemy Within

Your Excellency, President Duterte,

Taxes are the greatest invader of any national house and the most dangerous enemy of any nation. Let us continue in striving for peace on the mainland, in the sea, and in the air, looking at each and every peace deal.

It is "wise" to listen first to the Peoples of all categories "before" raising the hand, pen, and voice against them.

When the incentive is taken away much crime and aggravation shall disappear.

Each autonomous region shall be responsible for training the entire Peoples within their village, town, city districts, in protecting their region, their Councils and Majlis,'

and in this way with each region rising up in case of a invasion, which is now less likely with China protecting the Philippines and the Silk road, the entire nation shall be protected "simultaneously,"

and this has been proven successful in Switzerland, albeit they work on a line of probability, a little different, which is been looked into at this time by the forces of the Philippines, as you well know.

A strategic and clever move.

Let us assure ourselves and the Great Peoples of these Islands, that our most formidable enemy, the tax and full usury system is one which is ousted first and permanently.

Whilst you wish to build up new and younger forces who need their education at college and university level, their greatest enemy, the monetary system and its backdrop of usury are the ones who in their infinite powers weasel their way into every bank account, *taking, taking, and taking interest from the Peoples, from the students, keeping many young souls from attending the schools of their choice.*

Usury, along with the money system with all of its facets, President Duterte, is the enemy you should be most worried about.

We remain as always,

- Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Free and Unified Planetary World NATION

324. The PHILIPPINES And Americanized OPEC

TO THE HOUSE OF REPRESENTATIVES, THE PEOPLES OF THESE GREAT ISLANDS OF THE PHILIPPINES AND THE SENATE AND CONGRESS AND ALL OTHER BRANCHES OF THE PRESENT GOVERNMENT:

The Iraqi People had their national oil and gas and in 2002 the Iraqi sanctioned Peoples paid 50 dinar which at the time was the equivalent of five U.S. cents a litre, **a reduction set by Iraqi President Saddam Hussein, as the Peoples could not afford any more.**

On the 19th of November 2018, the Iraq Peoples are paying for their own oil and gas 750 dinar for one litre of gasoline.

Much was given freely to the peoples including soup from the palaces, cloth to sew clothes, and group marriages, all paid for by the few dinars the RCC (government) had at their disposal at that hour.

We pay twenty-five times as much for oil and gas today compared to what President Saddam Hussein was charging the Iraqi in 2002. Add usury onto that and ye Ones will see what you have to look forward to if the Americans take over the Philippines or heavens' forbid, the **CENTRAL ASEAN NATION.**

Today the Iraqi pay 750 dinars for their gas and oil products.

Until the Americans destroyed Iraq for five reasons:

1) Iraqi oil resources; to control the future's market. Iraq is a swamp-land of oil.

2) To put an American puppet ruler in place

3) To ensure Israel becomes the hub of the Middle East in usurping every resource of every nation within the CENTRAL ARAB NATION AND ITS MIDDLE EASTERN NEIGHBOURS.

4) To murder Iraqi scientists who refused to work for either the United States or Israel, of which there were 300 who refused to betray Iraq by **handing over green technology and especially the blueprints of Saucers ships to the United States of America. These 300 Iraqi scientists were murdered by Israel.**

5) To keep Russian Lukoil out of Iraq. Lukoil had been given certain rights to Iraqi oil fields due to loans;

a part of the MOU "agreement" was that the Iraqi oil field workers did the drilling, a point I had pressed for. There was a trust built between Russia and Iraq which never wavered and has not wavered to this day. The Americans keep Lukoil from receiving its due.

Many times when a leader is disposed OR elected out of power, the nation falls prey to those powers who shell out nothing more to the peoples save that of crumbs upon their unvarnished tables. This is why Russia volleys the same two leaders back and forth to ensure this does not happen, and why China also put their leader, His Excellency, President Xi Jinping in for life.

NOW BACK TO THE PHILIPPINES:

Any U.S. or foreign western-based oil companies such as Shell in the Philippines needs to close its doors. Wherever you find an oil tycoon such as Halliburton, Shell Philippines, or any other consortium, you will have already lost your rights to the Philippine - Chinese oil and gas fields,

and the same U.S. obstruction in the entitlement deed as forged between Iraq and Russia would ***ensure a war of such magnitude that the Philippines would have no rights to any gas and oil fields off the coast of the Philippines,***

and oil and gas prices would continue to fluctuate on the futures market instead of becoming low and finally obsolete to the benefit of the Peoples of these Great Islands of these Philippines, China, and the entire **CENTRAL ASEAN NATION who want peace above all, but not the kind of freedom "or peace" as given by the United States and Israel; freedom peace by piece from your nation's resources and your limbs and life. It is imperative, therefore, that before such a gas war exists in a physical manner that all Shell and other partnerships contributing to the western advantage be replaced solely with Philippine partnership with China which is a small price to pay for joint protection of the Philippines and her resources.**

As for the Americans returning "the Bells," of the Philippines, they had no business taking them in the first place. The Americans looted Iraq as well; should then a cordial "thank you" be also in order?

The Americans have not returned the famous artifacts of Iraqi cultural history after all this time with the disposal of President Saddam Hussein.

The Americans bombed Iraq into oblivion so that they would have no other resources with which to revive the nation.

Nor has the United Nations returned the monetary gifts in the Iraqi Escrow Account as donated by many nations during the horrendous hour of some of the worst sanctions on Iraq.

These monies were to be released as promised at the time of the disposal of President Saddam Hussein, **to the Iraqi Peoples.**

Instead, the American built an enormous military base (Embassy) where the Americans rule Iraq, fruitlessly with their puppet President.

The Peoples of Iraq lost everything and we do mean everything.

The Americans do not share, but the Chinese do and until all money with its term deposit - usury is dismantled, the Peoples shall continue to survive on whatever crumbs are thrown down to them by the monetary system of usury.

The Chinese are offering at this hour jobs ensuring enough pay that the Filipinos will not need to leave the country looking for higher wages and this "includes" the medical profession.

Then will come the full transition to the Orders of Goods and Services without money in any of it formats nor its twin dry-gulching of the nation the usury.

Venezuela only pays the equivalent of ten Iraqi dinar for one litre of gasoline. That is about 1/75th of the price the Iraqi Peoples are paying for the same amount of gasoline today and

the United States wants the oil and gas fields all for their own.

Why the low gas price, dear Ones?

Because the middleman is excluded from profiteering.

We trust this shall shed a little more light upon the situation though this is just the tip of the iceberg melting as to all which is going on or transpiring.

PEOPLES OF THE CENTRAL ASEAN NATION STAND TOGETHER FOR YOU ARE THE LAST HOPE OF EVER REVIVING NOT ONLY THE SILK ROAD WHICH IN ITS INCEPTION USED NO CURRENCY AND NO USURY OF ANY KIND, BUT YOUR PRECIOUS RIGHT IN OBTAINING FREEDOM FROM THE HIGH ROLLERS ON WALL STREET AND WITHIN THE CHAMBERS OF ALL BANKING COFFERS AND THEIR HIDDEN HAND BEHIND THE SCENES WITH A HAND UPON THEIR GULLETS AS WELL.

The Americans work on the precept of divide and conquer. If they can divide North and South Korea, they become stronger diverting attention away from the actions they are taking elsewhere.

The CENTRAL ASEAN NATION IS THE HOUSE THE AMERICANS ARE NOW TRYING TO DIVIDE. PIECE BY PIECE.

Peoples of the Philippine Islands, we have read that some of you are curious as to why the Americans allowed China to build up to such a strength without even trying to stop or curtail them.

The answer is this: The Americans want a reason to break out into a full scale war in which to secure the gas and oil fields and rape the CENTRAL ASEAN NATION from every resource which they, the Peoples, still own.

The main action is for both China and the Philippines to get the oil and gas OUT OF THE FUTURES market and the price will then dramatically fall. It is all a part of

transitioning into the market of the Silk Road WATERWAY of the CENTRAL ASEAN NATION and out of American and other future marketing hands.

- Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

325. Philippine - Chinese MOU Upon The Oil And Gas Exploration And Drilling

Your Excellencies, President Xi Jinping, President Duterte, Peoples of these Islands of these Philippines, the Peoples of the Silk Road of China, and the CENTRAL ASEAN NATION,

Good Evening from our end and Good Morning to you.

Please access the links.

Let us begin.

https://www.philstar.com/headlines/2018/11/25/1871600/mou-oil-development-recognizes-philippine-sovereign-rights-carpio-says

https://www.globalpetrolprices.com/gasoline_prices/?fbclid=IwAR3EQKRSDu6xmCdH98lzcWXJUd0qEYNqUPuh5kQULnakdcSkUF7gJWxo8WE#hl124

In Venezuela the people pay the equivalent of one Canadian penny for one litre of gasoline. The Filipinos pay one-hundred and thirty-seven times as much for gasoline. The middleman takes the rest.

Therefore, take the Philippine National Oil and Gas Company, **join with Chinese oil and gas exploration and drilling, then take the oil and gas off the future's market and feed it to the Peoples.**

And waste no time, Your Excellencies, for time is of the essence. Should there be anything which differs from the MOU, which I cannot see so far, a difference, **then let the drilling begin immediately following the chartering of the oil and gas exploration**, from region to region, with all the other Asean Nations doing the same around their own shorelines.

In this same fashion will this secure the borders of each Asean Nation from foreign enterprise working the future's market with the middleman in exploiting the People's resources.

We will not break trust with His Excellency, President Xi Jinping.

This will uphold the Philippine - Chinese MOU and move the process forward until the entire CENTRAL ASEAN NATION are off the future's market cost.

This will also stabilise the inner sanctum leaving all middleman out, and a Venezuela style pricing for the peoples intact until the full transition over to the *Silk Road consortium bases its monetary value not on usury and banking but as it was always meant to be - for the joy of living and prosperity for the PEOPLES!*

326. Re: "Foreign Powers Enforcing Ruling South China Sea"

To They Ones whom for some strange reason still need further explanation on the West Philippine - South China Sea, kindergarten is resumed.

https://www.philstar.com/headlines/2018/11/25/1871455/foreign-powers-enforcing-ruling-south-china-sea

The U.S. Britain, Australia, Canada, AND France are sitting like the vultures they are in the West Philippine-South China Sea waiting for war so they can take the spoils of the sea and the lands belonging to the ASEANS.

They do not care who nor how many Aseans get hurt or killed just as long as these parasites take freely those resources into their own bank accounts.

Is this why the European want to again set up an enormous military gathering of all European nations, military and police to put under their command?

NATO was not enough?

Those vessels of the Imperialist powers are not sitting in so-called "international waters" for trade,

those are a buildup of Imperialist Hegemonic Navies, who sit there breaking the law of the seas by being ready to interfere at their will with ocean going commercial vessels when the order is given.

I remember years and decades ago, Kenya was given a blueprint, a small one which showed how the peoples, themselves, could begin agricultural growing on a barren land so they could feed their families, however, they needed assistance from an oil rich nation.

Saudi Arabia under King Fahad at the time and along with Crown Prince Abdullah, offered their assistance and in return a certain amount of a goods in trade would be sent over. The peoples of Kenya loved the idea of regaining their health and their dignity.

After many months and on the day the transportation of the goods from Kenya to Saudi Arabia, began, the Kenyan transport cargo boat ran into a French Navy vessel who sent not only the Kenyan ship back to harbor but intercepted a Saudi cargo ship heading for Kenya with more supplies as well.

The French said "no trading" between the two nations.

This did not happen until the trading began.

Now who was right? The French with their navy boat sitting in so-called international waters?

Or the Kenyans and Saudis of yesteryear who wished to trade with one another with no money passing hands?

When we wanted to set up a trial blueprint for the Afghanis as well, Saudi Arabia under King Fahal and Crown Prince Abdullah set aside a portion of land in the northern region alone with a trading port. The Afghan stopped the poppy trade and just as all was going well, the Americans stepped in again and stopped the entire process.

The same happened to Yemen, with the British and American Imperialist Hegemony.

The British took over the water ports of Yemen and ran bootlegging liquor into Saudi Arabia territory of which a Saudi became drunk and drowned in a swimming pool. The three British and one Canadian were arrested and held in a jail well looked after while their governments spoke ill of Saudi Law.

King Fahad allowed the U.N . in to access the health of the four men and found they had had medical treatment and were well looked after.

I asked the U.N. why did they not go and access American prisons which they then did and found such horror that they could not believe their own eyes.

Whenever trade and good fortune arises its head, one shall always find that the rule of the sea, so to speak, is being manipulated and disgustingly corrupted by those who sit like the clams in the bay waiting for the spoils of war.

Ye Ones have all been given a solution. Go home and straighten out your own European and American houses, set up your own CENTRAL NATIONS and LEAVE EVERYBODY ELSE IN THEIR CENTRAL NATIONS ALONE!

The SILK ROAD WATERWAY WILL GO THROUGH AND THE PEOPLES OF THE CENTRAL ASEAN NATION SHALL NOT ONLY BENEFIT BUT BE FREE OF THE PARASITICAL BANKING CONGLOMERATE.

327. "Scarborough Alarming Robredo Says"

Vice-President Leni Robredo. Greetings. We trust all is well with you.

There is much more at stake than which rock belongs to whom.

https://www.philstar.com/headlines/2018/11/25/1871619/bullying-gma-news-team-scarborough-alarming-robredo-says

That rock or island is going to do the Philippines no good if the Imperialist powers get their way. You will not find one military base run by the Americans, the British, The colonial French, Colonial Australians nor that of Canada, India nor Japan who will allow any news reporters near their military facility.

We know you believe Australia, maybe the leadership, to be your friends, but we can guarantee from experience that they are not partial to peoples with brown skin.

They have exploited their own indigenous population, the Kuwaiti, The Iraqi, and many others.

Years ago yet not so long ago there were boat people on their way to Australia. They were hungry and they were penniless. The Australian government would not let them land, however, some good Australian doctors and nurses came to their aid and opened up tent hospitals on Christmas Island. The peoples were also so thirsty, the children crying out of hunger and thirst observing their parents fear.

The Australian government refused the boat people to land on Christmas Island and the boat peoples including all the babies and young children from Indonesia, drowned that day.

Some prior boat people are kept in barbed wire sectional camps with no hope for a future.

There is much more at stake here than perhaps you may realize. Currently, both the United States and Colonial Australia are expanding their military base in Papua New Guinea. What for?

Against China? or against the Silk Road?

and what it will gain for the Peoples as the banking cartel falls though cracks where it placed the Peoples of the nations, thus far.

When that base is finished do you honestly think any reporter will be allowed near it?

It is only military prudence which keep reporters away. So who then in the background wishes the Chinese to act any differently?

If it were not for the Chinese, Vice President Robredo, you would find out very quickly what it is like to become a bombed out hole in the sea.

-Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

328. To The Good Peoples Of These Sovereign Islands Of These Philippines:

WE WELCOME YOU ALL TO ANOTHER FINE DAY!

1) The ANGKAS emergency motorbikes which FREELY offer assistance to injured Peoples giving the ambulances time to get to the scene of the accident upon such

busy roads is not only EXCELLENT! but necessary. The ANGKAS also teach students the rudiments of driving motorbikes such as these.

You are all to be commended.

2) Chinese students and vacationers are welcome in the Philippines, but not without permits in-taking jobs away from those who are citizens. Also, NO INTERNET GAMING IS ALLOWED, for internet gaming gives the Peoples a false sense of security, breaks People's pocketbooks and infringes upon families through the dire ticketing practice which sees families addicted. China does not allow online gaming practice for these very good reasons. When the monetary system has been transitioned over to the Constitutional Blueprint of the Philippines and the Silk Road for your part of the world, then your own brotherly - sisterly nation of the Great Land of China, shall have plenty of good work for you to do within your own talents and capabilities.

3) The military forces are doing an excellent job of securing the islands, for peace will come to all who work within the Constitutional Blueprint of the Philippines when the guns are laid down and understanding takes place.

You are all to be commended.

It is "important" that each autonomous region (Village, Town and City Districts), teach their own Peoples "defence" of the nation without making them serve "time" in the military. Many young men and women are not suited for military training.

Remember, that the Swiss have already established a most "workable" defence system. When one has twenty-million Peoples raising up all at one hour there will be "no room" for those whose criminal activities or forced labour for the peoples, will remain.

No more young men losing their sight over bombs, which distinctly, with so many Peoples "protecting" their own nation and "Constitutional Blueprint of the Philippines," shall be found before they are laid.

4) For those whom reside in the Southern portion of the islands and upon the smaller islands and should it not break the Internet (third party) agreement which we understand has already been signed, then the Muslim Internet offered could well serve their autonomous regions if that be agreeable to all parties and the work could simultaneously begin at once.

5) Under the Constitutional Blueprint for the Philippines, the "Build Build Build" Project need not take ten long years. All building projects could begin "simultaneously" and take only the length of time necessary to Build.

Please do not make these Philippine Islands into the likeness of other nations' concrete jungles,

and where "housing" is only for those with monetary means.

6) The Constitutional Blueprint of these beautiful Islands of the Philippines will ensure that the simplicity of nature, the astuteness and brilliance of its inhabitants, be retained and not be overridden by the monetary exclusiveness of banking bullying and its counterpart - the stock market trade center on Wall Street which is the banking gaming iniquity of the World THROUGH THEIR breaking every Universal Principle of good morals and ethics and true progress

where it DOES NOT take ten years to build what should take "SIMULTANEOUSLY" a nation-full of hospitals, airports, shipping docks, lodgings for the PEOPLES,

in the character of the Filipino culture,

and not just high rollers and their business investment offers,

save that of which brings the Silk Road to the forefront for truly "free trade" among the CENTRAL ASEAN NATIONS, and "later" beyond.

-Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

329. Attn: Your Excellency, Chief Justice Antonio Carpio

Your Excellency, Chief Justice Antonio Carpio,

Good Morning.

https://www.facebook.com/CNNPhilippines/videos/361472324678172/

We immensely enjoyed your intriguing historical and eloquent talk on the history of these beautiful islands of these Philippines, though we could not see the slides, and understand that you love the Philippines as much as do we, ourselves.

However, history is history and no matter who is right or who is wrong, or who has another sense of perspective, it is the sovereign "safety" of these islands which is at stake.

I can never, and hope I never do, forget the confused, yet gentle smiling faces, of those Iraqi women with a little one by their side, as they gazed at American and allied bombs falling upon their land.

One brave woman looked at the international cameras and said in her Arabic tongue:

"We love you Americans! Why are you doing this to us? This bombing!"

Supreme Court Justice, they gather in the West Philippine - South China Sea for two reasons and those are:

1) To stop the SILK ROAD FROM SUCCEEDING AND MAKING THE CENTRAL ASEAN NATION GREAT AMONG ALL OTHER CENTRAL NATIONS WHEN THEIR DAY COMES.

2) To destroy the land of these Philippines through a buildup, and they will not only take what they want from the sea, they will destroy everything and everyone in their path.

So, Chief Justice Carpio, please see "history" in a different light before history of other nations repeats itself in the West Philippine - South China Sea

as it did to the Nations of the Middle East, Iraq, Afghanistan, Palestine, Syria, and Yemen, making them into a history of ashes.

Such nations do not need money as much as they need the system we gave them;

The system which was deigned them. Wolves come in sheep's clothing often pretending on being the nicest and most intelligent of men and women.

Remember UNICEF, years ago collecting monies for all of the children? They were caught with their hands in the pot and the scandal was world wide.

With the warmest regards, we trust one day you shall sit upon the highest councils of the Land.

Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

330. Someone Always Is There To Upset The Applecart-When You Hurt One Member Of The Body You Hurt Yourself

Notation: This serves worth presenting again:

When the envelope of life meets you in the face of all seeming controversy that indeed is the hour in which an extension of the power of peace sees to firmly reign in the land. However, when distinction showers its face upon the collaboration with others who seemingly wish to participate for their own purpose in another's land then the question must be asked: whose reign and whose horse are you stepping on?

For botany grows its elusive leaves upon the moisture of the land and whereas the grass will not grow so unto the forested regions shall the dry land and the moisture heat up or facilitate the little known poison out of the land.

So Peace will grow and the land will stay and the People shall Prosper in a comely way where the oil runs dry for the wise arise and that which is the NATION with all eyes become dry!

331. The Great Circle Of Consumer Goods – A Deadly Game (Part 1)

10.22.2016

Dear ones, the hour has finally arrived for the sanctification of bringing all of this together in one understandable event.

We shall proceed in several partitions. Thank you.

THE HAMSTERS IN THE STORE TREADMILL

Ye Ones exist as consumers upon a treadmill rotating within one great circle, serving and being held prisoners within the most unnecessary lifestyle imaginable.

Grocery outlets in the fashion of Superstores and their lower components including the average store such as No Frills, IGA, as well as smaller convenience stores all drop prices after raising them so high that the average drop in prices are actually much higher than a few years ago when the prices were said to be normal or average.

The grocery outlet, No Frills, for example, means simply you bag your own groceries, therein the outlet itself tells the customer that they are saving money

when in fact, the customer saves nothing but actually is paying more as the prices elevate.

You see, dear Ones, when a new grocery outlet starts up in a town, village, or city, the price expansion is quite low to bring the peoples into the lair or trap of produce.

A year or so of this the prices begin to rise and the discounted prices begin to rise and this continues until all marketing procedures are in place for the big hike which sees even the discounted prices rising above what may be considered normal.

Following this technique we have observed that the grocery outlets, the hardware stores, and all marketing places owned by franchises and big corporations and industry bounce around prices.

They are not so much in competition with one another but rather consider the expenditure on gas and other petroleum products which consumers must use for the wear and tear of their vehicles and to run them from outlet to outlet; from one district to another; from one town or village or city to another just to acquire the best price.

How much does the consumer save?

The consumer saves nothing.

The consumer pays more in every instance than ever before because the consumer is locked into a grid which does in no wise provide for a way out.

Small convenience stores get hit and the price goes up astronomically destroying many businesses because the customers shall wait and save their gas money until they are able to afford to go elsewhere to one of the large outlets where they believe they actually save themselves great expenditure.

They have a wider choice of products, that is true, but at what expense, here, again, coupled with gas and oil prices in their fluctuating middleman market of which governments take a profit from keeping their mouths shut and their pocketbook lucid.

DO THOSE STORE FLYERS SAVE THE CONSUMER MONEY?

When the flyer big industries and corporate food overseers send out, or used to send out, pamphlets telling of great bargains, the oil and gas industry gets paid.

The paper mills get paid.

The workers in the field industry of logging and paper milling get paid.

The printer gets paid.

And all these peoples including the peoples who harvest the pulp, the trees;

the mill workers, the printers and those who deliver the pamphlets or flyers along with every single customer

pays for the produce, the groceries, the non-meat

over three times its value

and in addition to these produce are the meats

in which the customer pays for the terror and slaughter and agony of the flesh of those sentient beings the lamb, the dove, the ostrich in diversified farming.

The goat, the ram, the poor minx and the partridge

Hidden beneath coils of rope and sewage.

ANIMALS - BE THEM!

So by the time the animals and their variation of sentient beings

face, including their arrival at Superstores which harbour live crabs, and oysters, lobsters, ducks on a grill, beef steaks and rhine,

sentient hogs all manner of evil toward these sentient beings

including providing no barns for the animals when the hours were not lean but rather conveniently leaving them out in the fields

in the days and chilly frosted nights while each Human being is cosy in their own dwellings.

These poor and dear ones go through being crated, placed on trucks, hacked up,

Packaged Shipped

Their meat in many cases tinted and tainted in order that all of ye Ones are able to think the grey meat you see is fresh and ready for the grill.

It is tasted up as well in many if not most cases.

It is smoked and dehydrated in order that new fluids are shot into the meat for the liquidation is to make the meat seem juicy.

Then the meat of the sentient being is unpacked from the crates and shipping lanes; in many cases, trains, and all other avenues, including those being shipped from overseas; these are all part of the process.

And you, the customer, are paying not just for the murder of sentient beings you were to caretake

but you are paying EACH AND EVERY COST which got the murdered sentient being to your shopping cart.

TARIFFS "ARE AGAINST" UNIVERSAL PRINCIPLE AND LAW AND THIS IS WHY

And the tariffs which are saved by big business are added to the price of the meat of the murdered sentient beings so adding to the monetary "value" of that certain cut, and you, the customer pays for that as well.

This is one phase.

THE CONSUMER IS BEING POISONED DAILY

Your groceries are tainted with chemicals and poisons.

No? Go look it up. Read the packaging. And read what is not written upon the label.
DIETARY FOODS AND THEIR LABELS

You cannot lose weight upon diets of meat, dairy products, and hens menstrual periods which you call eggs.

The circle is even bigger. And we have not even begun with the hardware stores yet.

When you, the peoples become sick from the meat, dairy, and eggs, and chemical poisoning in many of your other foods, canned included which even in strange instances formaldehyde is a secret unlabelled ingredient, then the undertaker undertakes his or her job and fleeces the family unit with huge funeral expenses which few can afford.

"SMART PEOPLES" ARE FLEECED AND RIDICULED

Retirement savings are used up early.

Oftimes retirement savings "for the smart people" cannot be reached due to untouchable equities.

Then the banks which financially, as they receive their duties of usury as kickbacks or perks from the funeral homes and plot sellers, set before the consumers "the smart ones, remember?"

their banking mort=death gage=to guage the cost or renumeration reciprocating back to themselves the death rates or ratios in calculus percentages to ensure that the PEOPLES are heartily encouraged to mortgage their property which they have worked their entire lives to secure for themselves in their retirement years "a beneficial plan" AND "RRSP's" and so on though investment middlemen or middlewomen called your "Insurance Agencies" of which catalogues of different "Life Insurance Packages" which were and are still sold to the unwitting believer.

NOTHING IS DETERMINED WITHOUT THE SOLUTION

It is one thing to detail this and yet another thing entirely in providing a more accurate solution which we shall shortly provide in addition to that which has already been stated.

Not all government members are flagged and tagged for perks and there are still those who will willingly and do turn in their badge of parliamentary membership just because their soul growth or evolutionary state of being is far beyond that of the monetary worshippers.

We shall continue.

Good Day, Good Evening, and a Good Rest to those on the other side of the world.

332. The Great Circle Of Consumer Goods – A Deadly Game (Part 2)

10.22.2016

In our continuation, blessed Ones, we quickly touch upon the pharmaceutical outlets, for the PEOPLES, who are you, the consumers, do not yet realize just how often ye Ones are taken to the cleaners.

Many, of you, however, know much more than even these few tapered words for the many.

Let us now continue.

PHARMACEUTICAL COMPANIES, THE COMPANIONS AND CHAMPIONS OF BIG PHARMA

Wherever there is an outlet, a drug store which is a pharmaceutical marketing business for the big corporations, they will latch onto the winning lottery of them all, and that is the pushing or selling of drugs on the market with most drugs obtained by government drug lords who are the representatives to the security of the nation in foreign affairs and who are supposed to ensure the protection of whichever nation they serve or belong to.

In the field well known drug lords are arrested and the "investigator" representatives and assets to the security of the nation they are supposed to be defending by gathering information on "drug lords" in other lands as well as at home, confiscate the drugs, photograph the seizure then sell the drugs, many already laced with cyanide, to the appropriate laboratory outlets which then make them into consumer products.

Such pharmaceutical "medicine" is manufactured by the gift of finance by big profiteers whose monetary backing sees many of the drug compounds often laced with too much of one deadly substance or another meaning "filling" the capsules or pills with another deadly infective substance.

These drugs are then fed as "medicines" to the local pharmaceutical industry which then take the drugs, shelve them nicely in appropriate fashion and proceed to initiate the consumer of the effect of the drugs to both the positive as well as to all the negative side effects in order to guard both the pharmaceutical industry, big corporation power-fleecer-brokers behind the scene in their secret chambers, and the medical industry with its once "multitude" of good doctors and nurses.

Medical establishments such as "Honorary School Diplomas" are granted in Medical Schools and Universities to those graduating Doctors and Nurses and other Medical Staff, as to the "valued worth" of drugs within the pharmaceutical drug market in curing or assisting with the cure of patients under their care

while the patients or consumers of many of these deadly "medicines" which are oftimes prescribed in "mixed" quantities in prescriptions, one medicine misaligned with another are charged a fortune for their own roadway to unsuspecting personal suicide both often drug related as well as monetary related.

Why do ye Ones think the physical death rate of suicides is so high in both the military as well as school aged children and teenagers?

PEOPLES, you already know this, the most of you who have your eyes and ears and mind on the same wavelength and upon the same page of the book, so to speak.

Pharmaceutical drugs are used as perks for those who write prescriptions here in the West in particular. It is the same methodology as used in the Far East toward police and military police whom are told: "Kill and arrest or do not get paid."

Both are an open door to unlimited murder and premeditated murder with money going everywhere in every direction at all hours of the evening, day, night and morning.

Both open doors in themselves are a dangerous weapon when unattended by reason and logic, drugs being the worst, for PEOPLES on either side of the drug syndicate either get hurt by reason of both syndicates, the street drug lords as well as the pharmaceutical drug lords, both sides capitalizing on the money-racket just because right now money and reason eclipse the universal principle and law therein catapulting the PEOPLES globally into a quagmire of Hellion long-ago-laid-in system of HELL on earth.

Yet the drug industry of pharmaceuticals are equal to the street drug lords enterprise business on the black market and on the ordinary street and there is absolutely no difference made except the banker made one legal and the other illegal and that is simply because the greater level or amount of street drugs pushed and monetary gain capitalized upon, the less likely the banking industry will see revenues.

It all comes down to money. Money harboured and Money needed, as many think, by the consumer.

Even the pharmaceuticals and their medical industries, the scientific labs working for the money lords of society, doctors, nurses, medical staff, street drug lords and the consumer are all involved in this monetary circle of death upon the societies and because of it each and every one need to be freed from this grid, this device of Hellion monetary capitalist manipulation.

We shall continue.

- Uthrania Seila Sentana-Ries Cortez, a representative of the Federation of Unified and Freed Planetary World NATION

333. The Great Circle Of Consumer Goods – A Deadly Game (Part 3)

10.22.2016

PHARMACEUTICAL DRUG MARKET AND ITS COMPANION THE MEAT, DAIRY AND EGG MARKET

Both street drugs as well as pharmaceutical drugs equal themselves in deadly capability, and uncontrolled, kill families, destroy lives, and bankrupt the PEOPLES pocketbooks.

Without coverage one-hundred diabetic strips used for measuring blood sugar levels cost here in Canada eighty-four dollars and ninety-nine cents for strips which are rationed at around one thousand percentage higher in cost than it costs to make them in the factories.

The majority of diseases are created though the consumption of meat, dairy and eggs combined with pharmaceutical drugs uncontrolled in their contents.

The meat industry work hand in hand with these pharmaceutical conglomerates giving much business toward the funeral homes and so on so that more than the Human cost of those diseases are added to by the consumer having to buy "Life Insurance" early because of the ratio of "diseases out there" the patient is told, and added to this is the quick disintegration of the family pocket-book even those under coverage or medical which in many places has already been privatised and remodeled.

With fewer doctors manning the hospitals in the West and nurses gone over the boarder to the States, there are fewer services and as one doctor told us: "We doctors do not know what is going on in government that the hospitals are all shutting down in outlaying areas and at that hour only two doctors were manning the hospital while at the same hour running full time medical clinics for the consumer.

Red Cross selling all its high technical equipment for loss of revenue.

So you see, dear Ones, one and all, it is the hour to move away and transition to the Original System of Economics of Talents and Purchase Orders and of this shall we go into just a little further before you allow the banker and all its teller outfits, so to speak, to sink the boats of each and every one of you.

Did ye Ones also know that within many hospitals if not all when a child is born a syringe is inserted into the crown or top of the cranium and many of those babies

when entering their first several years are not acting normal in a positive way but something seems to be very very wrong with them?

Then when they enter school years they are segregated or put on drugs because such children have had needles inserted into their craniums when they were born.

But do the parents know why?

The consumer is taught by the doctors who are taught in medical schools and though many doctors now know what is dangerous to the consumer or patient, they dare not speak out nor go against the establishment for fear of their own future or assassination of themselves.

The laboratory workers in many hospitals across the continents face the same danger.

Do some research, ye Ones of the most gullibility whom also allow injections into the arm of your young ones in this age and hour.

Now, connect how this all works together in one gigantic circle for ye Ones are all tied into a grid and a most dangerous one for yourselves and your children and your elderly and sometimes unfit ones who are paralyzed from the neck down and from inside the very mind they inhibit as their own.

EXTREME CASES OF PAIN - WHAT THEN?

In extreme cases of pain there is always an exception.

However, monitoring the sensation of pain must be done with compassion and not foolishness for all has its place and the only killers which are good are the killers of physical pain and at certain hours such as morphine need be used at this hour;

yet drug dealing is drug dealing and pushers are pushers and sellers are sellers and that is the crux of it;

and those ones need as much freed from the system of monetary exclusion of most global populations than anyone else, for most, if not all, are victims of the same cycle of capitalism from the downgraded system of economics which this world had once known at the hour and events taken into the pioneering and seeding of this world.

And the pharmaceutical corporations will corner every nook and nanny of every market they can get their hands into including the cannabis market where they have already diluted the cannabis with extracts of "other" drugs and intend upon the control of that market as well as Doctors and Nurses and Government policies.

BIG BUSINESS ALL ROLLED UP INTO ONE DEADLY PACKAGE

The food Industry is big business with its deadly chemical composition which you eat all of your life. The meat-slaughter houses is big business for meat, dairy and eggs are all wine to your souls and is killing you mouthful by mouthful, your children and your pets.

The poisoning of water is big business and not all water through "sanctified" outlets you buy are pure by any means; many are just tap water with a little smelt chlorine in them. The plastic bottles water and drinks are kept in are also big industry for often the bottles leak deadly chemicals.

The manufacturing of diseases is big business. Mort-uaries and their Funeral parlors are big business.

We are completed this portion for the reminder and enhancing you, the PEOPLES, understanding of the grid-wheel you are on and after one more short portion we shall speak of the solution in greater detail.

This life is not the only one ye Ones are to live. Make sure you make the correct decisions and build a good one for ye Ones shall be entering back into it upon your next incarnation either upon this world or that of another.

Good Evening and Good Night. (portion continued from yesterday)

Part 4 - Hardware Stores and Carpentry - Next - with the Solution Part 5 to follow. Please add on to what has already been given, ye Ones upon the other side of the world.

- Uthrania Seila Sentana-Ries Cortez, a representative of the Federation of Unified and Freed Planetary World NATION

334. The Great Circle Of Consumer Goods – A Deadly Game (Part 4)

10.23.2016

Dear Ones here is the final presentation before the solution in somewhat more detailed and comprehensive fashion in Part 5 shall be presented as the addition to that which we have already formerly and not so formerly stated. Thank you. Good Morning and Good Afternoon and Evening to those upon their rest time hour. Let us begin this segment.

HARDWARE, APPLIANCES, AND CARPENTRY HAVE A LOT IN COMMON – BUT WHAT IS IT?

Since the beginning of "time" so to speak, for "time" was instituted to become the template of organized slavery by the banking and religious order of capitalist economics brought to this world by the Hellion race from worlds which had known no paradise, the PEOPLES of this once paradisaical world have been made to suffer and face many diversified physical deaths in order that the Hellion banking system replace the Original Paradisaical Talent and Purchase Order System of Economics.

Once there were carpenters whose talents matched those of all paradisaical worlds where talents in carpentry had never been replaced with automation of much lower standard or quality merchandise.

This is where we begin and continue

As each century passed and each millennium came into its own beingness, the deeper the HUmanity became embroiled in the bankers' effort to rejuvenate their own system of Hellion contracts upon the PEOPLES.

This means precisely that there was a breakdown not only of the paradisaical system of societal and economic excellence including paradisaical schools and training which preserved such excellence of creation of both carpentry and diverse type of appliance-making and hardware tool construction, but ensued the breakdown of the quality of both production as well as the final product all due to the capitalist monetary system of economics.

CONTRACTS – GOOD OR NEVER GOOD?

One type of contract is placing the worker or store employee under contract which is work get paid, do not argue and keep your mouth shut.

The second type of contract is placed upon the consumer at the till which require a credit card, bank card, or cash in bills, dimes, and nickels.

Pesos are of such low value they do not exist there.

Both type of contracts are money controlled by the capitalist system of economics from Harvard study employee "chicks" as they call them when they get into big business and are elected to serve under the men in so-called "janitor positions."

But there is one other type of contract and this contract goes much higher than the janitorial positions.

The unspoken contract is placed upon whomever decides to inform upon the establishment and that is when a different type of asset is offered, usually with deadly effects.

How is this, indeed, dear Ones, a part and portion of your industrialized process?

Because the capitalist monetary system of back-breaking economics upon the PEOPLES must ensure that the revenue sought along with all of its presumptuous tax-credit programs bring in the greatest amount of revenue and equity though the program of slavery coupled with manipulated debt losses in order to flog the workers into greater production,

the very personal creativity of the once-free people of the Federation of Unified and Freed Planetary World NATION were forced into factories which mass produced the greatest number of products

for many times a luxurious cost and most hours a much less expensive price and that is where mass production lost the edge on the common market.

TWO EQUIVALENTS RUN RAMPID IN THE MARKET – DO YOU KNOW WHAT THEY ARE?

There were two equivalents in this mass production of both wood and metal consumer products set in long yet not so long ago.

One equivalent was to produce a higher quality of junk to replace the wonderful carpentry on site of those ones with much talent. The same strategy was employed as an equivalent to replacing good carpentry in the hardware business.

Many hardware stores which promoted and sold equally poorly-made simple tools for construction and home fix-it projects knew their merchandise was shipped straight off the press-line and into the market place as copy-cat brands of the more expensive manufactured products.

This the hardware outlets sell at cost with pay-raise hikes taking over the greatest percentage of revenue at which cost the consumer picks up the "free duty tariffs" of the industry and manufacturing costs before even shipping takes place in foreign trade enterprises of which corporations make private deals with governments with the backing and protection of the main artificial banks whom are the banks which create monetary means at their fingertips.

We shall continue in Part 5

- Uthrania Seila Sentana-Ries Cortez, a representative of the Federation of Unified and Freed Planetary World NATION

335. The Great Circle Of Consumer Goods – A Deadly Game (Part 5)

10.23.2016

The conclusion, dear Ones, of this portion on Hardware Stores, Appliances, Parts, and Breakdowns of machinery, and Carpentry- the dying talent of artistic excellence.

A PAY RAISE FOR THE EMPLOYEES? THE CHATTEL?

You have got to be kidding. A few crumbs here and there and little perks which hid their faces around a nice little platform of insidious image taking with a brass button included for everyone to see. Picture of the employee of the month, year and season is then hung up on the wall for the uninformed to gaze at and the corporate bosses to chuckle over as they wring their hands at the utter disgrace of that which the employees allow themselves to become enslaved and embroiled in.

The other avenue was to produce a lower quality of junk which ye Ones call today the common market, or "global extreme," as we call it;

the consumer would pay hard-earned wages for junk which would in an hour break down and the consumer would then be forced to replace the product.

The first equivalent saw the more prosperous consumer buying the pricier junk and not needing to replace it for several years until the industry came out with a more fashionable product which "if you were someone with some type of wealth" you must guarantee a loan or mortgage upon your home and property (which the home owner pays taxes on) yet which the home owner does not own anyway, just to keep up the status quo

So the banks own you, your assets, lock stock and by the barrel of your own liquefied set currency

which is regulated for you each moment of each and every day, evening, morning and throughout the night in the great illegal stock-market trading

and ye Ones wonder why you are poor of pocket and wage and why the standard of living never goes up for you?

BANKING – A WISE CHOICE?

And through all of this, the many of you Ones still believe that the use of high technology in the numbers game coupled with the technology to uphold the banking

archaic system is one which only the "wise and clever" ones involve themselves within.

When, in fact, leaving out the remainder of the population of the nations whom perhaps have little opportunity in acquiring a good and profitable education to become the better working slaves for the corporate powers and losing all their freedom

for they must all work doubly and triply hard to make it to a higher bracket living standard still having no freedom in hours, days, weeks, and months to enjoy the fruits of their labour, so to speak,

is an enormous part of the most "brainwashed and mind-controlled" program ye Ones have ever been led by the nose or forced, into.

The most expensive of all carpentry products are those hand-created by the great unforgotten talents of the men and women whose knowledge has been somehow preserved,

yet the bankers have put they Ones' production on the market also at such high value that few consumers can afford the items.

The dividends the creators of such fine woodwork recoup unto themselves for their exquisite labour you shall notice many of them live with scarcely a morsel to chew or sip upon.

Yet when those dear Ones become deceased the value skyrockets and the revenue goes straight by percentage into the bankers pockets.

This is extremely effective and profitable with the arts such as symphonies and paintings, sculptures and other creative designs.

With factory slave workers the production is weak of fabric and ill put together for the whip is on their backs consistently and the demand upon their labour is high.

The manufacturers made sure the factory workers, for example, tie the thread in knots which break and before long these many "affordable" clothes fall apart, and yet others hit the larger stores and are sold for much heftier prices and then before long, the fabric creases and falls apart, the thread no longer made for keeping seams together.

And the consumer buys all of these production at "bargain prices" and then re-buys them perhaps in different format at more "discount and bargain prices" until all the junk is ribboned of and the exchange rate you, the consumer pays whether in clothing items, or furniture, or other items is taxed, and remember, ye Ones also pay for the duty-free shipping from other lands, nations, and continents.

So with your short work-wage ye Ones who also believe that earning a nominal wage of fifteen dollars per hour within the next few years shall afford the each of ye a better existence, we tell you that even twenty-dollars per hour twenty years ago left the average high-end worker in misery and then the cost of existence and inflation was much lower.

We believe we have made our point. And the circle of ill-sought economics is one which need not be examined too long and hard to understand the higher the wage ye Ones make the greater you are been used and fleeced and do not even realise it.

For as long as you Ones intend upon in some wise upholding the money-market you will always find yourselves in a money-market scam because the profiteers shall never let you go as far as you think you can.

Tipping the scales will never prove to be enough if ye Ones intent is to do more than just survive.

- Uthrania Seila Sentana-Ries Cortez, a representative of the Federation of Unified and Freed Planetary World NATION

336. The Great Circle Of Consumer Goods – Out Of A Deadly Game (Part 6)

10.24.2016

Dear Ones, Good Morning, Good Evening, Good Afternoon and Good Night.

Well, here we are at the final solution because with every negative there lies also a positive and without the solution there can be no hope for a better future for the Humanities, the animals, fowls, and every living and sentient being of diversified existence upon this world.

But how can you get out from under all of this which we call the negative? Is this a quandary so enormous it cannot be done? Well, let us wait and see, shall we, for the day has not yet ended and the one not yet begun.

Let us continue.

The contemporary mission of any Hellion race from behind a curtain of diverse interests is one of control and positive election. Such elections of persons are "positive elections" because under the capitalist system of present-day economics

the once-powerful controllers have always been "positive" that the election will come out exactly as they have designed it to.

And the manifestation of all this is merely and simply to preserve the monetary system and its status quo of its governors, the pinchet-men and women and the round-a-bout surveillance upon the customers of their products to the good and equitable bearing of their own home-grown pocketbooks.

Are you confused?

Then let us straighten this out.

THE CONSUMER IS HELD IN BRACKETS

Ye, ones are all programmed save that of a few. You are programmed in which way to elect a new prime minister, a new president, a new queen, and so on. You are the electoral body of the once-powerful surveillers and controllers. We congratulate you. You are in their vest pocket.

However, those who are overwhelmingly decided upon by such large mass of PEOPLE of they ones do the controllers set out to immediately discourage with a visit to one or more of their stadium "camps" where immediate rationing with under their own criteria is taken

and failing that the immediate terror tactics upon their soul to make them change their mind toward the good and prosperity of the PEOPLES they swore to salute becomes their soul epitaph

in many cases but not all.

In many instances at a swearing in ceremony, the new leaders are sworn into office upon a "holy book" which has been altered and rewritten by the hand of the lower man long yet not so long ago for the "holy text" is updated along with the "new history books" in order to comply with the dictates of the day by the once-powerful controllers.

These "holy books" are written by ones whom in their pursuit for "holiness" and "money" writes whatever he is fashioned upon and so when a leader swears upon the book into his or her office position then it is easy to break his or her word for it is called the "book of the Kol Nidre" which simply means: "a licence to lie and deceive."

We will try and keep this simple.

THE SHIFT NATION TO NATION

Now a shift is being gauged and a shift is being taken and this is the positive outlay away from the 2 points calculation of going past the first icon toward including the second.

Very good.

One stepping stone onto the other and building the bridge inbetween.

THE CONSUMER DOES "NOT NEED" GROCERY STORES OR SUCH OUTLETS

When Vegan produce and products are the only foods upon the market and there is such an array of them, the slaughter houses come down and out of business.

When furs and leather are no longer worn, for fabrics existing today in good quality cannot be differentiated from the actual fur and leather product once worn by those who had no interest in the preservation of life of other sentient beings then the trapping and skinning of defenseless animals including hair-plucked rabbits for their cashmere hair sold so plentifully in Great Britain, and so on are all out of business.

Each one of us throughout our diverse lifestreams have been responsible for such horror and tragedies upon other sentient beings, but the moment of intellect and rationing, appears, each one of us is then "responsible" for our actions and not before.

Animals are skinned alive in most cases just so ye Ones of the ill-mannered pocketbook may wear their very skins upon your bodies and flaunt yourselves as to the horror you have engaged yourselves in.

But now is a new day and many more of you know you have been deluded and because of the information no longer kept secluded from ye Ones in such a completely-controlled way,

ye Ones' responsibility is to not only NOT eat the meat,

to NOT wear the fur and leather of sentient beings

of which some skins are manufactured from PEOPLES with leprosy and other such diseases

for a manufacturing wall is their demise as well,

and of that can the difference with stain and colour not be known nor can it be detected by the consumer

so watch what you wear around your neck, color-bone, and ethnic colouring of perhaps leather shoes made from the "finest skin or leather of a…"
and all this is being hidden from you, the PEOPLES.

You need not ask of the store owner for they have little idea what is stacked upon their shelves and the manufacturing outlets would never tell if they knew for blackwater might be their next meal.

But what has this to do with grocery stores and you, the PEOPLES, LACK OF NEED OF THEM?

Everything.

We shall continue.

GROCERY STORES NEED TO BECOME OBSOLETE

When the consumer takes over their own produce which the contractors and government agencies have been told to control by the banks and their many strange outlets,

and you, the consumer section off that produce, for instance, and taking the Philippines and its many Islands as an example,

One Island grows cabbage, another grows, lettuce, another grows tomatoes, another grows, calamansi, another grows radish, another grows beets, another grows spinach and so on leaving the flatlands for the growing of rice and soy products.

Those who are unable or have too little flatland simply have no worries for the multitude of Islands and lands of other ASEAN NATIONS within the CENTRAL ASEAN NATION may see to themselves to grow such products and other vegan foods and in doing so are able to feed the entire CENTRAL ASEAN POPULATION, assisting one another and trading the food products in the way as outlined in the blueprint.

Is this going back to the days where there was simple trading on the docks, so to speak? The devolvement of fine restaurants?

Of course not.

No.

Not in the least.

This is going forward long past where ye Ones have decidedly gauged yourselves with technology, slavery and all formats of negativity upon the entire whole of creation;

for when you, the PEOPLES, in your high offices and positions think you are a truely educated and intellectual mass above everyone else and yet still find yourselves locked-into the slavery of the corporate powers who decide your fate and how and when you may be hired for a job and how long that job will last before you, also, are thrown out into the street with no safety net like so much chattel and garbage unless you teli-sink to their own level

and ye Ones decidedly do nothing about it then ye Ones have already sunk your own boats

for the next life shall see you out of paradise which you refused in this present lifestream to build.

NETTING YOUR WORTH IS NOT IN THE MARKET SCHEME LAID UPON YOU

Netting your full worth in your talents, dear ones, is not monetarily; it is what you, each one, will choose to provide to the whole through standing against all which is anti-universal principle and law.

Yet, one stepping stone to another will get you there.

We shall continue with the details now that our foundation is again built upon.

No NATION need be left out of the end product, yet that all depends upon what ye Ones design to build.

Shall it be the Original System of Talents and Purchase Orders of the Economic and Societal structure of Paradise

or shall it be the same old Hellion structures with just a few changes reverting back in the hour to the same old problems ye Ones always had before?

It is your call.

You decide, PEOPLES, for it is you, each and every one whom will be serving your next life sentence in HELL, so to speak,

Should you choose

Unwisely.

337. The Great Circle Of Consumer Goods – Out Of A Deadly Game (Part 7)

10.24.2016

The Great Circle Of Consumer Goods – Out Of A Deadly Game (Part 7)

PEOPLES, the bankers, the corporate powers, the stock-market middlemen on the oil and gas market, the surveyors and surveillors have got you right where they want you;

The meat and dairy and egg and entire food industry run by the controllers of high esteem unto themselves, they have got you right where they want you;

Those once-strong powers who sit over the corporate industries such as the mercantiles, the warehouse industries of every name, sort and fashion, have got you right where they want you

They mock you with their costs of items and their subjugation of all your daily needs and wants.

Now, is the hour of the impeding event by which ye Ones are the surveyors of your own souls or you are not. You can be part of the cesspool the controllers have long placed each one of ye in

Or you can come out

In droves or in multitudes'

Let us proceed.

THE ISLAND STOCK-MARKETS – A NEW KIND

At the beginning of every new paradisaical society, all is put into place in one short format.

It does not take years, long and tedious months for only a few buildings to be built, nor decades nor centuries for the Original System of Talent and Purchase Orders with all their industries and corporations running automation while the meat and dairy and egg industry become obsolete in favour of vegan food which is animal and

fish free including the eradication of the consumption of bugs, diverse type of worms and other sentient beings souled.

Animal torture-free cosmetics, ladies; as well as for all of HUmanity, the greatest weight-loss program you do not need to pay for, for within your food outlay you have gained that as well.

Animal torture-free lifestyle is something your present-day health system conglomerates and high-equity earners may well not like,

for your illnesses are what they profit from in both their medical establishment fed with deadly serums in flu vaccines and many of your medicines.

HEMP – PROHIBITIVE?

You Ones wish to save your jungles and trees of the hinterlands and other places? Then why is the growing of hemp prohibitive?

It is simply because the lumber industry and high-grading of quality trees and expensive construction outlets would go broke.

These businesses are also killing the animals off and your oxygen off and your entire planet with you, the PEOPLES and ANIMALS and other sentient beings, ON IT.

Every extreme is upon this world.

PARTICIPATION EQUALS PRECIPITATION

Take a portion of your lands, dear Ones, of other NATIONS, and section off large quantities to irrigate and grow foods

and in lands where irrigation is difficult the waters shall come through cloud seeding and new rivers SHALL form which the Federation of Unified and Freed Planetary Worlds has always used when rain was needed

therein could the rains always be controlled for there was a firmament over the lands.

Of the places where over the seasons the foliage has died or been destroyed of the majority of its DNA Helix strands of six or more turning the green land into sand

Glass can be made.

Oil is not needed for revenue.

Under the first system which ever existed upon this world we starmapped as Angorius

and before the invasion and occupation of the Hellion troops from the anti-paradisaical lands, our peoples, which are you of the HUmanity today never knew what anti-paradisaical was nor knew any other system but ours, diversified, from many lands beyond this one.

If you keep the monetary system in any of its formats as the world you wish to rebuild and reincarnate into upon your next lifestream

then ye Ones shall have already be seen to undo that which you wish to last
and have changed nothing but hands until the next one comes up with a coup against you all.

You see, ye all have the Hellion DNA within you and that must be removed and there is a method for that removal which ye ones know little to nothing about yet have understood with your minds just a possibility in genetics which might help.

We are the Federation of Unified and Freed Planetary World NATIONS and we do not work on scryring nor any other such formats for those are for the uninitiated ones and we do not like being spied upon.

STOCK YOUR LANDS, YOUR ISLANDS, WITH PRODUCE

for food, medicine, clothing, housing, transportation, and turn the high-rise towers and building conglomerates into places of your own control

and bring the PEOPLES OF YOUR NATIONS into the right of ownership whereby the homeless become a word and horror of the past and so on.

Remember beloved Ones that the Original Talent and Purchase Order System of Paradisaical Economics does not need grocery outlets of any kind and of that it is explained within two blueprints and perhaps those of others.

You are all waiting for the "New World Order" which captivates our minds into overdrive because, dear Ones, ye all have been living under the "New World Order" since the very first invasion of this world which we have long yet not so long ago starmapped as being Angorius.

We have concluded our portion for this day and we trust that the each of ye shall come to finally understand that

You do not need to give up high technology

To live in a world which ye Ones caretake

For the laughter in your halls and office places

And your other work places of high finance

Make the lot of you sound most foolish to us

Because the technology you are using today

Every day, every moment, every week and every month of every year and decade

All

Came from us.

And it is very archaic.

We are the Federation of Unified and Freed Planetary World NATION and I am

338. Meeting of His Excellency President Xi Jinping and His Excellency Donald Trump At The Hour Of The G20 November 2018 Summit

Meeting of His Excellency President Xi Jinping and His Excellency Donald Trump At The Hour Of The G20 November 2018 Summit - Tariff Trade War

Good Morning Your Excellencies President Xi Jinping and President Donald Trump, Sirs.

We have been asked to participate in these backroom discussions of yours at the G20 Summit of one of the greatest and most useless talk-shops on earth, taking the monies from the Peoples to pay for it.

There will always be the grumblers but those are the ones with no solution, so we trust U.S. Vice President Mike Pence is nowhere around this day in these backroom politics.

https://www.philstar.com/happens/274?fbclid=IwAR2Tefs_2c8GwvIa5w221U2Bd5HUevvoVPUcATkIy7wNokPPd-CCO_tfixg

Now let us put this in perspective before we actually begin.

https://www.philstar.com/world/2018/07/12/1832748/china-vows-retaliation-200-billion-us-tariff-threat

The very act of Tariffs and its wars are elementary in trade and do little for the good of the Peoples of the land. It is an elementary state of conducting business because most of what is imported or exported nation to nation can be built within the home nations of China and that of the United States.

So with that said, now let us proceed.

Why were sanctions placed upon China for buying planes from Russia? Could it be that in buying planes from the U.S. and that in event of a war, the American planes would self detonate, or be detonated from satellite by the Americans?

His Excellency, President Xi Jinping accumulated European nations toward the Silk Road and the European Union fought this by telling the European nations that any nations who joined the Silk Road and leaving the European Union would be given a price they could not afford to pay back to the inceptuous heads of the European Union monetary fund.

When that did not work, the European Union threw open the doors of immigration rather than giving the immigrants access to the resources necessary in rebuilding their countries using the Blueprints and Silk Road, and this in order to destroy the civilization of the European nations from ever joining **the Silk Road** following setting up first their own **EUROPEAN CENTRAL NATION**.

Now the Americans and Australians are expanding another base of aggravation in Papua New Guinea, which reminds me of what happened in Kuwait with the sheep farmers of Kuwait, and the taking of their grazing land by the Australians **on the pretext** of doing business with them and protecting them.

What the Australians did was to take the grazing land for their military, then ship hay over from Australia and charge the Kuwaiti farmers for the hay and transportation costs since the Kuwaiti's "free" grazing land had been stolen from them,

and the prices went up for the Kuwaiti peoples as they found they had been lied to and deceived and their land invaded

and they turned their faces away from Australia

and that is why the Philippines should keep as far away from that imperialist state or nation right now, as possible in contracting with the Australian government and its businesses.

Note: Picture of Iraqi soldier and jeep burned and the burning of California by satellite lazer. Over 2 million Iraqi murdered. 3 million Filipinos murdered by Americans.

https://www.youtube.com/watch?v=rEqaeNWkSDg&feature=youtu.be&fbclid=IwAR2E-6t-xoic5g7sh1T5IRbukmS2vp2vBwiLUgQ1Pr76rcWd1WbrXm2UjmU

This is why distrust of the Americans anywhere in the world is on a high level.

You will notice that the Russian President, Vladimir Putin, went to Israel when he needed to strike a solution simply because he decided to go to the source of the problem knowing Israel governs the United States of America, and knowing this,

it is of little surprise that lazer technology from the United States is murdering their own peoples in California. Why people in these fires disappear is obvious; they are fried and crumble into dust just like the Iraqi soldier in his jeep upon returning from Kuwait under a cease fire.

It is of much worth to bring the Satellite States into a CENTRAL RUSSIAN-SATELLITE STATE conglomeration rather than cutting oil and gas to a peoples who have no money to pay for it therein turning or even being invaded by the United States for a base there against Russia.

The military Generals switch back and forth from their position in the United States to Israel because there is no difference between the two.

Remember when Israeli Prime Minister Benjamin Netanyahoo travelled years ago to the United States and went unescorted directly into the Pentagon and out again **giving his instructions and orders?**

Now, President Xi Jinping, your Excellency, if China works with all Asean Nations on a "friendly" agreement in the EEZ for oil and gas exploration and drilling, that would curtail the transportation of oil and gas to the foreign freighters, airplane carriers, and overflight of the **CENTRAL ASEAN NATION** by the Americans, British, Canadians, and Australians unless you have an S 300 400 or 500 of which the Philippines should have instead of an airforce for with those one needs no airforce.

In this wise you take away the offending barriers which are the tariffs and you shake off the shackles put there by the Americans.

The United States has not being built on trust, liberty, freedom, but upon deceit, slavery, and indebtedness to the banker.

Your Excellency, President Donald Trump, Sir, you have been heard to complain about the number of U.S. dollars which the U.S. has lent to foreign nations but the question here is:

What is the cost of collateral damage in bombs and chemical weapons and running the drug cartel through other nations such as the Philippines to the United States of America, and what has been the cost of the damage done to certain nations through overturning their governments in favour of a proxy leader tied-in to the U.S. bank of currency?

Taking this into consideration, the tariff war with China is indicative of the proxy war with all national leaders on your side of the fence whom you have threatened into existence though the very use of the U.S. dollar as your war machine, starving the peoples out of their bank accounts and food.

The United States, Mr. President Donald Trump, is going to fall flat on its subjective face, for no empire has ever lived past its time.

We trust, gentlemen, that we have once again been of service.

Good Day, Good Evening, and Mr. Trump, Good Night.

339. Korea Summit

Good Morning, Your Excellencies, South Korean President Moon Jae-in and North Korean Leader Kim Jong Un.

Gentlemen, we are honoured to have been asked to this Summit of the Minds.

https://www.philstar.com/happens/354

Allow China the good grace to come nearer to your shoreline in order to relinquish the Americans and their allies from the waters of their contention.

The white fossils are standing in the way of your complete success, Your Excellencies, and as with any obstruction it is pure wisdom in **"protecting" one another and one another's nations.**

Likened to the Philippines who has few military, few naval vessels and few planes, the two best protective strategies would be:

1) to cooperate with China in the exploration and drilling for oil and gas off your coastlines, sharing the proceeds with one another and shipping the oil and gas freely between both countries, giving way to good policies such as not charging the Peoples of either South and North Korea for their fuel.

Therein you "retain" your monies and cancelling your tariffs which neither country can practically afford until the transition over to the ***Original Economic Talent and Purchase Order system is completed.***

2) the second policy or security would be for South Korea to obtain the S 300, S 400, or even the S 500 in order to prevent all foreign activity coming from airplane launchers overflight over South Korea, North Korea (whom at this hour may not be able to acquire such hardware and mechanisms), and indeed over Japan.

The outstretched arm toward that part of the body, being Japan, would be indeed a revolutionary act of charitable kindness from North Korea in working hand in hand with South Korea.

Relinquishing weapons of DETERRENT would not only be foolish and not prudent, but foolhardy to the Zenith, for each and every nation which disarmed was invaded and attacked until not only were ashes their legacy, but the Peoples very DNA were destroyed by the United States and its allies.

Some state that China is invading their waterspace, but stop and think for a moment what China offers to the unarmed nations such as the Philippines, and sanctioned nations such as North Korea.

China is not an invading nation.

Is that not worth something? **China is NOT going after the sovereignty of other nations,** but bringing about Peace, and not the type of peace the Americans and their allies, the British, the Canadians, the Australians, offer, for the peace they offer is piece by piece of other nations as they take and colonize.

Working toward the Silk Road, China charges nothing for protecting its brothers and sisters of the CENTRAL ASEAN NATION and that is one of the advantages which makes the SILK ROAD so special.

Instead of foreign invasion, whose vaste yet not so vaste armies will try to overtake and colonize each ASEAN Nation to their fullest, **CHINA shall offer "protection,"**

and the first lap toward this unity shall be the railroad between South and North Korea, also linking Korean families together,

and later the SILK ROAD shall be the waterway to all which is good and prosperous for the Peoples of each ASEAN LAND one day stretching much further.

So, with China, join hands, join the feet, join the toes, join the arms and legs together with the torso and make **"head"** way as you North and South Korea have now done so well and so distinctly.

Do not allow the Americans this time to overfly and tear you apart as they did do the last time.

Be kind to the dog non-human Sentient Beings for that would please us immensely.

We trust we have been of service to you and remember:

Labels of political or religious means do not always credit the Peoples of all lands but merely work on division.

Unity is the ONLY FACTOR within the CENTRAL ASEAN NATION which will ALWAYS WORK.

Good Morning once again, gentlemen, and we wish for you and your collective nations a good and profitable event.

340. Constitutional Blueprint Of These Islands Of These Philippines - Building A Foundation

Good Morning, Congressmen and Senators of these Great Islands Of These Beautiful Philippines!

We greet you upon this day.

Constitutional Blueprint Of The Philippines - In Building A Foundation

Building a "foundation" of a nation cannot be encrypted into the old unworkable constitution of a nation. The present constitution is filled with quicksand which quickly pulls down a nation into debt.

When one builds a house one does not do so upon a plywood or rotten wood foundation just because there is lack of monetary means.

One waits. One plans and One builds the house properly, contentiously, and with the correct tools.

When you speak of putting off building a foundation because the Senate has a deadline, what you are actually doing is **"initiating" a dead-line or death-line for the public.**

For the Filipino Peoples.

And you are "creating" in its place, in the place of a good foundation, a debt base which falls directly upon the shoulders of the Filipino Peoples and their children, grandchildren, and great grandchildren, should the nation under capitalism last that long.

A budget is just a stop-gap which means a corporate planning strategy to overtake a nation.

Let us stress again that FEDERALISM is not Americanism nor does it belong to any known constitution of any nation thus far upon this planet.

We wonder why Congress with Senatorial oversight must make the final decision when so many parliamentarians crave the power of the chair for themselves?

Of course the **"chamber has no time to tackle bills on federalism, saying they want to focus on the proposed 2019 national budget" (Philstar.com)** or stop-gap.

This is because the New Constitutional Blueprint of the Federation of Unified and Free Planetary World NATION on behalf of these Great Islands of these beautiful Philippine NATION

deals with debt through elimination of all taxes, tariffs, duty fees, house taxes, and so on whilst the National Budget of 2019 of these Philippines deals with debt in order to sink the nation of the Philippines even further into the quicksand.

"Panelo said shifting to a federal system of government remains a priority of the Duterte administration." (Philstar.com)

"'The disposition of the Senate with respect to this proposal should be understood along with its current and tight situation of addressing the 2019 budget with not too ample time to spare,' Panelo said in a statement." (Philstar.com)

"'We thus expect the Senate to support the President's desire for a federal form of government thereafter and see the wisdom of changing the system of government as part of society's transformation for the betterment of all the Filipinos,' he added." (Philstar.com)

Too many Congressmen and Congresswomen and Senators are afraid of losing their seats and big paychecks, but we tell you that what you lose for yourselves you gain for the Peoples you are supposed to be representing.

It means that those of you who have no criminal background of graft or pork-barreling shall simply be "rearranged" into Councils whereby your usefulness shall not be a dietary consumption for the Peoples of these Great Islands of these Philippines.

- Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

341. Constitutional Blueprint Of The PHILIPPINES: You Take It. You Do What You Want With It Knowing The Peoples HAVE NOT THE MONEY!

To The Senate And the House of Representatives and Congress:

(Make sure ye Ones read EVERY WORD IN THE LINKS, GOOD PEOPLES OF THESE GREAT ISLANDS OF THESE PHILIPPINES!)

Good Morning, ye All.
Charter Change (Cha Cha) will handle EVERY BILL YOU HAVE IN THE HOUSE. It will handle poverty, criminal activity, and all the Peoples will ever need shall be "SIMULTANEOUSLY" built or manufactured WITHOUT GOING IN DEBT. It means, People will NOT need to leave the country for better wages!

For those in the Senate, the House of Representatives, and or Congress who understand this you need not read on for the following is not toward you.

With that said we shall continue.

The Constitutional Blueprint drawn up for the PEOPLES OF THESE ISLANDS OF THESE PHILIPPINES IS "NOT" FOR SALE AND NEITHER IS IT TO BE RE-ORCHESTRATED TO KEEP MONEY AND USURY IN PLACE.

The Constitutional Blueprint of the Philippines:

You take the New Constitutional Blueprint; You do what you want with it KNOWING the PEOPLES HAVE NOT THE MONIES TO FIGHT YOU OFF *THEIR* HOPE FOR THE PRESENT AND THE FUTURE!

YE ONE INSTEAD WOULD RATHER PROCRASTINATE THE PEOPLES OUT OF THEIR OWN BRIGHT FUTURE BY TALKING THE SUBJECT TO DEATH! Then comes the pork-barreling which is known by no other name than scamming the purse of the Peoples! Pork-barreling is not a "program" anywhere on this planet but is a stealthy-stealing of the Peoples' money!

https://www.philstar.com/headlines/2018/12/06/1874622/senators-federal-charter-wont-pass-muster

Why do you want a "budget" on the heads of the peoples and at THE EXPENSE OF THE PEOPLE, just to keep your chairs, your pork-barreling and your big paychecks!

https://newsinfo.inquirer.net/1060045/lacson-2-lawmakers-get-p1-5-billion-in-pork-each?fbclid=IwAR0xxep4MW1IdpfGdwCy1NRZMy5EAcYoUmOt_yatKqgYD2Thb3_P8VtaD8U

We mean: Who is going to miss a few billions pesos or a few hundred thousand pesos out of a trillion or so in the budget!

How many of you have "pet projects" with corporations whose alliance is toward the Central Bank?

After all these years what indeed has been changed for the GOOD OF THE PEOPLES?

We are NOT HERE TO MAKE AMENDMENTS TO THE 1987 Constitution of the Philippines! WE ARE HERE TO CHANGE THE OLD TO THE ORIGINAL OR NEW FOR THE PEOPLES TO BENEFIT FROM WITH ALL WHICH NEEDS DONE TO BE DONE

SIMULTANEOUSLY!

How many of you will put your monies toward "ferry boats" to the islands for the purpose of rehab stations of beauty, or agriculture?

HOW MANY WOULD BUILD THOSE BRIDGES "WITHOUT" TOURISM AND KICKBACKS FROM TOURISM BEING YOUR MAIN OBJECTIVE?!

You are correct when you say it will change everything for all of you for you will not elevate yourselves to the point any longer where

THE PEOPLES WILL BE LEFT OUT WHILE YOUR "PET PROJECTS" GAIN YOU MORE MONEY INSIDE Y OUR OWN COFFERS UP AND PAST ELECTION TIME WHERE ONE OR MORE OF YOU WILL BE THEN OFFERED A KICK AT THE

"CHAIR" LEAVING EVERYONE ELSE SUSPENDED FROM YOUR TEN FINGERS AND TOES BREAKING UP THE BODY OF THE NATION INTO EVEN MORE SCATTERED PIECES !

SO THE PEOPLES CONTINUE TO CRAWL ON ALL FOURS FOR THEIR ALLOTMENT OF RICE AT HOLIDAY TIME WHILST YOUR OWN TABLES, "SAVE THAT OF A FEW"

OVERFLOW WITH ALL THE GOODIES OF YOUR NEVERENDING PERKS AND OF THAT THOSE OF YOU WHO REALLY DO REPRESENT THE PEOPLE,

YE ONES SHALL ONE DAY SIT IN HIGH COUNCIL WHILST YOUR PEERS WILL BE SITTING IN THE DUNGEONS OF THE PEOPLES FOR ALL THEIR BETRAYALS

OF THE PEOPLES LAND AND MONIES AND FUTURE!

AND OF THE FUTURE OF THEIR CHILDREN WHO NO LONGER WISH TO BE ENSLAVED BY THE MONETARY CAPITALIST SYSTEM EITHER!

Can you people never not think in a selfish manner?!

-Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

342. Wise Words To The Peoples Of The Islands Of These Beautiful Philippines!

PEOPLES, it is NOT the amount of money which should determine a man or a woman's platform, but whether or not they have a CONSTITUTION WHICH WORKS IN ALL OF ITS DETAIL. Of this, have ye Ones been given through that of our pen.

- Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

Quotation:

A nation can survive its fools, and even the ambitious.

But it cannot survive treason from within.

An enemy at the gates is less formidable, for he is known and carries his banner openly.

But the traitor moves among those within the gate freely,

his sly whispers rustling through all the alleys,

heard in the very halls of government itself.

For the traitor appears not a traitor;

he speaks in accents familiar to his victims,

and he wears their face and their arguments,

he appeals to the baseness that lies deep in the hearts of all men.

He rots the soul of a nation,

he works secretly and unknown in the night to undermine the pillars of the city,

he infects the body politic so that it can no longer resist.

A murderer is less to fear.

The traitor is the plague."

344. The Constitutional Blueprint For The Philippines Will NOT BE STOPPED By Thieves And Power Brokers

ATTN: CARMEN N. PREDOSA,

Re: CONGRESS IS BLOCKING CHARTER CHANGE

Good Morning good soul.

You are correct on many points, the important points. One of the best links we have ever read.

https://www.philstar.com/opinion/2018/12/09/1875391/congress-blocking-charter-change

Congress and the Senate will become disbanded and *dismembered, if necessary, preventing them from regrouping together in order with foreign payoffs and continuing with their plundering of the public purse.

***We speak hypothetically but correctly.**

The reason why the Philippines never seems to get built up except in high rise towers and the like, is because when the monies gets divided among the Senate, in particular, they only invest in "projects" in which "kickbacks" and "pork-barreling" can occur.

What is needed is the navy, coast guard, and the islands in irradiating poverty, and crime, as well yet who will "invest" in such "projects" UNLESS it is tourism which brings more money, more perks, more kickbacks to the ones who invest whilst the majority of the Peoples still live within poverty levels, many turning to drugs for their income.

Bringing about a "few" jobs through tourism is not the answer, but the answer have we provided, and that answer and solution is FOR ALL.

How many Senators and Congressmen and women care for scraggly, downtrodden, and poverty-stricken Filipinos?

Can you count them?

One law for them; one law for the rich.

(quote)

"We will never amend the Constitution using the same institutions we have now. It is evident that we need a revolutionary government or strong rule (whatever it may be called) that will bypass the institutions that have blocked Charter change and Congress is one of them." (end quote) (Philstar.com)

It is excellent to read such words of understanding from more than one source, and "remember," that what is also imperative is to understand that moral and ethical "COUNCILS" must be set up and of these must both moral and ethical men, women, and perhaps children of great wisdom must occupy such seats.

However, those within the present Congress and Senate who resist our Constitutional Blueprint for the Philippines and the Peoples of the Philippines, must have a reason for doing so and that reason is their position of power and money.

This Constitutional Blueprint REPLACEMENT as you have so correctly spoken in your writing here, is the ONLY WAY TO ENSURE ALL GRAPH, PLUNDER, AND THIEVERY WILL STOP PERMANENTLY WITH NO RECOURSE BACK TO WHAT THE SENATE AND CONGRESS AND CERTAIN ONES OF THE JUDICIAL SYSTEM ARE DOING AT THIS MOMENT, THIS HOUR, AND THIS SECOND.

When I returned to Canada there were 47% Filipinos in favour of our Constitutional Blueprint. That was two years past and I noticed at that time when I read the paper I brought with me that there was a question pertaining to concern over the warlords having too much power. So I explained how that could not be the case with our Constitutional Blueprint which is for the Peoples of the Philippines.

It seemed two men, I believe Senators, were pressing for the Blueprint traveling the islands, and if we are correct one is about to become arrested. We wonder if he is one of the men we owe our thanks to, yet wonder why he or they decided to water down our Blueprint to suit Congress and the Senate?

With warm and courteous regards

Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

345. Why do the courts of the land who notice who are poor, not notice who are wealthy at the expense of the poor?

The regimen of equations is the downfall of every tourniquet of monetary financial expansion.

When towers of banking Illuminati fall it is only in the equations of monetary finances which then place the peoples in a less dire economic situation.

Why do the courts of the land who notice who are poor, not notice who are wealthy at the expense of the poor?

What may seem tantamount to failure is success when one is acquitted.

Will the Peoples survive these onslaughts of debauchery if the navy is upheld as yet another project to be put off?

Why is a goat a ram when the sheep ate the stew?

Personality does not always get one elected if one has enough currency to "buy" their way into power.

Threats to a common crowd is like barter to a cow.

A thousand francs is enough to buy a biscuit; for a hens worth a rooster is rare.

Currency dried up is as a tourniquet untied.

Your Excellency, Xi Jinping, Sir:

We have not ignored your latest "concern" with the financial situation of China. We would say to you at this point to "remember" the "event" in these words:

Currency dried up is as a tourniquet untied,

We remembered your promise in health care to the Philippines. in keeping the health professionals at home who would otherwise be forced to leave for better and higher wages.

   This would not be necessary if the [New Constitutional Blueprint](#) were in place, for money is the cause of all trouble and trauma. It would be a wise move , therefore, to relocate throughout the holiday season, the beggars into a more comfortable situation. Approach the Catholic Church who boasts of the Philippines as being a "Christian Nation" and let them feed the hungry, feed the poor, and shelter them giving them comfort.

   Should that be done by other than poverty-stricken nuns whilst the Church frocks and defrocks itself, that would be a Christmas miracle in itself.

   When we asked the Church to help us to feed and educate the poor the door was slammed in our face.

   Gentlemen, you are correct in dropping the buying of U.S. and Canadian helicopters as they are two nations of whose words you cannot trust, nor can you trust what you get "in" the helicopters.

   Can China give a better deal than Turkey or can another nation immediate the process with the same cost?

   The Philippines "has many islands." Try to forge a deal.

President Duterte, whilst two more coast guard ships and crew have been collectively added, to whom are they to report to should uncomely activity be found upon the islands? We need to build the navy also with NAVAL VESSELS and crews, "Sir."

Why cannot contracts for military hardware not be kept within the CENTRAL ASEAN NATION TO STRENGTHEN EACH ASEAN NATION?

With one nation helping another within the CENTRAL ASEAN NATION "OUTSIDE" OF THE CAPITALIST SYSTEM, the delivery on tariffs and duty would not exist and comrades would melt the storm of woes within the straits.

Ships to fight smuggling of drugs, for example, shall work well because drugs are moved by land unless the CIA fly them inhouse for their own cause.

Because we know that the CIA does not like interference in its "transports," the Coast Guard of now four ships NEED to call upon the Philippine NAVAL "SHIPS," and "New Gunners helicopters," when they arrive, along with with Chinese backup.

"Your Excellency," President Duterte, "Sir," in the drug war let us assure that the Filipinos, at the behest and threats of the CIA, upon apprehending, be moved to one or two of the islands and build their own lodgings in a cultural manner as we first bespoke of ourselves and not take the rap for those behind the scenes who use them, knowing their poverty, as pawns, in their greed and sadism.

Mr. President, this is a compassionate and sensible law under Universal Principle. We are looking forward to the day, hour, and minute when all guns fall silent and the inner and outer wars are left of themselves adrift for many lives will then be saved as a bonus to the nation, to the Peoples, and to the many mothers and fathers and their kin.

Children are an enormous sacrifice. Let the islands be made safe in a reasonable way. Smiles. Thank you.

348. To The Brotherly And Sisterly ASEAN NATION Of CHINA

1. https://www.philstar.com/happens/257

Good Day. You know how we feel about banks but we shall deal with the issues at hand.

Chinese telecommunication Executive Meng Wanzou has been granted bail and as we understand, the bail was placed by the Canadian court at eleven million dollars.

Canada is being used by the United States as its proxy whilst Chinese Top Executive Meng Wanzou is being used as a pawn or a strategic game card in the dirty game played by the Pentagon who is itching to set off a hot war with China.

Neither Canada nor the United States have the legal right to arrest and hold Top Executive Meng Wanzou because there are no sanctions passed on Iran which cleared the U.N. Security Council.

So what "law" did she break?

NONE.

The return of the bells to the Philippines was a strategy to bring the Philippine gas and oil fields under U.S. wings.

The return of the bells was to touch the soul of the nation which it did and "THANK YOU" to President Duterte, the Peoples have back that which was so unkindly stolen from them,

for even though the Americans fought with the Philippines against Japan at that time, the Americans still took the bells as war booty and all these years kept the bells,

even placing one of the bells in their military base in South Korea in order to cause friction between South Korea and the Philippines.

Did an apology come with the bells? ***Or did we miss it?***

2. https://www.philstar.com/headlines/2018/12/11/1876154/chinese-military-official-suggests-attack-vs-us-ships-south-china-sea

Long yet not so long ago in the days of the good and kind king, Faisal ibn Abdulaziz ibn Abdul Rahman, the United States set up Iraq as a pawn in their neverending game of war.

The United States clothed some of its paid-off peoples to dress as Iraqis and come toward the borders of Saudi Arabia in order to get a war going.

The good and wise king, Faisal ibn Abdulaziz ibn Abdul Raham was sitting on the ground having a meal with his peoples, the common, the middle class and poor people, and was irritated at being disturbed from his meal with them.

He was a very beloved king, for his peoples came first with him and no neighbour had he dispute with, nor with any nation; and so he sat on the ground, not one head higher than the poorest man around.

The man who disturbed the king was seemingly frantic and yelled:

THE IRAQI ARE COMING TO INVADE OUR HOMELAND (Saudi Arabia)

But the good king was wise and he simply asked the man:

"Are these Iraqi on the border of our country?"

To which the man replied:

"No Sire but we had better get ready!"

The wise king looked the spy in the face, and said:

"Go from me! When the Iraqis are at the border where I can see them, then you may come back and disturb me and the men here who are my brothers!"

349. Extension Of Martial Law In Mindanao

Good Morning President Duterte and Congressional Men and Women:

https://www.philstar.com/happens/526

When we look into the eyes of the Peoples we see the entire soul of the NATION.

We have listened to one side, listened to the other side, and the conclusion we have struck is what we see of the Peoples in the middle;

the Peoples with heads bowed, with sad faces

when in fact, these ARE MINDANAO.

The guns put down signified Peace on both sides just a short while past.

But let us look at this not only objectively but critically and with the soul of the NATION in mind.

Make the Peoples a part of MINDANAO and not just a Peoples who live under martial law divided from those who would protect them.

Let them reside in their home MINDANAO instead of an armed military compound.

Instead of just combatants let the Peoples be the eyes and ears of their HOME, MINDANAO.

Let the Peoples work as ONE with the military, as friends, and helpmeets.

Please refer to Number 3:

https://www.facebook.com/notes/uthrania-seila-sentana-ries/to-the-good-peoples-of-these-sovereign-islands-of-these-philippines/213312109563151/

3) The military forces are doing an excellent job of securing the islands, for peace will come to all who work within the Constitutional Blueprint of the Philippines when the guns are laid down and understanding takes place.

https://www.philstar.com/headlines/2018/12/12/1876457/afp-unable-verify-supposed-economic-gains-mindanao-martial-law

You are all to be commended.

It is "important" that each autonomous region (Village, Town and City Districts), teach their own Peoples "defence" of the nation without making them serve "time" in the military. Many young men and women are not suited for military training.

Remember, that the Swiss have already established a most "workable" defence system. When one has twenty-million Peoples raising up all at one hour there will be "no room" for those whose criminal activities or forced labour for the peoples, will remain.

No more young men losing their sight over bombs, which distinctly, with so many Peoples "protecting" their own nation and "Constitutional Blueprint of the Philippines," shall be found before they are laid.

350. Philippines Adopts UN Global Compact For Migration???

https://www.philstar.com/headlines/2018/12/12/1876352/philippines-adopts-un-global-compact-migration#ZsCWdpcPqSjffoKc.99

"The Philippines supported the first migration deal, given the needs of the estimated 10 million Filipinos residing or working in almost all countries of the world."

Good Morning. Let us get right down to brass tacks shall we.

Though ye Ones might think this is a good idea at the outset, you are falling directly into the trap of the Oligarchy and their global agenda.

In the first place, when the New Constitutional Blueprint is firmly in place there will be no need for any Filipinos to emigrate abroad unless they have good reason apart from finances to do so,

for monetary exclusion SHALL BE a benefit for all.

The European Union was told by ourselves that the SOLUTION for migrants was to allow them to return to their own nations

and with the help of construction materials, and if needed, engineers of various disciplines and health workers,

to rebuild their own nations UTILIZING THE BLUEPRINT for themselves.

THIS THE EU "REFUSED" TO EVEN ACKNOWLEDGE for this goes against the grain of the New World Order

YET, the New World Order of the Oligarchs has been in place for thousands of years.

We have four of the ORIGINAL BLUEPRINTS which have been utilized upon other worlds very successfully,

blueprints which ourselves as well as a few others,

have presented and THESE are which have been long awaited for.

Africa already has its own yet they must streamline it to eliminate the monetary system and all of its branches, thereof.

After all were it not for money, Africa would not be in such destitution and shambles,

for did not the United States, Great Britain and France became wealthy from their plundering of that continuance and wish to do the same to the Philippines?

Whereever oil and gas is found, there will the Americans and their allies be sitting like attack hawks just waiting for the kill.

Let us tell you what the U.N. and its Oligarchs have planned for the Philippines.

They intend upon creating such a humanitarian crisis as to "fill the islands" to overflowing with migrants taking the war on drugs in assisting the American CIA to a new height.

Therein, the Philippine islands must be protected by the Philippine, Chinese, Korean, Japanese and so on, navies and coast guards.

This is "NOT" like the Christmas Island of Australia which the globalists intend upon using as a prerequisite for overfilling the Philippine Islands,

because that was one little shipload of people.

What the U.N. Oligarchy has planned for the utter destruction of these Philippine islands is DESTRUCTION THOUGH OVER-POPULATION,

which will result in one faction fighting the other factions into even greater fragmentation.

Think Peoples, before you jump into any agreement with the nefarious U.N.

Peoples, the UNIFIED NATIONS WITH THE CENTRAL NATIONS ARE "NOT" THE UNITED NATIONS RUN BY THE GLOBALIST FACTIONS!

351. The Kidnapping Of The Chinese Visitor To Canada - Meng Wanzhou

The Canadian and United States government KIDNAPPED AND NOW HOLDS FOR RANSOM, Meng Wanzhou, the Chinese "visitor to Canada" and Most Powerful Woman in China's Top Industry, the Telecom Giant HUAWEI .

This kidnapping was organized and preplanned to start a war with China, and was known with knowledge withheld by the puppet government of Canada who does exactly what it is told by the Imperialist and hegemonic United States, Great Britain and Israel.

This is the second incident against the Chinese on Canadian soil. The first incident was long yet no so long ago when one hundred Chinese investors gained entry into Vancouver, Canada, through visas issued by Canadian immigration, and when told they could not invest in Canadian property the visas were immediately withdrawn and the Chinese Businessmen and women were sent home.

The Chinese helped build Canada, and even at that time the hard working Chinese had most of their wages stolen from them as they attempted to send their wages to their families in China,

The Chinese families starved and suffered extreme agony and emotional trauma not knowing what happened to their husbands cousins, brothers, uncles, and sons, in not knowing if they were alive or physically deceased.

Even their letters did not make it to China, and so the men received no communications as their overlords would waft all their money into their own hidden stash.

Since then the Canadian Government has apologized but it is obvious that the apology carried nothing more than words without meaning.

The United States is looking for a hot war with China and to set the stage they must first antagonize their target in a round-a-bout way,

kidnapping and holding hostage Meng Wanzhou, the daughter of the Chinese technical giant's founder.

When all is heated up with China the U.S. and their imperialist allies attack the Chinese, Russians, and Iranians simultaneously at the designated "port of entry" to the gas and oil fields of Iran and the West Philippine - South China Sea therein splitting up Chinese troops.

Their game-plan is not who wins in technology

but to stop the Silk Road from becoming the greatest benefit to HUmankind that the world has ever know since the time and hour of the first seeding of this planet.

Our word to the U.S. and their allies would be one sentence of their own making: "Stupid is as stupid does," ladies and gentlemen of the western graffiti.

352. Do You Want Present Politicos To Stay Forever?

Good Afternoon MR. JARIUS BONDOC, SIR:

Your presentation is excellent in both its understanding and content. It is most helpful to us all. Thank you Jarius Bondoc, Sir.

https://www.philstar.com/opinion/2018/12/14/1876894/do-you-want-present-politicos-stay-forever

Let us tell you that no one is going to upstage our Constitutional Blueprint for the PEOPLES OF THE PHILIPPINES,

and those who think to derail others shall be themselves derailed.

The Congress and the Senate, the entire House, is going to be disbanded and Councils shall take their place.

We have gone through assassination attempts on our lives, especially mine own, and fought with poverty

and noone is going to take our blueprint for the PEOPLES of these beautiful Philippine Islands,

tear it apart and use it toward their own platform and selfish means as a way to further financial power.

The House with all its charlatans will come crashing down and the other end of the stick will be their lot unless they agree to councils and the blueprint the way it stands.

Yet not all shall qualify for a seat on the many hundreds of councils.

Shell Petroleum has no business in the Philippines after plundering Africa's resources.

It is the COUNCILS which will stay PERMANENTLY and is highly doubtful which House Members will be at that hour of transition over to the New Constitutional Blueprint for the Philippines and the future of the PEOPLES.

Should the New Constitutional Blueprint for the Philippines be at any hour not viewed in its context, then those Congressmen and Congresswomen and Senators shall be well removed from it altogether.

Those who work toward the happiness of others have much to look forward to in your future lives including this life.

Vice President Leni Robredo is a hard working and diligent woman and is not to be cast aside as some dirty old rag by the speaker of the House, Gloria Macapagal Arroyo.

We may not always agree with the Vice President but her heart for the good of the Peoples shall one day see her upon a seat of one of the councils.

There shall be no president after President Duterte and neither will there be a Vice President nor any other figure.

There will, however, in Manila, be a highly evolved telepathic Council of Twenty-Four.

On the councils there are many chairs which will also cause the councilmen and councilwomen, not forsaking the child or children of superior intelligence, from stepping upon one another.

The councils work with ONE MIND AND ONE GOAL and that goal shall always be for the GOOD OF THE PEOPLES OF THESE PHILIPPINES.

Councils with six male and six female all working in agreement and unison will see the individual councils to accomplish more in a day SIMULTANEOUSLY than the entire House of Representatives accomplish in a fiscal year with their neverending budgeting or stop-gaps.

With the councils there shall be no opportunity for economic crimes and neither will courts and the entire judicial system any longer hold council for years on end whilst the untamed rot in prisons on the mainland.

We need to incorporate the building of laboratories and scientists in with the small businesses which is now taking place as scientists of Filipino talent are being called back to the Philippines,

and Health Practitioners are at this moment offered better jobs and pay (during this transition) in order that they are not forced to go abroad in search of better employment.

This is for the betterment and good of the PEOPLES OF THESE PHILIPPINE ISLANDS.

All goods and services must be accessible to the Peoples

and to keep all western corporate powers at bay with their pharmaceutical drugs.
No BUDGET should exist,

for within the tenure of each budget the building of necessary housing, hospitals, laboratories, and the like cannot be built simultaneously and so the Peoples welfare is held at a budget stop-gap,

and the PEOPLES SUFFER.

Look at all the paper on the desks of the House of Representatives, hordes of paper; trees cremated in their own juices, laid flat out until the forests are no more.

With the Constitutional Blueprint of the Philippines,

for the PEOPLES, WHO MUST COME FIRST,

none of these travesties will exist

and the computers will hold what data need to be easily addressed in small groups of councils in bringing their combined SOLUTIONS to the Central Council in Manila of *twenty-four.*

353. Constitutional Blueprint For The Philippines - Federalism - Cha Cha For Whom?! Out With The Old -In With The NEW!

Good Afternoon, Presidential Spokesman and Your Excellency, President Duterte, Sirs:

https://www.philstar.com/headlines/2018/12/14/1877025/palace-congress-cha-cha-listen-puno-be-open-amendments?fbclid=IwAR2RS-3nXyf-PEBsv1tdJ7u-r8nRwkxMgG0toGYerXdgraOEV4Kuj6TFsP8

It is the wisest move to not consider those who consider not the needs of the PEOPLES

and for those Senators who have no time for Federalism and the solid transition thereof,

let them also be well and goodly left out of the entire process.

Whilst they are pork-barreling the 2019 budget, or stop-gap let us press on in our solutions for the "betterment of the PEOPLES."

No draft for transition will work UNLESS the monetary system is dropped.

Your Excellency, President Duterte, we have a few ideas which may as of the immediate hour assist in the transition in the south.

Of these shall we present upon the morrow,

You know, the day whereby the House of Representatives and all their Honourships go on long holidays at the expense of the PEOPLES.

The tax-based system needs to be put out of commission for what good is a system of bartering with Wall Street and overseeing hefty bribery payments of those who wish the "chair?"

That is not true democracy, that is no less than a self-serving ingratitude upon the PEOPLES.

When laws are bad or outdated it is time to throw them in the wastebin and leave them there for the shredder.

You cannot mix the old with the new in amending the old 1987 constitution,

this is due to the fact that the "foundation" must stand upon its own merits.

The present system is corrupt and you cannot sweep it up without watching the dirt build up again.

With our deepest respect,

As always do we remain

Fed up to the teeth with the indignities upon the PEOPLES.

354. Attn: Your Excellency, President Duterte And ConCom- Re: The Position Of The South

Good Morning Your Excellency, President Duterte and Concom:

With the Constitutional Blueprint of the Philippines for the PEOPLES, WHO MUST COME FIRST, none of these travesties will exist and the computers will hold what data need to be easily addressed in small groups of councils in bringing their combined SOLUTIONS to the Central Council in Manila of twenty-four.

The key is SIMPLICITY.

We feel that the 2019 Budget - Stop-Gap was delayed for the purpose of "cooling down" these issues of pork-barreling and graft, and by the time it is old news enough time has passed for others to perhaps have figured out another way to get around the same criminal intent again.

After all, it seems money can still buy the luxury of power and freedom.

As you are so well aware, Your Excellency, there are SOA (School of Americas) assassins transported by the Pentagon and CIA for the purpose of gathering dissension in the southern regions,

in order that peace and orderly conduct through the implementation of our New yet Original Constitutional Blueprint for the Philippines and the PEOPLES thereof, do not take root.

Others within the Congress and Senate House of Representatives try to destroy the foundation through enacting "amendments" to the old and useless Constitution of 1987.

We think there may be a crossing of wires here, President Duterte, Sir, and that is simply:

Do not use the Constitutional Blueprint for Iraq, for the Philippines.

INSERTION FROM THE CONSTITUTIONAL BLUEPRINT FOR THE PHILIPPINES:

The BLUEPRINT Philippines FEDERALISM: State controlled will bring about problematic events **if organized in the common tradition.** Listed: Criteria for problematic events explained:

1. Do not fragment into separate States where the Central Government or Council stands apart from the Sectional Councils throughout the Islands of the Philippines.

2. There must be safeguards put in place while the transition out of the capitalist monetary system takes place. However, too many safeguards would merely become a headache to the Central Council of Twenty-Four because the many hidden clauses in

print and schemes which exist today could result in being secretly kept away from the Central Council of Twenty-Four and this must be prevented.

3. The Constitution does in no wise need remodeled. The Constitution needs replaced because the Constitution was drawn up and modified as to the enlightenment and understanding of the days gone by. A band-aid approach will only lead to the dissolvement of the Federated Original System for the Peoples, by the Peoples own hand if nuts cracked do not belong in the oyster, so to speak.

4. Should the Sectional Councils also known as Ummahs (Villages, Towns, City Districts) control their own designated sections apart from the Central Council of Twenty-Four as seated in Manila, War Lords shall either continue or new War Lords be established, and nothing shall change for the Peoples who will then continue to live in a warshed of tyrannical illusion as being for the good of all.

5. The Original System of Federalism as ye ones so quaintly call it is not in any wise a dictatorship. It cannot become a dictatorship simply due to the fact that the round table of Twelve to Twenty-Four has the stability of equal number of both men and women not forsaking a child or more beyond his or her intellectual means of mind, control of self in both wisdom and understanding and previous life experience, therein there shall not be the control of only one or two. The same set¬ up of Majlis or Council must stand in each and every Sector (Village, Town, City District) in order to prevent one man rule or anarchy stemming from those whose eyesight is faint with the understanding of past tradition not pertaining to the Original System as first placed upon this world by the pioneering races from other world planets.

The Constitutional Blueprint for the Philippines is designed a little differently so as to not give warlords the type of power of which authority could corrupt the PEOPLES or their own councils.

The Peoples of Iraq are different from those of the Philippines even within their diverse groups.

All councils from the top down must therein follow the same type of protocol of which in its simplicity keeps to one standard.

Do not fragment into eighteen fragmented states nor any states.

And do not resign, President Duterte or the islands of the Philippines will be lost to hegemonic imperialism and end up in another pile of ashes.

At this moment American troops are looting Syria of its artifacts in order to destroy its heritage, and the Americans have never returned the artifacts which they stole from Iraq.

In reference to the NPA or Reds Communist Group, let us get them working alongside us instead of against us.

Let them set up their own councils to the exact standard and prototype of the blueprint and its specifications. Should they not agree then there is only one other recourse of which will put both sides in danger of losing their lives. This must be the last option and last resort.

All those whom have already put their guns down, the MILF, let them now set up their Majlis or Councils and all Peoples in the southern regions follow suit.

With the Congress and Senate out of the way, perhaps then we can get something accomplished.

Let us try and make the ceasefire permanent.

We cannot stress enough that we need to buildup our Navy.

With the highest regards

Do we remain,

- Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

355. Your Honour, Retired Chief Justice, Reynato Puno, Chairman of the Consultative Committee (Concom)

Good Morning, Your Honour, Retired Chief Justice, Reynato Puno, Chairman of the Consultative Committee (Concom), Sir:

Your notes, Sir:

https://www.philstar.com/headlines/2018/10/13/1859660/reynato-puno-slams-congress-proposed-federal-charter?fbclid=IwAR2q7Un6mHEzpQiDOeK8fwR-iOpmoDfjcu2buDIg9Y-v9uB6H2NgTCUeY5I

With elections instead of correct appointments of highly qualified and evolved and enlightened people, the electorate may at any time vote for those politicians who with smooth tongues and wily speech, charismatic, and rich to boot will continue to take the PEOPLES to the cleaners.

There will be hundreds if not a thousand "appointments" of men and women, not forsaking the child or children of most enlightened endeavor,

whom will be seated at a round table in whichever discipline is needed.

With the elimination of the monetary system in all its formats, old laws in the books shall become ineffective and useless due to the fact that the crime level which the monetary system brings with it, shall have no longer any footing or foundation for crime.

The Constitutional Blueprint for the Philippines shall PREVENT dynasties from taking root, so you are most correct in this also.

Why, Your Honour, would you want Congress who are engaged within their own self-interest to be given the power to critique and pass anything?

They will only hold off for years, months, days, and seconds keeping the New yet Original Constitutional Blueprint for the PEOPLES OF THESE PHILIPPINE ISLAND on the table gathering dust, until all "amendments" of the present Constitution suit their platforms, leaving the Constitutional Blueprint for all Filipinos out in the rain.

The Senate, themselves, do not even wish to look at the New Constitution.

They say they do not have the "time."

If they do not have the time nor wish to make the time then what they are saying is precisely:

THE PEOPLES DO NOT COME FIRST AND DO NOT RECKON INTO THE EQUASION OF THEIR OWN POCKETBOOKS.

The positions as Congressmen and Congresswomen and Senators hold positions of glib tongues and sentiments running counter-clockwise to that of the PEOPLES OWN BEST INTERESTS.

They, a great majority of them have already broken the trust of the PEOPLES SO WHY SHOULD THEY BE THE ONES TO DETERMINE WHAT CONSTITUTION SHOULD HOLD THE BEST INTERESTS OF THE PEOPLES?

The round tables of councils and majlis in the judicial sphere are to be governed by enlightened leaders such as yourself , Your Honour, with your years of experience;

The crime level having dropped will require only, for example, one enlightened man, woman or child of great past lifetime experience and intellect to become the "Solomons" in their handling of the short list of misdeeds or crimes which will not often persist.

When we wrote and brought this up to the Congress and Senate nobody seemed interested, because they, the majority, seem to want their perks, kickbacks, pork-barreling, and payoffs from a higher level

toward that of the power of the mighty presidential and vice-presidential chair of which the latter they wish to do away with altogether.

But their fragmented minds could not work in the Oneness of all civility in 'SHARING" a round table with only twelve to twenty-four other persons all working on the same level, not one head above the other.

There shall be no states for the Islands of these Philippines, Sir, not in this blueprint.

Where the standard of twenty-four persons of high intellect and evolvement shall grace the table in MANILA, so shall the same format be found within each Village, Town, City District,

and each round table for diverse disciples shall be found with men, women, not forsaking the child or children of incredibly bright intelligence.

Each round table shall see each one appointed in the same format as the round table in Manila of Twenty-Four.

In the Villages, for example, a round table may have only Twelve,

and of all these round tables shall they look *after their own community with the PEOPLES' PARTICIPATION IN ALL ACTIVITIES*

AND NO LONGER THE PEOPLES HAVING TO DEPEND UPON POLITICIANS WHOSE MAIN ACTIVITY IS TO THEIR OWN CAUSE IN PLUNDERING THE PURSE.

Instead of one or two groups of peoples at the top this will involve ALL OF THE PEOPLES leaving idle hands with much work to do.

Our blueprint holds no special privileges for councils or majlis of any sector,

within any Village, Town, or City District

because every council works using the SAME PROTOTYPE OF PROCEDURE

from the CENTRAL ASEAN NATION

TO THE PHILIPPINE NATION OR UMMAH

AND ITS BRANCHES OF VILLAGES, TOWNS, AND CITY DISTRICTS.

Streamline the government into councils, with fewer seats dominating the council

based upon the Twenty-Four and Twelve men, women, and child or children of exceedingly moral and high ground of hard working labour and intellect.

The Congress and Senate House of Representatives wish to give to the PEOPLES a continuation of austerity which simply means:

"YOU, THE PEOPLES, MUST HAVE AND DO WITH LESS SO WE CAN HAVE MORE."

Perhaps the time has now come, Your Gracious Honour, that the monetary system along with the Constitution of 1987 be overturned in complete favour of building a new foundation with the New and Original Constitutional Blueprint of these Great and Beautiful Islands of the Philippine NATION

Of this we know you agree.

The Flag above says it all.

With firm regards and respect, Your Honour,

Do we remain,

Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

Do not use the New Constitutional Blueprint for your own self-made agenda for it is a blueprint for the Peoples and not for your own self ambitions.

When you stray away from the foundation of the New Constitutional Blueprint for the Philippines you will be sure to remain fractionalized in your decisions.

QUOTE:

"Former Supreme Court Chief Justice Reynato Puno, head of the Consultative Committee to review the 1987 Constitution, said ***the special features of the draft federal constitution can put an end to graft and corruption in the country.***

"He explained that graft and corruption is a systemic problem that can't be solved by the current Constitution*. One day, the president said I want to resign because I'm unable to eradicate the problem of graft and corruption.*

"Why, because it's systemic. Bago matapos ang graft case, it takes years because of the police, the judicial system, the case will end but acquitted," he said."

You are all and rightfully so, concerned with who exactly should be the next president of the Philippines. Well, that is not so soon to come;

however, with the New Constitutional Blueprint, this Blueprint is FOR THE PEOPLE, ON BEHALF OF THE PEOPLE AND TO BE CONDUCTED BY THE PEOPLE.

Therefore, not only one should be chosen but twenty-four, and those twenty-four must be men and women, not forsaking children or a child of genius intellect who are able to conduct matters not only telepathically but with morals and ethics, intelligence and the understanding of the blueprint in all of its formats.

Many councils of twelve, six men and six women shall be set up and of these many of you may well find your place should your moral and ethical beingness or character precede you.

The moment you suffer a nation's sovereignty you place that nation and that nation's people on the cutting edge.

With regard to China, China is not investing in the sovereignty of the Philippines, but rather wishes to ensure and maintain a strong arm in protecting the Philippines (as well as other CENTRAL ASEAN NATIONS)

and ensuring that upon the "foreign enterprises" meaning by definition "foreign" equaling "outside of the CENTRAL ASEAN NATION"

the Silk Road or Waterway will run comfortably and amicably from the Philippines to all parts of THE CENTRAL ASEAN NATION and later on to the other Central Nations of the world.

You must not amend the present constitution to suit your administrative purses and self-goals for should you do this you will definitely

leave the Peoples OUT.

TO THE FINE PEOPLES OF THESE GREAT ISLANDS OF THESE PHILIPPINES:

Good Day.

Congress and Senate are HIRED BY THE PEOPLES TO WORK WITH AND ON BEHALF OF THE PEOPLES

The Constitutional Blueprint for the Philippines is TO PUT EVERYONE ON AN EQUAL FOOTING in giving the Peoples the SAME OPPORTUNITY FOR SUCCESS AS THE ONES THEY ELECT TO STAND IN THEIR PLACE.

THE MAKING OF LAWS - MAN'S LAWS

Peoples, when a new or revised-to-be law hits the table of the lawmakers, there is a fifty-fifty chance that that document shall be overturned, or made into law.

There is also a fifty-one to forty-nine chance that it will not.

A good piece of legislation can be enacted and passed by Congress and stopped by the Senate.

A bad piece of legislation can also be ruled in as law whilst the fourty-nine percent of the votes by Congress oppose it.

In this wise the Peoples can easily be overthrown in their own brilliance whilst those whom are supposed to be the Peoples' representatives foster their own agenda in favour of behind the scenes bribes, blackmail, promises of a good pork barrel of the Peoples money and best interests or a kick at the big Chair.

Peoples, what kind of law is it which is so teeter-totter that the variance could be overthrown by one or two votes either way to the negative or the positive.

Should a law worth its weight not accumulate a hundred percent vote of the House? But seldom does it.

And if it is a good law then why would the opposition rule their votes against it? Are they mean spirited?

Are they worried about their own agenda?

Are they even there sitting in Congress or the Senate on BEHALF OF THE PEOPLES or their own self-serving nature?

This is the difference between man's law and the Universal Principle which ensures the Peoples of the Lands be represented to the positive FOR THE UNIVERSAL PRINCIPLE NEVER WORKS UPON THE NEGATIVE.

There can be no going forward in policy for as long as the gain is toward the pocketbooks of the Congress and the Senate

and FULL REPRESENTATION OF THE PEOPLES is in doctrine only and words which gain the dust of the road for even the hapless whose life is little more than a vote on a piece of charcoled paper and with pencil in hand do they write their mark or X.

SENATORS AND CONGRESS WATCH OUT YOU DO NOT GET MIXED UP AGAIN WITH THE "WRONG PEOPLES."

358. To His Excellency President Xi Jinping

Visit To Portugal December 5, 2018 - Reply

https://www.philstar.com/world/2018/12/05/1874419/xi-arrives-portugal-boost-trade-ties?fbclid=IwAR3AN_7u3m1tCdAN7vnWvIc3R9oKead8zBvAI6DBEHJuYx0tXjeYfRUoSuk

Good Morning Your Excellency President Xi Jinping, Sir:

We trust you have awakened to a glorious day.

British parliament polished up by Israel and their agenda comes as of no surprise indeed to learn the battleships are in the South China Sea building bases for the greater Israel agenda.

We feel, Your Excellency, that it would be "wise" to "escort" British "patrol" ships back into the waters whence they came.

It is one thing to do business with a nation outside of the CENTRAL ASEAN NATION and quite another thing for their war "scout" ships to maneuver themselves in another Central Nation, build military bases and conduct "overflies" as well over that domain.

Even a blueprint of schematics is an intent.

What has not transpired as yet is "certainment" in the future if such intent upon their part is not curbed "immediately."

If the British were wise they would recall all troops with their armament and look well after their over three hundred thousand homeless they have sitting outside their front door.

A leader or house which cannot feed nor house their own people have no business going outside of their own borders in proclamations upon the house or leadership of another.

The European Union at this hour is trying to pretend they are a European Central Nation but that could not be further from the truth. This is realized by the Portuguese Prime Minister Antonia Costa in his quip back to the European Union of utter disunity of nations, in his words:

"In Portugal, we are not anxious by the origin of foreign investment" and for them to eschew **"the path of protectionalism."**

Now, in the blueprint for the CENTRAL ASEAN NATION we speak of all Asean Nations to deal internally among themselves and this is for the reason of building strength and security

without other non-Asean nations "at this time" to "infringe" upon such manifestation of collective consciousness of the whole within the **CENTRAL ASEAN NATION.**

We realize that Portugal has no guidance from the European Union, as the European Union fastens itself as a body to dry-gulch the European Nations of their purses.

So what to do?

First off, we would explain to the public, globally, to an even greater extent, Your Excellency, **that China in no wise leads other nations which China deals with, into a debt-trap,**

simply because China has not even at this hour of the day, night, and evening, recalled debt owed to China by the United States of America which would have sunk more than two of its largest carriers sitting in the West Philippine - South China Sea.

With the Portuguese energy utility EDP having spread itself around in fifteen countries we would cite this as a perfect example of the immediate dangers of nations "initially" going outside of a newly created Central Nation which so far Europe has not even begun.

The European Union is well at home in its continuance of destroying the European Nations in various manners not the least of trying to charge Britain for Brexit.

Portugal being, we would say, ***the most*** **"important hub in the land and maritime silk routes,"** would well see China at this time in representation of the CENTRAL ASEAN NATION to offer a wing of protection to Portugal economically in setting the nation also upon its feet, until hopefully, the European Nations, themselves, come together in setting

up their own Central European Nation in the same wise and profile as we all are working in Asea toward.

The new Silk Waterway, Silk Road, Silk Railways, Silk Ports are *more* than a wise solution; they guarantee good mobility of the goods and services which shall one day, hopefully, will challenge the peoples of the nations to look further than that of their own back door.

Here is a distinct challenge for Europe but since Portugal, for instance, has no other parts of the European body to rely upon, save those who are weak,

and since China in representative of the CENTRAL ASEAN NATION has no intention of invading Portugal for its resources nor to make slave labour of the Peoples of Portugal, **but to offer the Portuguese Peoples a way out of an impoverished situation,**

we would allow this good and feasible move to stand in the CENTRAL ASEAN NATION Blueprint where one representative of a Central Nation of the overall body of nations (Unified Nations in replacing the United Nations)

would gently and firmly assist that of another nation or Central Nation outside of the Central Nation it represents.

You Excellency, many persons, both men and women from the first Silk Road, have given their lives for a moneyless system, and whom have also reincarnated in this lifestream in order to see it through again;

we can only hope and trust that the end result will be that the first Silk Road will not be another "dead" road but will flourish and grow as it should have in the first place.

The Silk Road is an exciting journey to live, but please remember, Your most gracious Excellency, that it was the "monetary" system itself and that coming from Rome at that hour, which destroyed the Silk Road and all the good and brave Peoples who first created it.

It is for them, also, do we write.

We understand that the **"new Silk Road"** shall deal with currency and we also understand that when a man fights with a sword, the bigger sword will win and should the bigger sword **be that of the Silk Road, all HUmanity in the long yet not so long run will benefit past their greatest expectations.**

We see Rome still hanging onto and gathering its gold and other mineral resources amongst the cash-flow from the poor and weary.

So nothing there has changed and we must be wary and careful.

It is the wisest way to see unification among all of Asea, not one head above the other, **and to remember that a happy nation as a whole or within itself is a safe nation.**

Many nations with their round table councils of twenty-four and others of twelve.

Our concern right now is South America, for distinctly are they being overshadowed by the American greed and provocation. Ports there are also important and as of years past have those nations already set up their **CENTRAL SOUTH AMERICAN NATION.**

Once one Central Nation is set up therein shall it deal also respectfully with that of another Central Asean Nation.

We thank you for your ear and for our word toward it.

Your Excellency, President Xi Jinping, had you been President of China at the time of the invasion and occupation of Iraq, Iraq would have had one more steady and loyal friend.

With the highest regards do we submit to you, this letter in reply.

As always do we remain,

359. China Firm To Invest $4.4 Billion In Mindanao Steel Plant

Good Morning, Lady and Gentlemen:

We apologize for the lateness of the hour but there is little more of importance than that of good timing, and of this we know you would all agree.

https://www.philstar.com/business/2018/12/15/1877065/china-firm-invest-44-billion-mindanao-steel-plant

If investments do not bring about enormous returns for the Filipino population then such investments would be too difficult to pay back in a currency rate, and as thus must be enacted in such a wise as to offer an island or two for another Asean Nation's gain in agriculture or tourism.

But there is yet another way forward.

The steel plant to be erected in the southern portion of the Philippines in Mindanao would give Filipinos jobs and give Mindanao the necessary boost it needs at this time and of this is the building of a steel plant a good directive between China and the Philippines,

But unless the steel which is to be used in the production of cars, engines, rail cars, small appliances and other necessary items in the Philippines, be sent, for instance, first to China, for their use of the finished project, the project would not be feasible for the Nation of the Philippines and her Peoples in the long run.

Where a non-monetary alliance would be concerned this is how the steel plant would pay for itself, and better yet this is exactly how the project would work WITHOUT monetary credit and usury which is the downfall of each and every nation eventually.

Let us MOVE THE MONETARY BOUNDARIES as the first pioneers did when building the Silk Road; and as it was in the Philippines before the invasion of the Spaniards.

At this hour do the Philippines NOT NEED to think "GLOBAL," for the CENTRAL ASEAN NATION must first be built and there are many Asean Nations which could avail themselves of quality products in steel-making from the Philippines.

The Philippines does not need to compete Globally because it is a different type of nation which could well demonstrate to the rest of the world how simple living with large agriculturally based islands, and a new Constitutional Blueprint with the way forward within it, could well surpass that of the quality of life of other nations.

The Philippines must become a hub on the new Silk Road for transport of goods and services BUT of only necessary goods in and out of the nation, for the new Steel Plant is not to exceed the Peoples talents in other areas, and leave the Philippines as another concrete jungle.

With any extra transportation of coal into the Philippines from another Asean Nation, that nation also would acquire certain items with the Purchase Order which they need also.

The Oligarchy of banks are in every nation and we must relearn to bypass them all.

We trust the smelting machines are of the highest grade and quality for we understand that China is using solar in order to curb the pollution and perhaps also other means of excellence.

We trust you shall all have a good day, evening and morningtime hours and hope your stay in the Philippines was all you hoped it would be.

PEOPLES OF THESE PHILIPPINE ISLANDS!

https://www.philstar.com/headlines/2019/01/10/1883844/duterte-included-prayers-feast-black-nazarene

When religion takes away all sensibilities and turns you into a growing mass of unthinkables, NEITHER one nor all are growing in your soul's evolution,

for no christed One would wish such hurt or disaster upon his or her Peoples,

and only a charlatan whether be church or individual or government would take your pesos and leave you with lies giving you little to nothing in return.

And yet year after year ye Ones deliberately fall into the same trap.

The church does NOT NEED YOUR PESOS FOR THEIR VATICAN VAULTS ARE ALREADY OVERFLOWING

The churches, PEOPLES!! LOOK AT THEIR GRAND BUILDINGS AND THEN YOU LOOK AT YOUR OWN HOMES AND TELL US WHICH ONES NEED YOUR PESOS!

THINK! PEOPLE, THINK!

THE CHURCHES ARE NOT THE HOUSE OF GOD BECAUSE WE SEE THE DOORS SHUT AND LOCKED TO THE VERY PEOPLE WHO NEED A BOWL OF SOUP FOR FREE!!

Ye Ones clamour around a figure you believe to be a replica of the Nazarene whilst understanding **none of the teachings** of such a One nor any enlightened master teacher!

What on this great and wonderful earth is wrong with ye all?!

CREATION DOES NOT CHARGE THOSE IT LOVES! SO IF "GOD" MADE CREATION THEN WHY WOULD "GOD" CHARGE THE PEOPLES "GOD" LOVES?

361. Attn: Senator Grace Poe, And Candidates:

Good Morning, Senator Grace Poe, and other candidates:

We wish you all a good day and thank you for the candidate report.

https://www.philstar.com/headlines/2019/01/10/1883831/grace-poe-tops-pulse-asia-senatorial-survey

Senator Poe, it was long yet not so many years ago, we remember when you were a front-runner also.

You worked hard and though many would surmise your platform was a jump-off from your father, it was you, yourself, who brought yourself up to the top or near it.

The dismantling of both the Senate as well as the House of Congress does in no wise mean there is no seat for those who deserve it, by putting the PEOPLES FIRST.

One cannot react to the situation of the Peoples, positively, without enacting the new Constitutional Blueprint for the PEOPLES OF THESE GREAT AND HOLLOW PHILIPPINE ISLANDS.

Where monetary value exists so will it bring the Peoples down and keep the majority down unto their own gravesites.

Likewise, to leave the Philippines in the hands of the resource-grabbing Americans and their allies shall do little more than suffer a much lengthened horror upon the lives of the Filipino.

Wolves come cloaked in little more than a lambskin and who, indeed, does not like little lambs?

The Silk Road is a road for all to enjoy and reap the good labour of their nation.

At the round table of all good council may you one day find of yourself a seat.

We welcome you and "others" with you, who stand with us in the productivity the new Constitutional Blueprint for the poor, middle-class, and wealthy of the land, for wealth will bring and manifest itself in many forms complimentary to the lives in pure equality of the All.

Good Day to ye All.

362. Your Excellencies, President Xi Jinping and Supreme Leader Kim Jong Un

"November 23, 2018

The head of the U.N.'s atomic watchdog has called on North Korea to allow inspectors back into the country to monitor its nuclear program."

https://www.philstar.com/happens/285

Good Afternoon. We would say to ye All to ***be most careful.*** The head of the U.N.'s atomic watchdog had called on Iraq, as well, in the days of the great bombing.

When Iraq had proven they had no such weapons of mass destruction the U.S. and their allies walked in and took everything, leaving the nation in ruins and planting themselves in Iraq to this very day to sit over the oil and gas fields and making sure **Russian LukOil** would never be paid back for all their assistance to the Iraqi during the hour of the deadly sanctions, which never cease to exist.

Hans Blix the U.N. weapons inspector testified Iraq had no weapons of mass destruction.

"There were about 700 inspections, and in no case did we find weapons of mass destruction," said Hans Blix, the Swedish diplomat called out of retirement to serve as the United Nations' chief weapons inspector from 2000 to 2003; from 1981 to 1997 he headed the International Atomic Energy Agency. "We went to sites [in Iraq] given to us by intelligence, and only in three cases did we find something" - a stash of nuclear documents, some Vulcan boosters, and several empty warheads for chemical weapons. More inspections were required to determine whether these findings were the "tip of the

iceberg" or simply fragments remaining from that deadly iceberg's past destruction, Blix said he told the United Nations Security Council. However, his work in Iraq was cut short when the United States and the United Kingdom took disarmament into their own hands in March of last year."

https://www.berkeley.edu/news/media/releases/2004/03/18_blix.shtml?fbclid=IwAR1eMv8omlC4S4UHmegL4YE6-ks86HdTjKX7vjJ25XYrNdDOhqKW9Hz-5Uc

On the phony excuse and lie invented under President George Bush Jr., Iraq was utterly and completely destroyed as was the DNA of the IRAQI.

We repeat, even Hans Blix was not listened to even though he could find no weapons of mass destruction anywhere in Iraq with his team.

The Americans, Britain, and Israel, work upon the Kol Nidre which simply means to make a promise, sign a treatise or any kind of MOU and when the other party signs, **the Americans and their allies break it at their convenience.**

Israel works upon this principle in the same consistent manner as they use other nations' military to achieve their goals.

The UN is set up to look as though it is an official watchdog organization and ultimate authority but nothing could be further from the truth.

The U.N. is a talk shop for all those wishing to plunder nation after nation.
Do you see U.N. soldiers in Yemen to stop the carnage?

Greater Israel wants to expand not only through the Middle East but through Asea as well and they will try to destroy the Silk Road because they cannot control a system whereby that system has no monetary value as its foundation.

The Americans and Israel want to "know" how safe it is to replace His Excellency Supreme Leader Kim Jong Un in order to once again destroy another nation and divide the unification of North and South Korea who now stand together in the face of such western/Israeli threats.

In the same way they control Europe in bringing the nations to their knees with the monetary system and using migrants to flood the countries. These migrants are not allowed to utilize the blueprints toward their own ruined nations health.

The auspicious of the European Union forbid it for the monetary alliance with the World Bank, IMF, Bank of England, Federal Reserve, and Vatican Bank are the ones destroying nations, the Peoples of Nations, and their generations after them.

The wolf comes cloaked in a gown of deceit and betrayal.

We trust we have been of some assistance.

363. Greetings UN Nameless Official: Re: Korea Summit

Notation: Greetings UN Nameless Official:

https://www.philstar.com/happens/354

"A senior UN official warns it would be a "missed opportunity" if diplomatic talks with North Korea this year did not address human rights, urging Seoul and Washington to highlight the issue.

The impoverished but nuclear-armed nation stands accused by United Nations investigators of "systematic, widespread and gross" human rights violations that range from rape, torture, extrajudicial killings to running political prisoner camps. — AFP"

This sounds just like the United States and their global program; in fact, this sounds exactly like what is transpiring within the United States at this hour with its global torture camps and inhouse FEMA prisons;

you know, the ones with hundreds of thousands of ready-made coffins?

POVERTY ELICITS A CRIME-BASED SOCIETY.

North Korea is not the invader nor does North Korea place ungodly sanctions upon any other nation as the United States does without cause.

Placing sanctions on a nation hurts the PEOPLES MORE THAN IT DOES THE LEADERSHIP.

So take the sanctions off North Korea and allow South Korea their right to transport goods and services to impoverished North Korea and most of the crime shall disappear.

Peoples who are wanting for food and medicine are not working on all circuits and of this does much criminal and debased activity occur.

However, in the United States do these horrendous activities occur by those whose stomachs are full to overflowing and with distinctly sauerkraut brains and a wit to match do their evil deeds begin to come undone.

The string winds its way throughout the continents and where one facet is found wanting the other shall take its place until the entire tapestry comes undone in all its colours, textures, and strength.

When you take away the dignity of People the Peoples begin to lose their HUmanity. Boot camp for the American soldiers dehumanizes them in every aspect.

What of the Iraqi women and girls whom the U.S. Command took to their soldiers in the Ukraine to satisfy the lusts of the U.S. soldiers in order that the American soldiers would not be caught in the act of raping the women and girls of the Ukraine infront of the global community?

The U.S. soldiers drove the Iraqi men insane with emotional trauma.

We trust "this" shall appease your worried mind and put this in perspective for you.

364. Duterte: Philippines Will Not Buy weapons from US

Your Excellency, President Duterte:

Good Afternoon "Sir."

https://www.philstar.com/headlines/2019/01/11/1884216/duterte-philippines-will-not-buy-weapons-us#uEyzueUC1ZV7iHke.99

"Duterte's claims on US aid to military

Duterte cited US President Donald Trump's new order prohibiting countries to enter into arms deal with China or Russia."

These words of President Trump are tantamount to sanctions on the Philippines, treating the Filipino as a child. The U.S. could not blackmail the Philippines and other nations were it not for the MONETARY CAPITALIST SYSTEM!

Dump the monetary system you dump the U.S. off its throne.

What are they going to do with China sitting at the Philippines back door?

The U.S. is strangely still under the impression that they are an ally of the Great Land of these Philippine Islands; not until they finish cleaning up their own national house first and recall all troops world-wide; they may begin by pulling out of the CENTRAL ASEAN NATION, then they may come in peace with no military armament.

The Philippines need to "invest" greatly in turning the islands into agricultural excellence run by the Department of Agriculture and Health; and to invest in "the Philippine navy," though other navies assist at times necessary.

Many hands are needed for planting not only trees but vegetables and all manner of fruit trees as well. Therein could the majority of inmates in Philippine prisons be re-situated and put to work.

The U.S. Military Tribunal will at times and depending where the string leads, need confer with Your Excellency, President Duterte, on the topic of human trafficking. We know it exists in many lands. The web such ones weave shall continue to come undone.

Women and girl childs and boy childs MUST be freed;

and those treated accordingly for such crimes shall be those whose faces and names sit already with the U.S. Military Tribunal with many more to go.

We trust these informational packets shall find their way to proper sources through your voice and stanch outlook for "the good" of all Peoples of not only the Philippines but that throughout the CENTRAL ASEAN NATION

We do not think the Filipino Peoples understand just how big this is with the drugs and human trafficking resurfacing in most lands of the globe.

Most is brought about by poverty, sanctions and other demands of the Americans. If the root stays in the lands then the leaves will never wither and die.

Trafficking is being rooted out in the United States

and that web of deceit and astronomical cruelty toward women, girl childs and boy childs, will come to an end

but not without strong and knowledgeable men like yourself, and women, also of the intelligence, knowledge and strength.

Those men and women who deal with the United States of America before the American house is clean of all drug and human trafficking are weak people and therein have no business in the running of a nation.

We are not speaking of buying a few products, we are speaking of something much bigger and dangerous.

However, we must maintain a balance and that balance dictates that good comes out of the negative and that positive aspect is to take the jailed persons, the majority of them and put them to work in agriculture and building rehap centers on the islands so the PEOPLES do not need to fund their lengthy stay in prisons.

With the greatest respect

Do we remain,

366. Catholicism Is Only One Religion - Good Morning Peoples Of These Philippines

Good Morning, Peoples of the Great Islands of these Philippines and Globally Speaking:

https://www.philstar.com/headlines/2019/01/21/1886788/catholics-told-protect-faith-attacks

Though we would never advocate killing Catholics Priests, we must tell you that **"religions"** make you, the Peoples, both **poor and weak.**

Poor because the church takes your money in favour of you, the Peoples, keeping it to feed your families and friends, and the poor on the street which you should personally do anyway;

and weak, for the salvation you are paying tithes to receive from the Church and the Priests,

so you hopefully receive a passageway to a paradise **which you shall not enter unless you build it yourselves,**

such passageway **not given to you by the sacrificial blood** of any person nor animal, godly (ethical and moral) or not.

Nice to think so, for many of you, but life and the afterlife which you are all now living, just does not work that way.

As for robbing the Catholic Priests, they keep the Peoples gold and pesos firmly locked away.

Robin Hood was exulted not because of stealing gold belonging to the wealthy,
but because he took back the Peoples money which the wealthy stole,

and gave it back to they, the Peoples,

whom, because the wealthy stole their gold, made the Peoples poor.

They could not afford a doctor nor food and became sickly and physically died.

Remember, ye Ones said you were once told:

"Do good and do not let the right hand know what the left hand has done in it's goodness?"

That alone in its diatribe should have alerted you to the fact that the Crucifix should then have been hidden and noone told of the "salvation."

However, you work your own salvation, though rebuilding this world back to its original state, nation, by nation, by nation.

When you return to the Deva Chan (the place between lives), you will all too soon realise how correct we have all been.

Where is Paradise? Right where you stand. Right infront of your own nose. Build it again and you will see and enjoy it for generations upon generations or lose it for the same number of events you have hoped to experience in your future lives because you listened to the Priests and other notorious religious figures who kept you from it.

Since so many of the Catholic Priests are pedophiles why are you listening to them anyway?

Good Day.

367. PATRIOTS OF THE UNITED STATES OF AMERICA: RE: Deep State!

PATRIOTS OF THE UNITED STATES OF AMERICA:

The Deep State has placed the United States in deep debt to many many other nations throughout the centuries, decades, weeks, months, and years.

The Deep State has indebted the United States to sovereign nations such as Iraq, Libya, the southern African nations, Afghanistan and so on and on and on, through the unabashed THIEVERY of national and human resources including the worst, child trafficking and prostitution.

BEFORE "America can be called Great Again" THE UNITED STATES must FIRST make those other nations Great Again which the United States through Deep State control have dismantled and destroyed their very FOUNDATION.

The United States MUST WITHDRAW ALL TROOPS FROM FOREIGN SOIL AND WATERS, SEA, AND AIR.

This is the second tier drop.

These wars against nations did not just begin with the brutal assassination of JFK, nor of the Twin Towers, nor even of WWII.

These wars began for the United States at the hour the banker came and overran the nation belonging to the American Native inhabitants.

The history books will not tell you, Patriots, that the Japanese first landed in what is called America and they met with the friendly nations of the American Indians.

The Americans also did not land on the moon, but Hollywood was paid a fair price to "pretend" that they did.

Adolf Hitler was not funded by the Deep State for he created his own national currency and should he not have lost the war against the bankers, history would have written itself differently and the Palestinians today would be in no danger for they would still have been living in peace with the Hebrews.

That is the first tier. And many Americans were lied to and tricked into fighting the bankers wars, their political wars, their religious wars, and many Americans are now committing suicide because of these lies and because of Generals who will not listen to their soldiers but are still tied in with the lies of the Deep State.

Patriots, you must dig deeper into the lies of WWII and uncover that which you only recently heard about and make a video of it ensuring you are well armed first.

Star Wars 2 is a bad idea. It antagonizes other nations and challenges them to do even greater feats in their own building of weapons to ward off more aggression from the United States of America.

Have you not yet learned that WAR IS A BAD IDEA? If war is a bad idea on the ground, how much more in the heavens.

The heavens control the land and we all know it.

It is the time for the United States to STOP THREATENING other nations, sacrificing their own peoples in killing others, and to STOP STEALING NATURAL RESOURCES FOR THE OIL INDUSTRY CORPORATE POWERS AND THEIR COHABITATING BANKING INDUSTRIES.

This is the ground level now and we are behind all who seek the truth for the truth will become known to all about all events.

"AND THE TRUMP-ET SOUNDS AS THE TROOPS MARCH FORTH AND THE DEEP STATE RELAXES NOT ITS GRIP ON THE DOOR BUT THE KNOB WILL NOT TURN AS THE STORM BREWS FORTH AND THE GALLOWS THEY SWING AS THE VISION TO ME SET FORTH."

368. JAPAN RUSSIA KURIL ISLANDS JANUARY 2019

JAPAN RUSSIA KURIL ISLANDS JANUARY 2019

Good Morning Your Excellencies Prime Minister Shinzo Abe and President Vladimir Putin:

If you would permit us to offer up a solution to this overtly drawn-out equasion we would be most happy to comply.

https://www.philstar.com/world/2019/01/23/1887471/putin-abe-talks-fail-break-island-impasse

The Silk Road was almost destroyed before it ever got off the ground due to boxes of gold bullion given by the Roman General and Emperor, Tiberius (14 AD - 37 AD), who was a wicked man beyond comprehension.

Each box of gold coins was offered to each of the thirty-six tribal nations, for they espoused their own flags.

This bribery of gold coins was set to destroy all effort for a smooth transition to peace in bringing the west and the east together without the hardship of lugging monetary acquisition around.

Do you see where we are going with this, gentlemen?

Men fought. Many men gave their lives to protect the Silk Road and yet there were many who turned toward the money, but when the day came for them to choose the Roman coinage or freedom from the monetary system which would bring the nations the road to peace, a brotherhood and sisterhood in its tightest and best adaptation, formed and

the thirty-six tribal nations chose to help one another and back one another

and in doing so the gold coins did not persuade them away from the best program which the Silk Road had to offer.

The good and brave Roman General Lucius set his troops under the command of Huo An whose vision began the Silk Road of seven thousand miles beginning with the city of the Wild Geese Gate which housed both sides of warriors and they became friends over need to cooperate.

It began as a road between China and India for trade and good will.

General Huo An was a man of impeccable ethics and morals and his loyalty and friendship to his Roman friend earned him the title of Commander of the Roman Troops.

Huo An espoused such enlightenment into Universal Principle as to be indescribable.

Our Constitutional Blueprint is no different for we all work on the same principle.

What is at the core of contention is not who owns the islands,

but what separates you both in your struggles, Your Excellencies, is the money, the billions, of natural resources.

The solution, therefore is simple:

Take the entire string of the Kuril Islands and give them, along with the resources, to the Peoples who live on those Islands.

Allow the families of the Japanese who also lived on those islands before the second world war also to inhabit those islands.

Let the Peoples make the Kuril Islands into their own nation, with their own resources and they shall deal not only with Japan but with Russia.

Let the Peoples of the Kuril Islands become another such nation within the CENTRAL ASEAN NATION and BETWEEN THE CENTRAL ASEAN NATION AND THE CENTRAL NATION OF RUSSIA AND THE SATELLITE STATES as a hub for trade and economy.

Look at the Kuril Islands as your child, born of two parents - Japan and Russia, and guide it and help it on its way to nationhood, protecting it along the way.

Your Excellency, President Putin, Russia is a wealthy land and it is a large land. It grows many crops much needed by the CENTRAL ASEAN NATION.

Your Excellency, Prime Minister Abe, Japan is no longer at war, and with the entire string of Kuril Islands, much prosperity through trade shall also greatly profit Japan and her Peoples, as they will, Russia, also.

"I see no problem with the idea of the Kuril Islands forming their own nation state governed by the new Security Panel of 24 provided this new nation state comes under joint military protection of Japan and Russia. Were this arrangement neglected, then at some point in the near or distant future the U.S. Military would come and establish bases there for the purpose of profiteering and controlling the resource abundance of these islands for the benefit of U.S. energy companies and that of the House of Rothschild. - Reni Sentana-Ries"

The way forward is not only signing a peace pact or agreement, but the way forward is to not allow the box of gold coins to take away the peace from the land.

Let go, Your Excellencies, of the Kuril Islands and join in the spirit and progress of the Silk Road and your reward shall be greater than you could ever imagine for you and your nations.

With the greatest respect, gentlemen,

Do we remain,

369. Attn: Isabela Rep. Rodolfo Albano III: Re: Medical Marijuana

Good Afternoon, Isabela Rep. Rodolfo Albano III,

https://www.philstar.com/headlines/2019/01/24/1887701/house-oks-medical-marijuana-use-2nd-reading

The passing of the compassionate and medicinal use of marijuana is an intelligent move.
Alcohol destroys lives and family units.

Drugs, both street drugs and many pharmaceutical drugs are addictive such as a multitude of drugs with opiods in them, and as such, destroy lives and family units.

Opiods are a *"a compound resembling opium in addictive properties or physiological effects"*

whereas marijuana is a HEALER OF MANY diseases and health problems as is becoming vegan.

Marijuana is NOT KNOWN to be addictive and because marijuana is not addictive in any wise and is a non-depressant such as alcohol,

marijuana, under prescription of the Agriculture and Health Departments should be used also as recreational (for relaxation instead of drugs and alcohol) use.

When one takes something away from Peoples, one needs to "replace" that substance, otherwise, some form of substance abuse shall continue to take place.

One also cannot have a free-for-all, as we have so written aforehand simply due to the reason, one does not want people "stoned" when driving nor working, so marijuana needs also to be used wisely.

Certain islands need to be sectioned off for the growing and monitoring of the crops by the Department of Agriculture and the Department of Health.

Then the crops need to be also be protected by the coast guard and navy.

The Peoples need to be "educated" on the benefits and use of the healer, marijuana.

The Peoples themselves should be tasked to attend to the marijuana crops on the islands; in this wise more jobs shall be opened up and keep idle hands busy constructively rather than dealing with drug lords and becoming under their command.

Some in the west make "tablets" out of the marijuana in order to be dispensed to the peoples for certain ailments and this is the wisest method simply because the lungs of the peoples will not be harmed, even though marijuana is a healer.

We do not know the effects on the lungs of the smokers but assuredly believe marijuana is better than cigarette or cigar smoke in one's lungs.

Good Day.

(Quotation)

MW– On a personal note, Hugo Chavez was a giant among men and a real hero. Would you please tell us what his loss has meant to you personally and how his death has impacted the people of Venezuela?

Eva Golinger– *The loss of Hugo Chavez has been crushing. He was my friend and I spent nearly ten years as his advisor. The void he has left is impossible to replace. Despite his human flaws, he had a huge heart and genuinely dedicated himself to build a better country for his people, and a better world for humanity. He cared deeply about all people, but especially the poor, neglected and marginalized.*

There is a picture taken of Chavez by a bystander, when he had been at an event in the center of Caracas and was walking through a large plaza that had been cleared by security. All of a sudden, he saw a young man, disheveled and seemingly on drugs, barely able to keep himself upright, wearing ragged clothes.

To the horror of his security guards, Chavez went over to him and lovingly put his arm around him and offered him a cup of coffee. He didn't judge the poor guy or reprimand him, or show disgust. He treated him like a fellow human being who deserved to be seen with dignity. He stayed there with him for a while, just telling stories and chatting like old friends. When he had to go, he told one of his guards to offer the man whatever help he needed.

There were no cameras there, no TV, no public. It wasn't a publicity stunt. It was genuine, sincere care and concern for a fellow human in need. Despite being president and a powerful head of state, Chavez always saw himself as an equal to all people.

His unexpected death has had a tragic toll on Venezuela. Sadly, those he left in charge have been unable to manage the country through this difficult times. A combination of corruption and external sabotage by opposition forces (with foreign support) has crippled the economy.

Mismanagement has been widespread and destructive. US agencies and their allies in Venezuela have seized the opportunity to further destabilize and destroy all remaining remnants of chavismo.

Now they are trying to tarnish and erase Chavez's legacy, but I believe this is an impossible task. Even if the current government doesn't survive the vicious attacks against it, Chavez's memory in the millions of people he impacted and improved the lives of, will weather the storm.

"Chavismo" has become an ideology founded on principles of social justice and human dignity. But do people miss him terribly? Yes.

(Quotation)

Argentina in 2002 is much like Venezuela now!

Hello, friends! My name is Reni Sentana-Ries, and in my position as Office holder I come with the endorsement from the High Council of this sector of the Universe.

The issue before us is from the year of 2001 and 2002 when the nation of Argentina was choked to near extinction by New York bankers who were at that time re-arranging Argentina's peso currency to one of one to one with the dominating U.S. dollar in order to curb the nation's run-away inflation. That move brought incredible hardship on the people.

While Venezuela is not cornered by bankers calling in her national debts, she is however being financially throttled by neo-cons running Washington today, with several other nations in tow, having joined in with the efforts of a financial as well as a gold embargo to deny the legitimate Maduro government movement in looking after the financial needs of its own people.

So, let's begin with Argentina in 2002, her political and financial turmoil, and see for ourselves the advice I gave, fitting quite well into what Venezuela stands in need of today:

Argentina's Money Folly is Backfiring!

EDMONTON (INA Canada) December 9, 2001, by Reni Sentana-Ries

If Argentina is an example for how the rest of the nations manage their currency affairs, then it is no wonder things go awry in these countries.

I hear that Argentina had adopted the American dollar on a one-to-one basis: one dollar equals one peso. This arrangement was struck with the intent on placing a lid on Argentina's traditional run-away inflation and devaluation of currency.

The price to pay for the link-up of the peso with the American dollar was that the Argentinean government would not be allowed to create legal peso tender to cover for any shortfall on their expenses. Any Argentinean requirement for more legal tender was to be negotiated with the IMF and World Bank in the form of loans subject to interest charges. Such talks are currently underway, by the way.

In the meantime ordinary citizens are denied full cash access to their own funds, which effectively prevents them from functioning orderly within the jurisdiction of running their own personal financial matters - thanks to ***America's prohibition*** on Argentina to adjust the money supply in accordance with rightful demands of their citizens.

Well-o-well, where do I begin? Sometimes linear thought expression is clumsy for conveying a singular picture of a situation all at once, but I must try lest I fail to help you understand what game is being played on the nations.

When Argentina suffered from runaway currency inflation the government officials did one thing wrong. It was not the principle of money creation per se, but the government's failure to have such power applied on loans incurred which make up the national debt! Had the government forced the banks to accept government authorized funds (constitutionally called legal tender) as payments toward the cancellation of Argentina's national debt, then such action would have resulted in a ***cost reduction*** of running Argentina's government which would have meant the need for a reduction of taxes or higher salaries for its workers, and would have reversed the spiral of inflation downward, as **all cost reductions reverse inflation downward!**

Inflation is not being caused by the printing of new currency to meet the demands for goods and services among the people, but by ever escalating costs of providing the movement of goods and services, be they increased costs of operating the government or those of the industry providing income for the people!

A growing population demands a corresponding growth of the nation's money supply! Fail to allow the amount of currency to grow accordingly, and what you will have is a nation full of people not being able to look after themselves financially!!

When the arrangement between Argentina and the united states was struck all Argentinean national debts to the international bankers were left intact, which in itself placed the nation at an instant disadvantage concerning her obligations of regular debt payments to New York bankers. At that point the only source for funds toward interest payments on the national debt was income the nation earned from exports of goods and services, and if the world would not give the Argentine economy sufficient business to match national debt payments, then the only source from which New York could possibly be paid is currency in circulation among the people! The Government of Argentina used the people's accounts as security for their debt payments to the bankers in New York and forbade their citizens to cash in their own bank account assets! HOW SINISTER!

Here we have a classic example of how the people's livelihoods are sacrificed on the altar of the banker's system, and all of this manipulation is done totally irrespective of the situation "on the ground" which provides for an abundance in goods and services! However the nation's capacity to look after everyone's needs is made to sit dormant as the debauched money system gives the people an **artificial lack of purchasing power** as they try to access their own generated wealth!

After all is said and done, what is my advice to the Argentinean Government?

Detach the peso from linkage to the American dollar!

Establish an honest exchange rate between your peso and the u.s. dollar by gauging it to your production costs, i.e. cost of a loaf of bread in USA vs. Cost of the loaf of bread in Argentina. Fix it! Don't let it float except at intervals when a review is needed for continued fairness, for should you embark on a journey of cost

reductions for the movement of your goods, then an exchange rate review to the u.s. Dollar becomes mandatory unless you wish to give your products away to the Americans at half or quarter the price of their value in America!

Tell the New York banker to go to hell! Tell him you owe him nothing, for his services to your country have merely been in the form of some ink out of his antique pen, which could have been provided by yourself at a better quality for sure! Remind him that his usury charges constitute no less than an fraudulent effort on his part to loot your country of its resources in materials and man power!

Reassume your governmental right to the creation of the nation's credit, for that is central for the regaining of the nation's economic destiny!

Seek means of cost reductions at the monetary level without imposing hardship on your people in the form of layoffs which would cause them loss of income. I can certainly help you with this one!

And should you have succeeded in making every Argentinean a millionaire with only a few pesos in his account THEN CHUCK YOUR MONEY SYSTEM ALTOGETHER INTO THE TRASH BIN OF THE AGES WHERE IT BELONGS, NEVER AGAIN TO BE USED FOR THE ENRICHMENT OF THE FEW AT THE EXPENSE OF THE MANY!!

Argentineans Ready for New Era Economics!

EDMONTON (INA Canada) December 21, 2001, Reni Sentana-Ries

It seems the bloodied international New York bankers have by default introduced the Argentinean people into the economic system of the New Era!

The america-imposed money system has denied them access to their own production and now the Argentineans have begun helping themselves to the fruits of their own labour by taking from stores and malls what rightfully belongs to them - cutting out the profiteering middle man mean-spirited bankers out of New York!

While this new way of "shopping" is still done in panic and at the risk of being shot, for the system gives it a negative connotation by calling such practice "looting", all we have to do is **make this new form of shopping legal,** and what you have is the next thing to paradise, for an equally distributed right of access to the nation's production includes those shopkeepers who will not have to pay a red peso in order to have their "looted" stock replaced or their broken windows fixed.

Likewise the manufacturers of all these "stolen" commodities will also not have to pay a single green peso/dollar for farm products or raw materials these products in high demand by the people are being made from.

Even landlords don't need to collect any more rent from the people, for the landlords won't have to pay any more property taxes or repair costs to their buildings, for the worn-out carpets can just be had for the asking from the warehouse full of new ones, whose owner just got his broken windows and beaten-down doors fixed for free by a contractor **who was not worried any more about his own costs of living expenses, for they all had come down to zero after the President had stepped down and the builder of the New Era was consulted for advice concerning what could be done to fix the pitiful situation of the Argentinean people!**

Let there be no mistake about it: **what is happening in Argentina today will land at the doorstep of many countries tomorrow - and behind it all you have New York's and London's laughing bankers, who think you are all idiots for falling for his ploy of debt creation and interest charges on "national debts".**

Paradise has no competitor, and maybe the banker is right in his assessment of your intelligence, for as long as you let the "looters" be shot or have them arrested - you ***are*** idiots!

Argentina's New President A. R. Saa Suspends National Debt Payments!

EDMONTON (INA Canada) December 24, 2001, Reni Sentana-Ries

Suspending payments on Argentina's national debt is a step in the right direction and commendable. However connecting such move with assurances to New York's crooked bankers that this move does not mean Argentina will shun her 132 billion dollar debt "obligation" is a mistake if President Saa means what he says. Only if that assurance to bankers is hollow and no more than a strategy with no intent to follow up on it, is such promise acceptable.

All national debts are not worth the paper written on! And there needs to be no promise to pay them some time down the road! Have the funds not fulfilled their purpose when the hard-working Argentineans converted them into goods and services? Why punish the people in the aftermath of a good thing? And in all this financial wrangling one cannot even blame the banker, for he only works with governments willing to play his game! But alas, governmental foolishness is not a criminal offense!

There is no law against it!

The banker's guilt lies not so much in his success to peddle a debauched money system, but rather in his audacity to commandeer this world's most powerful militaries around to do his bidding! And therein lies the necessity to have him stripped of his power of enforcement, which in today's world has become mandatory in order to curtail his cruelties as we have recently seen them inflicted on Iraq and Afghanistan.

Should President Saa talk tough and rip up the national debt documents to feed the chits back on the banker's plate to eat for breakfast, will the banker then shift his military priority from bombing Iraq next to one of bombing Argentina first? At least that would then show the world that the Pentagon and Britain's militaries are controlled by ***"...personages quite different from those as perceived by the people".*** (Quote from Churchill, who acted under the Zionists' control).

Final Solution to Argentina's Economic Plight! - by Reni Sentana-Ries, Grande Councilor to the Nations of Angorius

EDMONTON (INA Canada) January 18, 2002, Reni Sentana-Ries

For Argentina's new President Eduardo Duhalde to merely have decided to "not follow the prescriptions of the IMF" and for him to resort back to Argentina's band aid measures of past failures just does not cut it to provide immediate relief to Argentina's desperate and starving population. **There is no time any more to horse around with ineffective monetary measures designed to provide no immediate relief out of Argentina's financial crisis!** What the people want and demand from their leaders is ***RELIEF NOW!!!*** They want paid ***now*** what is owed them and have their instant access to all bank accounts restored!

To these two demands by the people the new government will not yield, and even if President Duhalde did, it would still not solve Argentina's problems in the long run. The people who demand restoration of access to their bank accounts or payment for their services are not enlightened! We must remember that these demands are the only way the people know how to regain access to their own production for basic survival, and **these demands are being voiced out of a lack of understanding for the people's need of a return to economic principles of paradise.**

For too many times it seems the people of planet Angorius have reincarnated back into lifestreams under the tyranny of finance and they seem to have lost their subconscious remembrance of paradise itself, where **all trade and all production of goods and all provision of services are being rendered with the natural understanding of equal access for all to the totality of what a planet or a nation produces as a whole!**

The people of Argentina are faced with the contradiction of "ample national productive capability" versus "lack of access by the people to the fruits of their own productivity" i.e. **LACK OF ACCESS TO THEIR OWN PRODUCTION!**

Argentineans are artificially being kept idle (unproductive) because they will not work unless they can get paid money! and so the baker will not bake bread unless he gets money to buy wheat from the farmer, and the farmer will not grow wheat unless he can do so to cover his financial costs to grow it! and as Argentina's cash in circulation is being mopped up by taxes and sent away to please the New York international bankers, Argentineans cannot eat, have no shelter, are denied

transportation or have no clothes on their backs! and for as long as Argentina has governments who deem it more important that the banker gets paid before their people are given the ability to provide for their own needs, the people of argentine will go without basic essentials of life, despite having labour and resources all in abundance right at their own doorsteps!

Argentina has run out of time to experiment with financial acrobatics in search for a solution which perhaps could please the IMF or World Bank! What President Eduardo Duhalde must do is address the people of his nation on television and over all radio stations and speak to them in perhaps the following words:

"My dear brothers and sisters of the soon-great-to-be nation of Argentina!

I am speaking to you, my people, from a heart of a concern for the physical welfare and well-being of all people of Argentina, and I want to see you happy again and placed into an economic environment conducive of all manners of enjoyment of life itself without feeling the sting of guilt in doing so!

*My people, you do have hands to labour with, so use them! You do have feet to carry you, so let them take you where you wish to go! You have a contribution to make to your nation, so be what you wish to be: a baker, a farmer, an engineer, a merchant, a store owner, a delivery driver, a refinery worker, a bus driver, a landlord, a factory worker, a seamstress, a teacher or a house wife, looking after your small children! B**e, what you want to be, my people, and provide for your nation all that is required of you as a contribution to a whole, and if you do that, you, my people, will not go hungry, for there will be food on your table!** There will be goods in your store houses, there will be teachers to teach your children and bus drivers to take you where you wish to go!*

*Do all this without condition and without asking for money as payment for your services! What you will find is that people will give to you what you need for the comfort of your life as **their** contribution to you and all, in appreciation for having **all their own needs** filled in abundance.*

When you do this you will find that your landlord will not ask you for rent monies, for all his needs of repair and maintenance are being met by those who give to him as carpenters, plumbers, roofers or what have you for the restoration of his building!

As a nation we can no longer afford to let you, our people, starve in the midst of abundance, just because the foreign banker wants it so! Your stress level will quickly go down, and soon you will rediscover for yourselves that life has become worth living once again!

*What I as your President and benefactor expect you to do is **go and be what you are, whether a student in University, a teacher of children, or a builder of houses!** And let all those whose jobs have become redundant due to the absence of any money system in Argentina at all retrain themselves in occupations where their input to society at large*

becomes beneficial to the prosperity of society as a whole! However, my people, do not withhold from any man, woman, or child, that which he or she is asking for for as long as you have resources to meet the demand.

I thank you for listening to my words today.

I have instructed all government officials to give you guidance in case certain aspects of our new economic order are unclear to you. And should grievances or disputes arise among you as you begin to re-learn what paradise is all about then my officials will provide efficient council as how to resolve any matter expeditiously. All governmental authority with regard to internal matters will remain intact until our nation runs like a well-oiled machine.

My blessings and love is with you all!"

(End Quotation from 2002)

374. What Happened To The European Union?

PEOPLES, the nations of the European Union were to have what the CENTRAL EUROPEAN NATION "IS" TO HAVE.

The European Union was to ensure that all European Nation could travel visa-free among one another.

The European Union was to guarantee that "free trade" would exist by doing away with all duties and tariffs for inter-nation trade within the European Nations.

What happened then was the beginning of horrors for not only the European Nations, but the world.

The Deep State documented a change in the retinue of currency by instituting the Euro.

This caused the separate European Nations to lose their separate currency, allowing the Deep State governing the European Union to set THEIR standard and calling the shots using the one Euro currency.

Once the Oligarchs got hold of all the European Nations' currency, all national sovereignty was done away with and the European Nations were "harnessed" to fight the Deep State wars in joining NATO of which the Deep State runs from the United States of America.

However, when the Nations of the Middle East tried to tie into the Euro to escape the U.S. dollar decades ago, the U.S. ran coups upon them and blackened their names.

Two of these men who tried to get out from under the U.S. hegemony in order to more easily deal between each other were President Saddam Hussein and Egypt's President Mubarak.

But they were "not" the only Ones;

and this course of action was to extend to the other Nations in the Middle East.

Now you have the European Oligarchy running up against the U.S. Oligarchy inasfar as Iran is concerned, under the umbrella of INSTEX meaning Instrument In Support Of Trade Exchanges, initially used under "humanitarian concern," in order to bypass the U.S. dollar exchange restrictions.

Attn: Whilst the White House, Pentagon, and Banker Elite with their corporate and industrial powers wait as vultures in the sidelines for more building contracts on yet another war, Venezuela, this time, the American Peoples are going to pay a hefty price

because though the Pentagon and its Israeli contractors think that by dividing nations to fight against the Americans, that those nations will not group together any longer,

and that China will forsake Venezuela;

and the spendthrift American military are the ones who will pay the price their Congresses and Senators place upon their shoulders whilst, they, themselves, have plenty to spend, ye Ones have little to nothing to bury your dead.

If the American cannot learn the ONENESS of all "good" UNITY then the capitalist banker already has you beat and your family their eternal slaves.

(Quotation) (Short Portion)

19971125 November 25, 1997 (8:30 pm)

Commander Hatonn on emergency channel sir.

Seila: *Put him through immediately.*

Hatonn: We will save platitudes for later little one. **The volatile situation in the Middle East is becoming more solidified by the moment. The "ARKS" have fumigated Iran and they just will not quit. (…) for the downdraft current of all external affairs has just hit the pie of pizza**

(Hatonn showed me the tower of pizza beginning to topple - allegory I suspect - Seila)

on the head, army style, and god knows! they themselves are afraid now of what just might transpire in the face of the "surrounding" liquidations of chemical warfare. They are sitting on a time bomb because they *are* surrounded - and the League of

Nations provided an "out" before, which just did not work in their conclusive favor. (...) - Hatonn 8:51 pm

377. Your Excellency, President Xi Jinping and the Good Peoples of China!

Your Excellency, President Xi Jinping and the Good Peoples of China:

Good Day.

https://www.philstar.com/lifestyle/lifestyle-features/2019/01/31/1889702/ambassador-china-firmly-supports-philippines-fighting-terrorism

We thank you for your heartfelt condolences and all your quiet yet gracious assistance in fighting "all" modes of terrorism against the Peoples,

not one hand telling the other hand of your good works;

for the borders of these Philippines need security

and the islands need security and the Philippines do not have enough security upon the waters to guard the land and the resources.

You have given e-motorbikes to the Manila Police. The Silk Road is in progress. Thank you most kindly. (Smiles)

It is better, however, to fight all formats of terrorism using a different method;

a method which does not create a spontaneous backlash.

Guns and war create the need for more guns and war;

and more physical death and bombs create more destruction of the very fabric of souls.

Money is at the root of all corruption throughout the land for people clamour at the boots of those who would step on them for just a Pence or two to buy themselves "crumbs" for their lean tables.

Instead of the Second Belt Initiative, let us go one step further, ***Your Excellency, President Xi Jinping,*** *and attend rather to the* ***"spirit in its fullness"*** *of the so long awaited for* ***SILK ROAD.***

"Please."

And for the health of all the Peoples of The Great Nation of China,

With the deepest respects, Your Excellency, President Xi Jinping, for your good and kind nature.

As always do we remain,

19970317 March 17, 1997 (2:00 pm)

GRIFFITH: Greetings Seila. Let us begin promptly from our end then. The track on record only "SUGGESTS" to us that a "PICTURE" of little less of a proportionate measure to be afixed within neutral perimeteral designs would go strickenly like this:

Picture the countryside bereft of all dignity of mankind in general. withe the wolves and hogs lapping at the sour stench of blood-filled dung. (not a pretty picture we surmise in the least, but all in all, loves, it is sure to happen.)

The grave proceedings of a tribune in session cover up their eyes of disgust in an unrecorded effort to stymie the total effect of the eclipse in darkness. the pure ungodly "bays" of the hounds in session against the pure unfocused lives of the wretchedly poor, serve themselves naught toward the flavor of their next meal of "arms!".

Wretchedly, the cries come and go through the pure maligned stench of over-baked bodies cook their way back into a boiling potassium conduit. and then the wolves stopped howling and the oddly graphic design of the slain in spirit winced only once and began their journey of life all through from the beginning again.

Lauric:

And then did the souls rejoice among themselves for amidst the cantankering voices of their primitive past - the velocity of what was once meant to be for them in their favor seemed to take on a blow of a second degree. and the walls of the mountains fell like the caves on a platoon and indigestive vomit soared up through the stomacks of the rich as they fell gamely to their knees, weeping, pleading, for the gods to take away of their dysentery but the face of those in the heavens was immovable and the skylarks knew better than they what dwelt at the top of the once forlorn nest of all apostic crime.

And the goddess of the nations fled to her knees in bending grace from those who offer none other mercy to the ire of the "witch" who in the form of a large carnivorous dragon didst open of her mouth to swallow man whole and didst he of seen of himself to beg beyond the stars even so would mercy no more have shown her face toward the plight of man..

And the young goddess of the nations hid herself within the bramble with the thorns girded about her chest and the nations roared their vengeance as the young goddess didst to weep tears of pure "blooded" joy. and the ride finally came and the nations rejoiced and trembled and shook amidst the roar of the engines divine and lifted the goddess and

three up to the top of the precipice where the roar even quenched the sound of liberty once more.

And all fell as silent. And the goddess was taken, and her counterpart was replaced by one other left upon the cinders of the earth in glowing composement toward the ire of man, for the goddess was taken and the three and the counterpart for replacement back into earth's future could not be seen through a graft in time.

And the rejoicing began in the heavens of fire while the wolf sang his song to the skylarks in motion. And the goddess wept no more, for the plight of the damned had all but come to terms with their prestigious ways.

And the earth fell silent for one hundred and twenty days, and the mist clouded again as the (?) was built. And beauty again of the gods saw to cradle in the dawn of a beautiful and mysterious New Day. And the gods flew in, and posterity once again "ruled" the grasses beneath the ground and the sky above the earth. and they worshipped neither the god of the sky or the mother of the earth, for silent prayer was formed within their soul and they knew thay were one with all.

And the trumpets sounded the cry of old. and the heavens opened up in majesty to set as a glowing crown upon the head of the wise at heart. and the goddess once again rejoiced as she watched her children after her own kin settle themselves into the ground in utter chagrin that tomorrow a new day may settle in for a long journey homeward.

And the trees rustled their leaves as the hyena laughed its corked giggle over the laugh it had on the remains of man and the earth fell silent once again for a space of 200 more years as the first segment of man's history saw toward dislocating the shoulder of the tyrant beast. and the earth fell silent as the wasp netted it's groin around the feebleminded as they played and danced the night away.

And the goddess no longer saw the utter and complete destruction of the earth. for her home was far away, and the fruits of her impeccable labour lay waning before the multitudes of the people. And no one cared to listen. And the goddess wept not, for the journey through time had ended, and the stars in the skies hid their beauty amidst the darkened firmament. And no one looked back..

And so began the second magnitude of era directed to mankind. and the earth died for a second in time while the nightingales picked up their dead and flew them out to heaven. And so the rejoicing began again. and the goddess began to weep, for the joy in her breast filled lusterly the diaphragm of the art of the nations, and in silent platitudes didst the earth tremble.

Then all was silently met upon the broadened scope of liberty through the stage of puberty. And the hosts were as damned - for their retinue included naught the strains of the unholy in guise. And the goddess laughed, for the time had come for the twelfth

resurrection. And the fish stroked the limbs of the broken and bloodied as the earth ran red with shuddering speed. and the earth again fell silent.

The king of heaven did see to descend once more great time in hope of recapturing that purity of soul. *But none other was to be found. and the king gathered his host and fled the compartment of the dead, and the goddess who stood by his side in grief, once again wept stained tears of sorrowed joy, for the nations below fumed up their smoke in hope that the gods would see and relent.* ***but the face of the gods' of passion was bent on the return of the nations into a gravitational barrier of near met beautiful standards of holding a society built in spirit for heaven.***

And the goddess died a beautiful death ***and the swans that came back two by two manifested their joy back unto the earth. And time reigned true again, and the blessings of mother nature began her new bout with joy, and the goddess sang a simple tune as the hen clucked her children around the grave of another forlorn generation.***

Seila, dear child, much of this strict dialogue concerns bothe ye as well as your beloved of ages past. Let not "HURT" redeem any cause not worth having.

"AND THE GODDESS AND GOD REJOICED, FOR THEIR TIME WAS MET UPON THE ETHERS OF THE UNGODLY AND ALL GOLD WAS LAID AT THEIR FEET."

Good night. **Lauric** out. (9:20 pm)

Two witnesses journey afar. one was picked up by a freighter at large and set atop a mountain by the gods to serve those of his own earthly flesh.

The second great conqueror came from the stars and rolled over the stone and produced a prototype of the gods' in motion, thusly displaying their pure displeasure upon the heads of the people.

And the goddess cried out and wept for having been selected to be there. And tears of joy cascaded down the iron cheeks of jaded joy.

And the lion and ram always sat down beside the two who were later to proclaim of themselves through their heritage of the stars that not all "moons" upon the earth cloak themselves in attributes of royal blue.

And the divining rod came down and sucked them all beneath the earth.

And the voice of the gods were heard to exclaim: that the villainy was past.

And the earth fell silent and wept her tears.

And all became as the night before day.

And all things on the face of the earth were given their liberty to live.

And all things died.

And the face of the earth became bleak once again.

And the edifices built to take down the gods, rumbled and shook.

And a large quake was formed amidst a growing nation.

And the dogs began of their howling.

And the earth gave of its own.

And the last second of breath spewed out its volcanic ash.

And the dead of the living rose heartily from their graves and in mild tribute paid homage to the gods of the nation.

And once again man lived as he had in the past.

And the voice of the gods thundered the heavens

And man was once more reclaimed as the seed of his forefathers.

And the seed spent its worth upon the face of the earth.

And divinity took over its cause toward the living. for the masterpiece had been shattered, and grace played its portion that day.

And the tiny of the gods journeyed homeward.

And all was silent again for a space of 120 days and the years rolled by as the sea raged her war against the face of man.

And once again all was seen to have fallen silent.

And the goddess and the god of the nations wept great tears of joy, for their duty was ended.

And the rejoicing began once again as the posterity grew to love life.

And the heavens rejoiced once again for the game was ended and the stocks rolled from the bucket as mud from a trough.

And all was dead silent for another space in time.

And the heads of the ungodly glittered their countenance over the beast and all was proclaimed to be fine.

And the gods turned their stormy eyes to the east and beheld a living edifice upon whose gate served the entire world of the living distress.

And Adam and Eve ran prototype to the grace once shown the people of the gods.

And then all was ended and a new beginning begun.

*That is all for today. Good night, loves. (9:47 am)

Well, Lord Sananda's latter development of "STARTLING NEW LITERATURE" (and hardly deemed as philosophy), has "EXCITED" the echelon of the publishing industry to such a wide extent, that they rarely can take it upon themselves to decide even "REASONABLY" to take to themselves for a bedtime rest. And the greatest parallel to this story is that ye Ones all reign high in proximity to the books with they most selective ones of the idioms of fantastical "CRUNCH."

So in order to not reign much longer in the prostrate camp of the ungodly, "YOU MUST BE SEEN TO NOW AND RAPIDLY SECURE" all those "FEATURES" of which we have given ye and ride the winds of non-cantankerous endeavors "OUT OF THERE."

In a less substantial effort to regain the throne from the dwarf faction of the ungodly through the pure dictatorial process of the sublime, we gainitorily advise the each one of ye that the "BLIND" race for the finish line has truly "ENDED." So roll up your "COTS" of glass and manufacture unto yourselves an even less spendthrift mode of transportational apparatus. For the sink rushes in its time coordinates with the best who only "TRIED" to flush our dreams down the toilet basin of ill repute.

Grand tidings await ye all down the grand road of the divine of heart.

And the Chesipique saw of herself once again to suffer the strife of a long awaited journey to end. And then there was the "ACCIDENT" and all exploitation of every creature on earth, died. And the rapid growth of the Chesipique gradually took on new form. And a new life in a new "RACE" was again born. And the Chesipique got to

"LEARN" her efforts "TWICE." And the homecoming was as before and then didst the Chesipique grow in a solemn effort to "CONQUOR" her own strife. And the fight toward the finish line was rapidly ended.

And the Chesipique buried her grief and died to the Sons of Light, and joined back in amidst the turmoil of strife for another era of darkness. And the finish line was past.

But the Chesipique waned and whirled herself throughout the darkness of man's tombs and remembered the words of the mighty at heart which once told of her not to SPEAK A SINGLE WORD, **FOR THE GODS ARE NOT A DIMINISHED AUTHORITY IN THE SIGHT OF ANY MAN!**

And the **Chesipique finally remembered again the three strangers at her door.** And she wept great tears of distress. For time had finally fulfilled its destiny within the tomb-bearers of man, **and there were no more left to conquer of all the earth.**

And so did she weep tears of silent joy within herself, for as the clock struck the midnight hour of doom, she shuddered herself throughout the earth, and with one last mighty "SHUDDER" ran the full quarter-fifth of a mile to see what the next journey might have to offer up as recompensation to the first. For surely, had the three gods let her down and a manufacturing of "TIES" were no longer seen as "BROKEN" for the splintering off of cantankerious efforts had left her washed and dried. And every eye took in the scene-to-be as Chesipique roared away in her silent room of grandiose color.

And the end was said to have passed. And all was as it had been in the very beginning.

The reluctance, Seila, of us giving of you three this message this day is for a dutiful reason. And we will solemnly close off withe this:

The fox and the hound bent down to play its wares upon the gracious little rabbit. Then along came the Chesipique cat and glanced first in every direction to assure of herself that no one was watching. And gently picked the solid, gentle thing up and cradled it within her arms.

But the Chesipique saw of herself in the gracious and loving attire toward the manufacturing of product of eatability and the soft sweet rabbit was heartily invited to participate in the making up of the ingredients. And the cat relinquished its grip of the sour stomach turning and spewed out of its mouth the turkey and the ram. And even though the rabbit had chided the lone cat, "bits of crackers did the trick just as well." And the Chesipique grew to be quite an item among the nourished, for the rabbit truly had lost its favor among her favorite morsels.

And so the moral of the story is, has been, and always will be in the lives of ye ones three: **Not to heat on a plate of another's disgust "MORE" than can be "COMFORTABLY" digested, for the lesson always will be, that man must first**

upgrade himself as a "SEASONED" product "BEFORE' he is ready to take on the flame of desire toward another's unbridled manufacturing.

Good Morning to you, one and all!

Bravery does not come out of a bottle and ye Ones have well proven that time and time again!

Wear goggles! Protect your eyes for you only have one set!

The reason the Americans are not fighting for the ouster of your President Emmanuel Jean-Michel Frédéric Macron,

even after he and his troops by his command has jailed, maimed, and murdered not only teenagers, but older men and ladies

is for the reason that there ARE NO RICHES AND NO GAS AND OIL NOR OTHER NATURAL RESOURCES TO GO AFTER AS FRANCE IS AN AGRICULTURAL LAND WHICH ONLY MONSANTO WOULD BE INTERESTED IN;

AND IF THERE WERE SUCH RESOURCES, PRESIDENT MACRON WOULD INDEED HAVE SOLD THE NATION OUT ON HIS FIRST TERM.

Yet, the American Deep State go by pretense that because teenage young men in Venezuela were jailed for protesting, President Nicolas Maduro is demeaned and taunted by the Americans and the EU for being a ruthless leader.

France is also a NATO member not to be offended and an atomic power.

GOOD PEOPLES OF FRANCE!

GOOD MORNING TO YE ONE AND TO ALL!

Remember, our good friends, that revolutions have set the stage for careful reform from the Bankers and their Top Dogs in Washington as well as France in the days of the serfs fighting for their liberty from poverty in the ages past.

Let us tell you that the Bankers "love" revolutions but those who do not love revolutions are their puppet masters over the Peoples of the Nations who work their charm upon those of the Peoples minds and pocketbooks.

When you pick a leader and that leader shall not fight the Deep State and Banking monopoly

you will know you have picked the wrong leader whether be male or female.

The Deep State Oligarchies love democracies for they consist of many peoples of whom any are potential combatants against the Peoples of the Nations always vying for the top Chair and spending all their efforts on retaining their own high finance platform.

This is why the two tier system does not work for the Peoples and only through their grand-standing do the politicians serve those with money toward that of their own gain.

President hopeful Guaido and President Macron are cut from the same and exact cloth right down to their very countenances of likeness.

Let us now look further into the records. You may have read this before as we have presented it afore also:

False prophecy, Gentlemen?

"WE, OF THE ROYAL FACTION OF DEBAUCHED TANKARDS, DO HEREBY PLACE WITHIN OUR SEAL THAT MANDATORY STATEMENT OF FULFILLMENT, WHICH HAS LEFT US WITHOUT WORDS TO EVEN PROTECT OURSELVES WITHIN THE PLUMAGE OF DESPISED REVOLUTION!

"THIS, MY BROTHERS OF ELITIST FACTION, WAS IN FACT PLACED WITHIN OUR GRAVESITE FOR ALL THOSE WHO MEDIATE AT THE FRONT, THAT FROM THIS POINT FORTH WE HEREBY BROADSIDE HAVE EXPOSED OURSELVES BY OUR VERY MANDATE.

"THE PEOPLE ARE WISE, IN THEY WILL PLACE ON OUR GRAVESITES THAT EPITOME WHICH STATES VERY SIMPLY THAT 'ONLY THE STARS IN THEIR

WISDOM GAIN PRUDENCE TO RULE OVER US, FOR WE ARE THE EPITOME OF THEIR GLORY!'"

"The WOIPFG in a report dated 19/7/2017 stated that there is no sign of a diminution of organ transplant volume on the local level and the Chinese hospital administrative staff will not speak about organ sourcing. They will even explain that they are under strict orders not to speak about organ sourcing, but they will not discuss it. Anyone looking over the transcripts – transcripts which clearly show consistency both in volume and secrecy over sourcing – must ask the question: is this the profile of a system flooded with voluntary organ donations?

"The order to persecute Falun Gong came exclusively from Ziang Zemin against the wishes of many of his colleagues. To get support for his heinous idea he promised huge financial incentives through giving free hand in corruption. Before Ziang left office he stacked the Party heavily with those that profited from that corruption and from whom he could expect loyalty even after his retirement.

"*That's what Xi Jinping inherited,* a government at every level entrenched in corruption and a government that sanctioned and directed on an industrial scale an organ transplant network that could kill on demand, implicating the military and civilian health care systems, and a government that for 20+ years has been vilifying the peaceful and health contributing Falun Gong as a dangerous cult.

"In my understanding it was not something that could be reversed with a pen-stroke, it had to be done bit by bit and that is what Xi has been doing. He made it clear he was on an anti-corruption drive and he carried it out relentlessly toppling all those that profited most from corruption, who also happened to be those most involved in the persecution of Falun Gong.

Xi also abolished the labour camp system where thousands of Falun Gong practitioners were detained in concentration camp conditions. Just recently Xi took complete control of the military and gave the order that the military are for defending the country and not for doing business. The military were very much involved in the organ harvesting genocide in conjunction with the hospital personnel and Xi took them out of the hospitals.

"What will the future bring? It all depends whether Xi wants to be seen by history as the statesman, who under very difficult circumstances brought an end to a genocide of innocent and good people or whether he wants to be seen as the butcher of China. I think he will be wise enough to chose the former.

ATTN: Your Excellency, President Duterte:

Good Day.

When are you going to realise that in order to PROTECT THE CHILDREN OF THE PHILIPPINES IN YOUR DRUG WAR

WHICH INCLUDES "BIG PHARMA" VACCINATIONS!

THAT YOU CANNOT SPLIT HAIRS SAYING ONE CONTAMINATED DRUG IS BAD WHILST ANOTHER CONTAMINATED DRUG IS BAD!

Why can the brilliant lab scientists of the PHILIPPINES not come up with the "Pure" serums WHICH DO NOT LEAVE THE CHILDREN WITH A NEW UNFOUNDED DISEASES,

which shall then require more serums to counter those viruses as well?!

Seventy deaths are unwarranted because a serum should have been available without Big Pharma inoculations which serve the Oligarchies' agenda to CRIPPLE AN ENTIRE NEW GENERATION!

Shall your grandchildren also become Vaccinated,

WITH ALL YOU, YOURSELF, KNOW ABOUT UNSEEN DEADLY VIRUSES WITHIN THE BIG PHARMA SERUMS?!

First, twelve years old boys are being held accountable for criminal activity of older men! and now this!

NO, I SHALL NOT CALM DOWN WHILST CHILDREN ARE FOREVER BEING USED AS GUINEA PIGS FOR BIG CORPORATIONS TO BENEFIT FROM IN THE MODE OF MONEY, MONEY, AND TO HELL WITH THE CHILDREN!!!!

When did you decide to inoculate the entire population of the Philippines? Before you went to Israel or after you came back from Israel?

And why are Israeli businessmen and women invited into the Philippines against the wishes of the Philippine PEOPLES?!

Turning arid land into healthy agricultural land was already understood by using desalination to pull the salt from the seawater and placing piping along the land.

Your Excellency, President Duterte, Sir:

Good Morning.

https://www.philstar.com/headlines/2019/02/13/1893277/duterte-wants-all-areas-under-land-reform

https://www.philstar.com/business/2019/02/13/1893153/duterte-oks-israel-loan-irrigation-projects

It would stand to reason that factioning out the land to the Peoples so they may grow their own crops for the nation is a good idea, and we agree wholeheartedly with you, that it is.

But more than rice needs to be grown; vegetables and soy among them.

Look at the CENTRAL ASEAN NATION as a community; what one does not have another will have,

and without duty or tariffs, trade back and forth can be a commodity of success like no other

and without money involved *to stop trade because it is too expensive.*

Your Excellency, you do not wish to deal with the Americans.

Where exactly do you think Israeli finances come from?

They come from the American taxpayers and whatever is lacking comes from invasions of other lands.

Right now, the Deep State Oligarchy are creating even more chaos throughout the world; Venezuela, Haiti, Hungary, Syria, Yemen, Afghanistan, and still, Iraq, whose oil and gas wells including a huge U.S. military base in that nation,

are they not giving up whilst the Peoples still continue to suffer under their merciless hand and a stupid and selfish Iraqi government.

If you let Israel into the Philippines you will turn the Philippines into another Palestine with drones to fight the Peoples who need instead to be brought into the safety net of the ***BOL*** *or* ***New Constitutional Blueprint of the Philippines.***

Who do you think runs ISIS and other groups who may enter into the Philippines?

And who do you think sent them there so you would buy drones and join Israel in destroying yet another nation - your own?

It is imperative to not fall into another trap of Israel nor the United States through allowing them through, again, the front door, ***which is booby-trapped.***

Once the new war begins with drones the Philippines will never recover.

This will simply set the stage for ISIS type people sent there by the United States and Israel (and Europe) to themselves acquire more "heavy" arms from the United States and before you know it war will turn into pure chaos and the Peoples of the Philippines will suffer greater untold woes since the last occupation of their lands.

You can set up your own central bank and print your own currency if you cannot as yet see yourselves without the use of currency which is also destroying the nation.

It is like calling the Philippines by another name*. Do you realize how much that would cost in pesos just to change the name on everything?*

A loan from Israel is a loan from the Pentagon.

No different. No different at all.

When the Philippines cannot pay back the loan to Israel, Israel will take the land, the crops and sell them just as they do to the Palestinians,

and send the military of the United States of America to collect on the loan which means your petroleum fields

therein initiating a war with China

collapsing the Philippines directly in the middle

with American bases from shore to shore

on Philippine land which you thought as agricultural land for the Philippine Peoples.

The Philippine People will be thrown off the agricultural land and American bases built.

The Americans did the same to the farmers in Iraq and when the farmers grew the produce, we suggested they "trade" at the market. The farmers loaded up their produce at night and the Americans flew over and bombed them, their trucks and their produce leaving the women and children stranded far from any civilization without any food.

Do not prefer the Israeli over your own Peoples for the Great Peoples of these Philippines are your "best crop"

and a "crop" which, IF YOU THINK FOR ONE MOMENT, the Israeli draw compassion on

you will soon see that the virus will spread just like inoculations which carry measles until you have no "healthy crop" left

of anything.

China on the other hand will assist if you still insist on loans,

without damaging the crops of either rice or vegetables or Peoples

and without destroying the sovereignty of the Philippines

but guaranteeing instead

*good trade, **"protection squad"***

and a real reason

not to war.

*To **PROTECT the Philippines, the Chinese** need to remain close for their Navy to intercept any American vessels, especially in human trafficking and drugs.*

GUESS WHO RUNS THE BRITISH NAVY ALSO? THIS BOAT IS IN FOR THE SPOILS OF THE PHILIPPINE OIL AND GAS WELLS.

Japan also shall not invade the Philippines, that day is over, and peace with Japan will reign strong.

The seafood, Your Excellency, is no longer healthy to eat and therein should be replaced with good wholesome vegetables and soy products.

These staples along with rice will provide to be a healthy diet, and with clean drinking water, and pure inoculations,

the Peoples will be safe from all harm around them.

If your financial advisors are asking you to deal with Israel, we would venture to say that Israel is funding them through the back door.

390. ATTN: Your Excellency, President Duterte: Please Veto The Pork Barrel And Tariffs On The Rice Importation

Your Excellency, President Duterte, "Sir:"

Good Morning.

Here is our report to you, and we ask in the meantime to Veto both the Pork Barrel and Tariffs On The Rice Importation, for the good of the nation and we shall explain why.

We have a third concern as well as "suggestion" which arrives at a good solution we feel toward the rehabilitation also of the youngsters who inadvertently were caught up in someone else's criminal activity.

https://www.philstar.com/headlines/2019/02/14/1893602/senate-house-share-p99-billion-pork-barrel-2019

Your Excellency, in the case of the "Pork Barrel 2019" we feel the monies could be better spent upon our **Federated Project upon the Islands.**

Just think, the BOL project, rice crops, and the Federation project the "islands" with vegetable and other crops, rehabilitation and other concerns.

Rather than the 99 billion Pesos being added to trillions and being lost somewhere in the shuffle, *we could finally use it to open up many of the islands for rehab centers for*

the youngsters, and empty the jails of all the non-hardline criminals onto their own island and allow the youngsters schools to continue or begin their education, and learn a trade and look at life from a better and different perspective.

In other words, to take the youngsters which are housed in unpleasant places and direct their lives in a more significant direction.

Music and art should be included and even at a young age, learning a trade and cooperating in the planting of trees and the like would significantly improve of their lives,

and happy youngsters are always ready, when given the right environment and education and direction,

to please their peers as well as each other.

Let us not make the fatal mistake to throw away young lives in favour of those children whose parents are poor and therein look for other sources of income which are more than harmful to the society.

In addition to this, Your Excellency, let us strongly "suggest" that the entire 99 billion Peso "Pork Barrel" be also utilized toward ***more Naval ships and Coast Guard boats*** to guard the islands in use *and find a way to grow vegetables of all diverse types for the Peoples of these Philippine Islands.*

What do you think?

(Our apologies, we had a much larger image with many more fruits and vegetables one would find in the Philippines, but for some reason it has disappeared, but this one at least gives the idea, save that, that most vegetables will be grown to a larger degree) Alright?

And a percentage of the 99 billion could also go to providing habitats for zoo animals and sealife and that would clean the streets of unwanted dogs and cats and parrots and birds, hamsters and hedgehogs and any other captive Sentient Beings.

Again, we must stress, Your Excellency, the sealife are "not" safe for the Peoples to eat.

(The "pure" vaccines are made, we have found, in South Korea, China and India, but we believe there are more Asean Nations whom also make of the "Pure strains" and "not Big Pharma" (Worried))

https://www.philstar.com/headlines/2019/02/14/1893585/duterte-urged-veto-rice-tariffication

In consideration of putting more monies in the Philippine's coffers through the tariffication of imported rice that is rather going "against" the spirit and "profit" of the Philippines and we shall explain just why this is.

It is simply because "fuel" is used to ship the imported rice into the Philippines, is it not, from other Asean Nations at their own expense?

And to place tariffs upon the imported rice which is a tax to the nations exporting the rice to the Philippines, ***that is simply an unfair practice*** and may eventually result in other nations also conducting business in the same manner toward the Philippines, as well, which the Filipino Peoples could not afford.

Even should the Philippines grow all the rice they may need in areas also which "heaven forbid" become heavily flooded, *there is still the interlude in which rice will need to be imported,*

And the Philippines should be the NATION whose mannerisms stem from fair play to gracious business dealings among the rest of the CENTRAL ASEAN NATION.

We press also for the growing of large-sized food crops among others, for one cabbage head can feed a family of five or six **"without" GMO nor Monsanto involved.**

Just think how far this would go, President Duterte, and the rest of the nutrition ALONG with SOY and BEAN CROPS, and that which the Philippines is not able to produce could be traded for automobiles (should the steel and iron mills with the help of China) take shape again, and the steel and iron shipped to the north for manufacturing and assembly with the Filipino jobs in the making.

Whereever, taxes, tariffs, duties, or any other type of usury is conducted in business, the banks win and the Peoples always always lose.

Your main problem in all of this is the fact that the Central Bank of the Philippines is controlling the currency of the Peoples of the Philippines, for the World Bank, as controlled by the Rothschilds.

YOU, MR. PRESIDENT, ON THE OTHER HAND "DO HAVE THE POWER" TO CONTROL THE CENTRAL BANK OF THE PHILIPPINES, AND IN DOING SO THE PROBLEMS WITH FINANCING PROJECTS THROUGHOUT THE PHILIPPINES FOR THE BENEFIT OF THE PEOPLES OF THESE PHILIPPINES, WOULD BE ENDED.

In the meantime, just a "note" of "Thank You's" to a wonderful and compassionate and intelligent woman, Sarah Joy Molleston, who is giving the older people a new chance at life and of their becoming good citizens of these Philippine Islands with normal jobs to attend. *Smiles!*

391. To The Peoples Of These Great Philippine Islands: Deep State and How They Affect "You"

Peoples of The Great Lands of These Philippine Islands:

Good Day.

It is "imperative" we continue working to take the American Deep State down which "includes" the Deep State arms and tentacles throughout the global community.

The Deep State and its tentacles have reached long yet not so long ago directly into the Congress and Senate of the Philippines in Manila.

Many do not want them there and others in their own vested interests, do.

Your Senate and Congress are wealthy and being wealthy they do not understand poverty and think and treat you, the Peoples, as charity cases whereby ye Ones can expect crumbs from their pork-barrel tables, leaving you to worry about your next meal even two months from now for you who now are to receive monies whilst you look for another job after been laid off in the rice tariffication event.

Their United States military and their Deep State agenda is no different than that of the vested interest of the United States of America, in Venezuela, Nicaragua, Cuba, Iraq, Afghanistan, Syria, Africa, and so on.

You will notice that the United States Deep State condemn President Maduro of Venezuela for his apparent rule against his Peoples, in seeing them impoverished, when the United States Deep State ***says nothing of the brutality of the French President, Mr. Macron,*** as he sets his military police to blind, set grenades against and shoot the Peoples of France **with deadly rubber bullets,** which President Maduro of Venezuela **does not do** to his Peoples in such concerted effort, and this ***why we strongly suggest the French police join forces with the Yellow Vest brave and holy Ones: Holy meaning Moral and Ethical.***

Sanctions are placed by the American Deep State and their allies against the People of Venezuela and ***their legitimately elected Maduro Government*** **in order to force them into poverty,**

and early elections for the purpose of election rigging by the American Deep State who threatens other nations to back Mr. Guaido, **or "else!"**

Under the guise of humanitarian aid which one would think YEMEN needed, instead, it is quite common for arms to be shipped within the so-called humanitarian aid, wrapped in blankets and in other places, for the American marionette Mr. Guaido to set forth an illegitimate coup against the legitimate President Maduro in order that the Deep State of the United States of America can "legitimately" take over the oil and gas industry of Venezuela.

Peoples of these precious Philippine Islands - you will be alot safer with the DEEP STATE DOWN and that is why we are working so hard with other in order to accomplish this very event.

This is how the Deep State works.

How does this affect the Philippines?

Just listen.

The American Deep State first creates the crisis and then brings in its demon-cracy though which the Deep State in the backdoor, *will rule the Senate, Congress, and the marionette President.*

And "all monies" will be controlled by the American Deep State.

The Iraqi were also "promised" their monies back which was kept at the time of President Saddam Hussein in a United Nations escrow account.

To this day, the poor, sad and lonely Iraqi people have not received one dinar.

This is how the American Deep State works and how they set up "reasons" to impose themselves upon other nations in order to steal those Peoples' national resources and keep it all for themselves toward even more war efforts against even more nations which are denuclearized.

This is why the United States' forces are in the West Philippine - South China Silk Road Sea;

to ready for war;

their English speaking allies by their side to share in the spoils of the Great Philippine Islands and believe you, me, the Americans will NOT share your resources with you.

We understand many of you do not like China,

But think of this: If you turn your backs on China, an ASEAN nation

you will learn one day that poverty is all the American Deep State will give you of your own resources and in fact under the banking system

that is all you are getting - poverty for the most of you.

If you do not allow China to be your defence

then shall you become slaves of the American Deep State?

You, the Peoples, are ALREADY the slaves of the Deep American Banking State.

What you need now

is your freedom.

392. ATTN: Peoples Of These Philippines! Look and Inform Yourselves Concerning Who Exactly The American Deep State Wish To Help

Notation: Image - the Blue-Faced Philippine Eagle

Dear Ones of these Great Islands of these Philippines!

The Build Build Build Program is for the Peoples of the Philippines to elicit jobs for their survival and NOT FOR BANKING CORPORATIONS FROM THE UNITED STATES OF AMERICA TO TAKE FOR THEIR OWN PROFITS!

Everywhere that the United States has gone they have left behind themselves carnage and misery, trauma and chaotic turmoil in their representative of the Deep State Bankers and Corporate powers agenda of tear apart and then rebuild making themselves more money on the Peoples misery.

If you allow the U.S. businesses in, the Pentagon will use that as an excuse to "protect" their investments against China and before you know it you are the new American Imperialistic SLAVE.

Right now, the White House and Pentagon liars are pretending Venezuela's government is placing its Peoples in poverty, when the truth is, the Peoples are not well off because they have had their gold stolen from them and placed overseas in the Bank of London, and the Venezuelan Peoples and Nation are under sanctions due to the Venezuela government not being able to receive the monies from the oil and gas they sell on behalf of the Venezuelan Peoples.

Under the pretence of "humanitarian aid" the United Deep State after trying to create a crisis in Venezuela is trying also to smear its way into stealing the Venezuela oil and gas, leaving the Peoples of Venezuela with ONLY "humanitarian aid" INSTEAD OF THEIR OWN RESOURCES.

A part of this "smearing" is calling the Venezuela government "a regime."

https://www.philstar.com/happens/456

The Venezuela government which is not an "outlawed regime" because the People of Venezuela elected President Maduro into power, is clever and is outwitting the marionette Mr. Deep State-elected Guaido by closing all ports for a short space of time.

Should this coup happen in the United States of America, the marionette and his or her backers would be arrested and thrown in jail for insurrection for going against the Constitution of free elections by the Peoples, but President Mudaro did not throw the marionette into prison, of which we cannot understand why he did not, good man that he is.

Now talking about "humanitarian aid" we shall close this portion up with a little picture for the each of ye to contemplate upon.

Perhaps the "humanitarian aid" should go to their own "homeless" first, but nay, instead the United States arrest any who dare to feed the homeless of their own accord and arrest and disappear the homeless in FEMA barges and camps full of coffins, never to be heard of again.

We are not against the American Peoples, but we are against the American tyranny which sits atop the United States, Europe, Bangladesh, and India North and South, Taiwan, Portugal, Nicaragua, Iraq, Yemen, Afghanistan, and many other nations. Paradise had being born in many nations until the Americans and their Handlers, the Zionists with their Lobbyists all put America First or Israel? Israel can make laws in the United States for their corrupt lawmakers to pass and all this "AGAINST" the will of the Peoples.

We are not affiliated with any party for we do not believe in a party system for it divides the Peoples, but we do believe in treating all globally with dignity and respect and that is why we work so hard, Filipinos, for a new system for you, to ensure you are treated with dignity and respect and to give you a taste of what it is to rebuild and live a life in the first rung of paradise.

We love you all, each and every One!

394. Your Excellency, President Duterte:Re: Secretary Of State Mike Pompeo

Notation: Image - the Blue-Faced Philippine Eagle

Your Excellency, President Duterte:

Good Morning.

Your time is short so let us begin.

Allowing the United States shadow government of the Deep State in is like opening the door to the black plague, for when they come for your resources they leave behind death and destruction.

You will not have to worry about killing anyone more in the Philippine nation because when the American Deep State come for your oil and gas, they will do it for you, and the poverty you see in the Philippines shall pale in comparison to what lies ahead when the American Deep State is finished with the nation!

Do you think for one moment that the U.S. government or regime (with all the warhawks) would be the least bit interested in the Philippines IF there were no natural resources to go after?

Do you honestly think that we can rebuild paradise out of a graveyard?

Do you realise that much of the human trafficking is coming directly out of the United States and onto their military bases to be dispersed throughout Asea and other nations?

Not to mention drugs.

Did you ever think of what would happen if President Trump did not win the next election?

The Deep State would be back in full power and whatever you signed with Washington and its corporate powers would be the same pretense of invasion of the Philippines.

Where would the safety of the Philippines be then?

When Japan and other nations tell the American military to leave, they will not leave but build more and more bases.

President Trump is surrounded by hawks and Secretary of State, Mike Pompeo is one of them.

Let me tell you of a vision I had years ago.

Something hit the Philippines, and concrete (you did not have concrete roads in that area yet) had all broken up and it looked much like an earthquake had hit.

If you think the U.S. shadow government and Deep State are your friends, then let me tell you this:

You let them in the front door you will NEVER clean Congress and the Senate from backroom deals with them,

for Washington will use blackmail, threats and bribes toward your chair to allow Washington to rule over the Philippines

– "lots of free labour, hey? – Pompeo to VP Mike Pence" (Scribed words by the Hand and Pen of I, Uthrania Seila Sentana-Ries (Cortez)

Your Excellency, President Duterte, you are a clever man because you have told the Peoples of these Philippine Islands everything about yourself so that the shadow government of the Deep State cannot blackmail you, as they do to so many others;

And those whom they have no blackmail on, they make it up with their trendy utube videos Bollywood style.

This sickens me because they think of the Philippine Peoples no greater than Israel thinks of them, the American People, nor of the Palestinians.

They are so wretched that they go behind His Excellency, President Trump's back when he is not even there to defend himself.

Now the next topic inclusion:

Making "all" government land and other lands into agricultural grounds is an excellent idea as is the cleaning of Manila Bay.

We would prefer the Philippines come under the Chinese umbrella, fully, than ever to see the American warships on the perimeters of the Islands, permanently, otherwise, the EZ will become U.S. formed and again the Philippines shall then have no waters whatsoever left.

These are credentials Your Excellency, you may wish to brood upon before it is just too late.

And gaming should be outlawed because it destroys families and you have always stated that whoever destroys the nation you will destroy!

Until the Americans clean up their own house they have no business in another's. They never play fair.

When the Middle Eastern nations tried to set up their own CENTRAL NATION, the Americans stepped in; when years ago the South American nations set up their own CENTRAL NATION, the Americans stepped in; now that the Asean nations are setting up their CENTRAL ASEAN NATION, the Americans again are stepping in;

and watching what they are doing in Venezuela, I told you that the Philippines was next, and so were you.

Two hundred Israeli troops on the border of Venezuela to run a coup against President Maduro and you invite the Israeli businessmen into the Philippines.

The PHILIPPINE BLUE FACED EAGLE IS TO BE STRONGER THAN THAT OF THE AMERICAN EAGLE AND THAT CAN ONLY HAPPEN IN ACCORDANCE AND ALLIANCE WITH CHINA.

As always do we remain

Strong to the point

395. Attention: Your Excellency, President Xi Jinping, Sir: Re: Trade Barriers

ATTN: Your Excellency President Xi Jinping, Sir:

Good Day and may you be always well.

https://www.philstar.com/happens/274

The WTO as you must know is no different than the CFR (Council of Foreign Relations) operating on American Soil, the WHO (World Health Organization) a front for child trafficking and barring not deadly vaccinations to the world's population; the Gold Club, the Club of Rome, and other fallacies which belong to the Deep State (of Columbia) (Rome), (Venezuela - Guaido) and so forth.

For as long as both sides, the United States and China work upon the crippling monetary system nothing good will come out of trade for the governments nor the nations.

Look at how the United States weasels its way into the door of the Philippines, and we can tell you that His Excellency President Duterte is next on the U.S. chopping list.

If President Duterte gives the United Deep State one concession, they will not respect him but laugh at his foolishness.

How do we know this? When Secretary of State Mr. Pompeo speaks of human rights - this is a laughable joke in light of all the criminal activities including the Crimean "barak" which the U.S. and its Zionist counterparts are and have participated in, not to forget to mention that their own homeland is a mess almost unequalled in the history of the United States of America in human rights abuses and murders by the state.

China wants the Silk Road to continue and for all nations to flourish including North Korea, however Mr. Pompeo thinks only of war.

Your Excellency, we are most gratified that you sit over China as a true brotherly and sisterly ally of the Philippines, for you and China are the safety of the Great Peoples of these Philippine Islands and we **"thank you."**

The Peoples of these Philippine Islands do not seem, many of them, to understand that the U.S. is **NOT there to protect them but is there to steal the natural resources and make the Peoples into perpetual slaves for a meagre few pesos a day for a meal.**

We are asking you, therefore, Your Excellency, to please protect the Philippines before it becomes another Sudan, or Iraq, or Yemen,

because when the American eagle digs its talons deep into the soul of a nation, they usually destroy that soul of the nation with anything their big boys want to play with and they have some nerve speaking of human rights in the Philippines when indeed they are sitting in the West Philippine-South China Sea on bases trafficking children and women.

We are here should you need our pen further, Your Excellency, for you are "our friend" and the friend of the CENTRAL ASEAN NATION which the American regime do not want to see, exist, for in numbers the **CENTRAL ASEAN NATION** is stronger than that of twenty-eight thousand American soldiers sitting in the glorious Silk Road, trafficking the children from Washington to home, so to speak.

I would say: ***they are surrounded with no place to go.***

It has been written in our Prophecies as a warning to the Zionist Deep State and their parlour maids, the three jokers, Mr. Pompeo, Mr. Bolton, and Mr. Abrams.

We do not give them a title, Your Excellency, simply due to the fact they do not work for the American Peoples, but for Israel and the Deep State, of which many Israelis sit imprisoned for refusing to murder their neighbours, the Palestinians or Lebanese.

It is a curious thing, Your Excellency, President Xi Jinping, that when the two peoples are out of work, namely the Chinese and the Filipinos, that they travel looking for work in each others nations.

If there are jobs for both Peoples, then why do they not just remain in their own nations to take up the jobs there?

Training perhaps is one problem and so the Silk Road must forge ahead and it will for the dream of Huo An must not be for naught.

Gaming I am sure you agree must be outlawed as is drug-running.

We thank you for your charitable nature toward the nations and one day soon we hope to see the Silk Road

and its non-monetary trade prove no longer a barrier to that of good sense and comradeship of all others.

With our deepest respect

Shall we always remain,

Your friends,

396. Jacque Fresco Ingenuity - Brexit - Central Nations - Blueprints - We All Work As One

PEOPLES OF THE PHILIPPINES AND GLOBAL COMMUNITY:

We wish for you all a good morning!

https://www.youtube.com/watch?v=KphWsnhZ4Ag

In reference to Mr. Jacque Fresco, wonderful and brilliant man that he is, for we never stop living but prepare for the day of our next incarnation, we speak the same language with only slight alterations. **Those such as ourselves and Mr. Jacque Fresco** have a clear remembrance of other lives and our habitation there.

Because the world, the nations, are purposefully kept in such a mess because of the monetary system with so many kept in the dark and others deliberately keeping themselves in the dark by turning away from **the information we and others have given**, my (our) personal blueprint has offered a little different solution through bringing the nations together with **CENTRAL NATIONS;**

example being of grouping nations in the likeness of one another;

CENTRAL ASEAN NATIONS

CENTRAL SOUTH AMERICAN NATIONS

CENTRAL NORTH AMERICAN NATIONS

CENTRAL BRITISH NATIONS CONSISTING OF SOVEREIGN NATIONS as given their rights back; Scotland, Northern Ireland, and Wales together with Southern Ireland and England, all forming one **CENTRAL NATION therein easily Br-exiting** away from the capitalist conglomerate of the European Union which is not actually a union at all but rather a slave colony drawn up and run by the bankers.

CENTRAL RUSSIAN NATION WITH THE SATELLITE STATES as being one group.

CENTRAL AFRICAN NATION as being another group.

CENTRAL MIDDLE EASTERN NATIONS and so on.

With each grouping of nations the Peoples shall find it easier to live in harmony and accommodate one another and when they trade only those goods which they need for their well being leaving noone out within their Central Nation or Conglomerate, then and only then will they have reached their apex of dealing with other Central Nations along the **Silk Road as envisioned by yet another who lived long ago and is a credit to his name and to his country of China - Huo An.**

This does not mean China shall rule over the world in any wise, this just means that the format of monetary value shall change significantly in its texture and meaning and that distinctly brings about a society which is cultivated for HUman Beings by HUman beings through an environmental shift for the good of the All.

397. ATTN: England, Scotland, North and South Ireland and Wales - What Comes After Brexit? (Part 1)

Good Morning to Each One of Ye resplendent with the glory of the British Isles:

England has taken the first step to exit out of the brash and thievery European Union. And let us not forget to mention that **NATO** run by the United States is, as you know, heavily affiliated with the infamous European Union who take your men and women to fight for the banking cartel and the "rights" of Israel in gaining credence over the entire Middle Eastern nations whom have also been prevented in the past from completing the building of their own **CENTRAL NATION** toward the good and prosperous lives of themselves and their nations.

We are here in assisting ye Ones in breaking the shackles the nefarious European Union has placed around your ankles, feet, wrists and yes, even neck and crown.

In the meantime for those who have not yet read the links, please do so now, for next shall we bring Scotland, Ireland, North and South and Wales into the picture whereas light shall shine forth in the nearest of moments.

There is more than one way out.

Here is one more toward the review of your own souls.

https://www.facebook.com/notes/uthrania-seila/our-address-to-the-european-union-upon-the-withdrawl-of-great-britain-and-the-is/1004308813009354/

https://www.facebook.com/notes/uthrania-seila-sentana-ries/what-happened-to-the-european-union/252842678943427/

The main concern of Scotland, for instance, is that if England pulls out of the EU through Brexit Scotland will be pulled out along with them and will economically fall flat upon their faces.

However, is this not the concern of all the "sovereign" nations of the British Isles? Indeed. It is.

The first action without delay must result in the national sovereignty of each nation:

Ireland, North and South

Scotland

Wales

England

No nation has its sovereignty intact until it is able to stand economically upon its own feet away from the European Union, NATO as operated by the United States, and each Other.

Working in conjunction with one another provides a cohesion which is only strengthened by the CENTRAL BRITISH NATION.

This is phase one.

Phase two is the economic alliance.

This alliance has everything to do with the cohesion of the British Isles to begin with and nothing to do with either the European Union of Corporate Bankers and their handlers, nor that of NATO.

Let us quickly look at a chart.

Here you are able to ascertain just how many of the House Majority are bought out by the Banking Cartel of the European Union, whose union of loyalty belongs not to the nations, rather whose union is of the Banking Cartel who in turn unionizes the Member of Parliaments in each European Nation to do their bidding.

The way to counteract this is for each nation to set up councils of not more than twenty-four and not less than twelve.

There are those of you who may think then the sovereignty of the Monarchy shall be lost.

Let us tell you now, the sovereignty of each nation is already lost under the system you now reside under.

Do you have poverty?

Is the nation and the Peoples of the nation in debt?

Do you have homeless in your streets?

Has crime been eradicated?

Are your jails full to overflowing?

Are your People contented?

You think nations such as India or Pakistan are backward because of their caste system?

Let us assure ye Ones of the British Isles that for as long as there are rich and poor and (if there are any left), middle class in the land, then you have a caste system as well.

If you butcher animals or sealife and eat them, then ye Ones are no further ahead than those who murder non-human Sentient Beings in other lands.

Once each nation regains its sovereignty, each nation will become stronger economically and even militarily.

How is this?

Economically: The European Union of Bankers shall then not be culling the money of the nation through bills passed by parliament.

Militarily: Each "sovereign" nation shall protect its own borders and not go outside of its borders through the consensus of NATO losing the lives of your soldiers to the Banking Cartel of the Rothchilds and other nameless sorts;

and bringing hatred upon your nations for the killing they have done in other nations who never "initially" invaded any of your lands.

These NATO invasions and occupations overseas and in other lands lent hand to the "plan" to invade your nations in the future which has now happened.

It is the "hour" for the each of ye Ones to leave the European Union Banking Cartel and its nefarious invading and crippling NATO Banking Cartel as run by the United Deep State of America, before ye Ones end up in a further deeper mess than you are in now.

Part two of the Economic alliance shall continue in Part 2.

We thank you.

-Uthrania Seila Sentana-Ries (Cortez), a representative of the Federation of Unified and Free Planetary World NATION

398. ATTN: England, Scotland, North and South Ireland and Wales - What Comes After Brexit? (Part 2)

Good Morning to Each One of Ye resplendent with the glory of the British Isles:

The European Banking Union Cartel insists on Brexit payment for nations to leave their nefarious Mafia corporation and industrial complex.

This is the Third Phase.

The European Union is not what you joined in the first place is it?

You now have many immigrants whose homes NATO destroyed and the nefarious European Union of Bank Cartels would not hear of they Ones returning to their homes under a system of equal and fair economics.

Our blueprint would therefore serve the purpose also of immigrants within your borders before chaos from homing so many peoples of diverse cultures arises which is exactly what the European Union means to occur.

Once the banking cartel is toppled, the immigrants shall be able to return home to the rest of their families and with the help of other nations, be able to rebuild what has been taken from them.

The Cartel of the European Union of Bankers have already sucked the nations dry with barely a morsel for your lips to whet.

Is this not so?

It is indeed, or you would sport no homeless and no caste system in your Parliament, Monarchy, or "House of Lords" should it still, behind the scenes, exist anymore.

Is it "complicated" to leave the nefarious European Cartel of Union Banks?

No, not at all, and of that shall we explain shortly.

https://www.facebook.com/notes/uthrania-seila/our-address-to-the-european-union-upon-the-withdrawl-of-great-britain-and-the-is/1004308813009354/

Bring together all your "RESOURCES" and supply each other with those resources which you cannot supply for yourselves.

Now currency would not be needed if you take back power from the banks.

However, when you create your currency distinctly for each nation, the pound, etc. then you will also want to make sure there is no liability of whose currency shall be measured against whose.

Therein, it is much the better for each "sovereign" Brexit nation to take the control of the currencies from the Central and Private banks through dumping the monetary system altogether whereby you work distinctly and totally upon the PURCHASE ORDER SYSTEM of economics.

Right now, Parliament has only its eyesockets on the gain of their own purses and not for the reason they were elected and appointed in the first place.

Is that not correct? Hum?

It is indeed we shall agree.

Let us look at this next article and no matter of its date, it is still relevant.

(Quote) **"Local focus call for post-Brexit Wales**

A post-Brexit Wales needs a rethink of economic policies and not just a "business-as-usual" approach, according to think tank the Bevan Foundation.

It looked at the economic opportunities and challenges of leaving the EU in a report published this week.

The authors said a new approach should focus on developing local businesses and organisations, in what is called a ***foundation economy.***

BBC Wales' economics correspondent Sarah Dickins reports.

- *02 Aug 2016* ***(End Quote)***

A foundation economy is an economy whose foundation separates or parts from the usual failed system and ensures a foundation of propriety based upon need ***and not oversupplies for the purpose of monetary export.***

Monetary export is only agreed upon ***if there is an overflow*** *which the Peoples do not need for their own well-being* ***and not profit.***

If a nation is short of a commodity, for instance, that nation must see FIRST WITHIN ITS OWN CENTRAL NATION *who can supply that commodity.*

THEN AND ONLY THEN *does that "sovereign" nation approach the said nation and supply "another" or secondary nation within the* ***CENTRAL NATION*** *with a staple of its own making of necessary excess in order that the nation whose commodity it needs shall do business with the first nation as long as the requirements be met.*

In this wise the nation in need of a certain commodity will be able to distinctly acquire the commodity its nation is in need of through a second nation if need be.

Now, when ye Ones have your CENTRAL NATION in operation you will be ready to deal with other CENTRAL NATIONS UPON A MUCH MORE EQUITABLE BALANCE.

In this wise, you shall receive commodities in the same wise and fashion along the Silk Road which is a trading route for the nations linking each Central Nation together in helpmeet to one another without cause or strife of banking which "DISRUPTS" the FLOW of goods and services throughout the lands.

We salute each one of you for your efforts and please "remember" that those who wish to keep the current state of affairs in economics and statutes of unworkable constitutions are not fit for service to either the nation nor the PEOPLES OF THE LANDS!

Good Day and well wishes to ye All!

399. Attn: Your Excellency, Chancellor Angela Merkel and British Prime Minister Theresa May: Re: Brexit

Your Excellency, Chancellor Angela Merkel, and British Prime Minister Theresa May:

Good Morning and Good Day.

https://www.philstar.com/happens/600

Your Excellency, Chancellor Merkel, it is good of you to work so hard, and a wise move, on behalf of the "entire" British Isles to Brexit from the nefarious European Union which has changed from its inception.

We appreciate your efforts immensely.

Your Excellency, Chancellor Merkel and Prime Minister Theresa May,

We do not believe, however, that there should be a staple of goods in the format of currency to buy ones way out of an organization which is mafia based, speaking directly of the Cartel of Banks which sit over the entire European nations fleecing them daily.

The banking cartel intends upon keeping the ball rolling in their courts and are simply playing ping-pong with the European nations, dragging Brexits' out until the banks, they are most assured, shall win hands down through their volley inside another of their courts.

When a house becomes uncomfortable one leaves. When a house becomes abusive one leaves. One does not pay to leave. One does not leave their money in the hands of such gangsters, one just places on their jacket, boots, and hat, and walks out.

When the nations of the British Isles, including ALL of Ireland, whether be one "sovereign" nation" or that of "two sovereign" nations, both Irish, gather together as one Central Nation - there is then no more need to be forced to belong to a tyrant community run by the banking cartel of the European Union of banking establishments.

Thank you, both, and we believe that instead of attendance at any further talks with the European cartel it would save time and money to delve directly into the setting up of the Central Nation beginning with the British Isles, bringing home all troops immediately of that Central Nation, for the European Cartel not only fleeces the nations but recruits flesh and blood for their countless NATO wars.

This requires no more talk. This now requires action.

***We wish you each and both a most prosperous and affluent good day*.**

400. ATTN: Your Excellency President Duterte: Re: Desalination Irrigation; Banking, the Filipino Peso, ICC and The Golan Heights

ATTN: Your Excellency President Duterte:

Good Morning, Sir!

These three images are of: Desalination irrigation; Desalination pivot irrigation; Desalination plant all in Saudi Arabia.

This would work nicely island wide especially in the areas where large swaths of land for agriculture has been given to the Peoples for planting.

Solar desalination is yet very expensive. Running with green energy cuts costs immediately, **but how to do this?**

We remember years back when you spoke about the cost being too much for the Filipino purse to handle though Congress and the Senate seem to be losing billions of pesos seemingly overnight.

So why cannot the Philippines lead in paying for this in a different way which other nations do not?

The Philippines indeed, can without even taking the oil and gas out of the ground of the seabed.

Under the present day Constitution you seem to wish to presently remain under, you, as President of the Republic of the Philippines have the power to appoint all seven members of the Central Bank of the Philippines. These appointments only you can do. It is called the Monetary Board.

In order for the Executive Branch of the Government of the Philippines to exercise the proper control over the Monetary Board and its decisions, one of the members of the Monetary Board must also be a member of the President's cabinet.

Article VII Section 20

Quote from the present day Constitution of the Philippines

The Congress shall establish an independent monetary authority, the members of whose governing board must be natural born Filipino citizens, of known probity, integrity, and patriotism, the majority of whom shall come from the private sector.

They shall also be subject to such other qualifications and disabilities as may be described by law. The authority shall provide policy direction in the areas of money, banking, and credit. It shall have supervision over the operations of banks and exercise such regulatory powers as may be provided by law over the operations of finance companies and other institutions performing similar functions.

Until the Congress otherwise provides the Central Bank of the Philippines operating under existing laws, shall function as the central monetary authority.

End Quotation

The Congress establishes the monetary board, yes, **but YOU, AS PRESIDENT, APPOINT THE MEMBERS OF THE BOARD AND CAN THEREFORE DICTATE THE POLICY.**

How do you think the banks issue out loans? They write the funds into existence and rely upon the interest for their profits. They do not even care if the principle is not paid back because it costs the banks nothing to generate the funds in the first place.

You, then as President of the Republic of the Philippines, direct your members how to run the bank and as His Excellency President J.F. Kennedy did, he wrote new currency called the "United States Note" in order to take the power away from the Federal Reserve who did not wish the President to give the Peoples of the United States, equal opportunity through printing up enough currency for everyone to “benefit from.”

After the assassination of His Excellency President J.F. Kennedy, His Excellency President Johnson took the “throne” and recalled all the “United States Notes” to place again the Peoples into a no win situation, so more had to turn toward the military vocation and bomb building as well.

Without using currency at all none can be gathered back up.

YOU, HOWEVER, YOUR EXCELLENCY CAN GO A STEP FORWARD OR AHEAD OF WHAT PRESIDENT J.F. KENNEDY ACCOMPLISHED FOR A SHORT HOUR, AND PAY OFF ALL MONETARY LOANS IN LIKE FASHION AND "INITIALLY" BEFORE THE INK DRIES, WRITE INTO EXISTENCE ALL FUNDS NEEDED FOR SIMULTANEOUS PROJECTS FOR THE PHILIPPINES WITHOUT THE USE OF CURRENCY.

THIS WILL "PREPARE" FOR THE DROPPING OF THE BANKING SYSTEM IN THIS WISE DURING THE TRANSITION.

MANY NATIONS HAVE BEEN DESTROYED AND COUPS RUN BECAUSE OF TRYING TO TRANSITION FROM NOT ONLY THE U.S. DOLLAR BUT **BECAUSE THEY HAD NO MILITARY BACKING;**

THE PHILIPPINES HAS CHINA SITTING RIGHT AT THE DOORSTEP AND **CHINA SHALL NEVER ALLOW ANOTHER SMALLER ASEAN NATION TO BE ATTACKED BY FOREIGN POWERS, MILITARILY,** AS WE WELL REMEMBER HIS EXCELLENCY PRESIDENT XI JINPING SAYING.

THEREIN, WITH CHINA, THE PHILIPPINES IS STRONG MILITARILY BUT WITH THE U.S. THE PHILIPPINES IS WEAK IN FRIENDSHIP BECAUSE THEY WANT THE OIL AND GAS JUST AS THEY DO IN A CONSORTIUM WITH ISRAEL'S GENIE OIL AND GAS COMPANY, HALLIBURTON, AND OTHERS IN THE GOLAN HEIGHTS.

If you think His Excellency President Trump is your "friend" and the friend of the Filipino Peoples, you, Sir, are quite mistaken.

His Excellency President Donald J. Trump has been intercepted and is determined to put Israel first, with American money even though the United States is in debt trillions, and one side of Zionism plays the other side and will destroy America in the process **if the Patriots do not wake up and see that this is not just another military strategy, but some glorious and "tremendous" words of their President.**

It is curious why exactly the ICC does not go after the United States and Israel for their ILLEGAL display of sanctions, bombs, and coups against foreign nations; such undeclared wars.

By your action in this wise, this will also, as you wish "Federalism" to remain under the Constitution (an article which disappeared before I had a chance to read it, and was not in the archives) serve to transition the Philippines over to the **New or Original Constitution,** ***not written by a prior president but by ourselves.***

With the firmest regards do we remain

As always,

401. Your Excellencies, President Xi Jinping, President Duterte, and U.S. Secretary of State Michael Pompeo

Your Excellencies President Xi Jinping, Sir, President Duterte "Sir" and U.S. Secretary of State Michael Pompeo:

Good Day and we hope ye all come to the table of reasonable quests.

U.S. Secretary of State, Michael Pompeo, Sir, let us briefly yet not so briefly conduct ourselves in the fairest of manners.

You, Sir, are an impediment to all good common sense.

"*But when you're showing up with a non-economic offer, whether that's through state-facilitated, below-market pricing or handing someone something knowing that you can foreclose on their nation shortly, so predatory lending practices, that's not straight and we are working diligently to make sure everyone in the world understands that threat," he said."*

All right now, let us look at exactly what is happening here. The Philippines needs a navy, a large important navy to join with their own, and that navy is China. It is not wise to leave your navy so far out to sea that it cannot protect the Philippine Islands from invaders and aggressors such as the Americans. Is that not so?

What are one or two islands in the oceans or even ten if it is toward protecting the security of the Philippines or any other CENTRAL ASEAN NATION from the aggression of the Americans and their way of doing business, of which business is impeding upon the sovereignty of the CENTRAL ASEAN NATION through forced sanctions, which by the way, is severely hindering trade in the West Philippine-South China Sea, or otherwise known as the "SILK ROAD."

The Philippines is now strong with a strong navy and airforce and a swell of its own ground troops.

We have heard much talk upon His Excellency President Xi Jinping's visit to Europe and the concern of German Chancellor Merkel and the Swastika President of France, Emmanuel Macron, who also joins you in his impediment of good sound logic and reason; this same concern may be joined by others as well.

Let us then address this:

Within the blueprint of the Federation of Free Planets lies the ties that bind - equally, fairly, and justifiably.

In other words, a nation must first take inventory of what resources, including its professionals in diverse disciplines, one has in one's nation.

Secondly, a nation must not import any goods or services which it is able to provide for itself.

Is this not wise? Indeed, it is so.

So take, for instance, Huawei; Huawei products are offered to the Europeans, and Huawei is a Chinese product from a Chinese company which the U.S. State Department does not like because simply speaking, the CIA, FBI and NSA have no back door into the products to spy on the Peoples of Europe.

We can tell you the products of Huawei, from personal experience, we find excellent. Now, China, in not spying on People with their product, invites other nations to share, perhaps technology with the People of China, something they may not have.

China has opened the door, knowing that "trust" is a major factor in not assuming that Europeans are like the Americans with their back-door products, and the Chinese do not like to be accused of back-door spying because the Chinese are NOT Americans.

On the other hand, if China has all the resources it needs then, of course, China would not invite other nations' products through their front door.

The SILK ROAD works upon a need of goods and products of the Original System; and the SILK ROAD is to become the greatest FREEDOM OF NAVIGATION throughout the entire world as the nefarious banking cartel or "Money Monsters" are thrown out of their towers of glass!

You see, Mr. Pompeo, just because China does not play your hand of cards does not mean China cannot win; and what is that win?

The "SILK ROAD" for all wayfarers with Freedom of Navigation, of which, the Pentagon and White House in Washington, D.C. are deliberately breaking through sanctions upon ASEAN NATIONS.

***It is America who is breaking the Freedom of Navigation in the West Philippine - South China Sea.**

The SILK ROAD will not only improve the economic status of the Philippines, but shall make the Philippines one of the greatest hubs of alliances within the CENTRAL ASEAN NATION including the rest of the world once they throw off the shackles of the tormenting European Union of Bankers,

and South America throws off its shackles of U.S. Banking Cartel,

and then and only then shall you see and witness a peace and prosperity beyond that of your own comprehension.

"*Adm. Philip Davidson, commander of the US Indo-Pacific Command, said China represents the "greatest long-term strategic threat" to Washington.* Read more at https://www.philstar.com/headlines/2019/03/29/1905590/south-china-sea-militarization-might-undermine-asean-pentagon-says#P3FXI8bszQMTsrl1.99 "

Yes, indeed, with your soldiers running threadbare, untrained (the new crop) for what the navy requires, and committing suicide by the thousands because of the lies told to them, you have met "more" than your match with China.

"We've said this every place we've gone, every – if you talk to any of our ambassadors or our charges, they will tell you we are happy to compete on a fair, transparent basis under rule of law with the Chinese anywhere in the world," Pompeo said."

Rule of Law? You? Why would you surmise a rule of law when you, yourselves, follow no rule of law when it comes to invading, occupying, and planting yourselves long term within other Peoples' nations; threatening them, stealing their resources, and sanctioning them any time you do not get your own way, Secretary of State, Michael Pompeo?

https://www.philstar.com/headlines/2019/03/29/1905590/south-china-sea-militarization-might-undermine-asean-pentagon-says

We think the opposite is your complaint, that the South China Sea Militarization might undermine Washington D.C. and the Pentagon. Is that not more like it? Indeed it is. You are sitting on shaky ground.

Most of what ye Ones accuse China of doing, ye Ones have been doing for decades and a lot longer, would you not say? Indeed.

Your Excellency President Xi Jinping, Sir, Your Excellency President Duterte, "Sir" we trust should any words run amiss, you will heartily correct them in your own manner.

We thank all present and candidly do we sign off of this your new day.

Good Night from our end.

Salu.
